The City Clerk's Office will distribute the Records Management Policy and Procedures document to all Department Directors and each Department records coordination. Each Department Director is responsible for ensuring that the records under his/her control are maintained and destroyed in accordance with the Policy. The Policy shall be revised as necessary to meet legal and administrative requirements.

### 4. OBJECTIVES

The Objectives of the Records Management Policy are:

- 4.1 Meet legal standards for public examination, protection, storage and retrieval of records.
- 4.2 Efficient information retrieval.

- 4.3 Transfer of inactive records from high-cost office space to low-cost storage or an electronic media imaging system, thus reducing filing equipment and increasing valuable office space.
- 4.4 Orderly destruction of records no longer required by statute to be retained, and which are no longer needed for administrative, operational, legal, fiscal, or historical purposes, in accordance with the Records Retention Schedule.
- 4.5 Preservation of records with long-term or permanent value.
- 4.6 Protection of records vital to the City in the event of a disaster.
- 4.7 Elimination of duplicate records.

## 5. APPLICABILITY

Records polices apply to all records, whether that are maintained in hard (paper) copy, electronically, or in some other fashion. Each department shall develop, implement, maintain, and adhered to a records management plan appropriate for the particular records it maintains, in cooperation with the office of the City Clerk.

The City is subject to a range of statutes and rules regarding record retention and disclosure.

## 6. RESPONSIBILITIES

### 6.1 City Clerk

The City Clerk is responsible for developing, coordinating and administering policies and procedures for the implementation of the Records Management Program, and to provide assistance to Department Records Coordinators.

To perform this function, the City Clerk and/or his/her designee shall, on an on-going and periodic basis:

- Create, maintain and distribute the necessary forms to implement the Records Management Program.
- Develop and maintain a retention and disposition schedule for all City records, including the preparation of any amendments as dictated by statute or administrative policy. Submit proposals for any scheduled amendments to the City Attorney and City Council for approval via a Council Resolution.
- Maintain a current inventory and index of records transferred to the Records Center for storage. Coordinate the transfer of records from department office areas to the Records Center.
- Establish guidelines and coordinate periodic reviews of City records to

determine which records are eligible for destruction in accordance with the Records Retention Schedule and subject to the approval of the Department Director, City Clerk, and City Attorney.

- Coordinate with all City Departments, on a routine basis, the timely destruction of obsolete records according to the procedures herein. Certify and document that records have been destroyed. Certificates of Destruction shall be permanently kept on file with the office of the City Clerk.
- Oversee the special handling of confidential, historical, and essential records, and ensure the safety of Vital Records in the event of a disaster.
- Maintain accurate and timely electronic databases and a uniform filing system of all legislative actions affecting the creation, utilization, maintenance, retention, preservation and disposition of City records, in order to efficiently track and retrieve City records.
- Respond to records requests by City staff in an efficient and timely manner.
- Respond to public records requests and subpoenas for public records in accordance with law.

## **6.2 City Departments**

- Each Department Director is responsible for designating a qualified Department Records Coordinator, who shall serve on the Records Management Committee.
- Each Department Director or his/her designee is responsible for maintaining a reliable and accurate filing system to ensure the efficient maintenance, retrieval and disposition of the records under his/her control.
- Each Department Director or his/her designee is responsible for ensuring that obsolete records under his/her control are destroyed in a timely manner, and authorizing the destruction, in accordance with the policies and procedures stated herein.
- Each Department Director or designee is responsible for submitting a request for any suggested revisions to its Records Retention Schedule, to the City Clerk who will review the request and submit a recommendation to the City Attorney and City Council.
- Each Department Records Coordinator is responsible for maintaining and controlling the disposition of records.

## 7. IDENTIFYING RECORDS

The simplest way to identify if material is a record is to consult the City's Retention Schedule. If the material in question is identified on the schedule, records coordinators are obligated to maintain the record in accordance with the schedule. One of the most challenging aspects of records management can be determining if a document or media is a record when it is not identified on the schedule. If it is unclear if the material is a record or if it is clear that the material is a record, but is not included on the schedule the coordinator should contact the City's Record Manager for additional assistance.

### 7.1 What is a Record?

Some records, because of their enduring administrative, fiscal, legal or historical value, should be permanently retained. These records require that special care and consideration be given to their storage conditions and enduring preservation. Examples of permanent records include meeting minutes from Brown Act governed bodies; resolutions, and ordinances. Most records do not have values that warrant their permanent preservation. Those records with short-term value should, upon reaching the end of the retention period, be destroyed.

Records are any writing or recording that contains information related to the conduct of the public's business prepared, owned, used, or retained by the City regardless of physical form or characteristics. "Regardless of physical form" means that video, audio files and data in a computer system used to conduct business are also records.

### 7.2 Non-Records

Even though records include a broad spectrum of recorded information, not all information held by the City is a record. Transitory Communications (routine correspondence not integrally related to City business) such as texts, instant messaging, and voice mail messages that are temporary or of a brief duration are not records. Additional guidelines for emails and use of personnel devices are covered in Administrative Regulation 7.1, Telecommunications Policy.

Non-records do not require retention scheduling or destruction authorization or reporting. To control excessive accumulation, it is necessary to keep only current, useful materials and to destroy non-records immediately after needs have been satisfied. Staff should take care not to file non-records with records.

Examples of non-records include the following materials:

- Identical copies of documents maintained in the same file
- Blank forms
- Extra copies of printed or processed materials
- Superseded manuals and other directives (maintained outside the office of record)

- Routine messages not integral to City business of a brief duration such as texts, instant messaging, and voicemails
- Materials received from other agencies, people, or businesses that require no action
- Catalogs, trade journals and other publications or papers received from government agencies, commercial firms or private institutions that require no action and are not part of an action case record

## **8. STORAGE OF RECORDS**

The City of Los Alamitos is committed to effective records management and appropriate utilization of City resources. Proper storage of records in all states of a record's lifecycle, regardless of format, aids in the allocation of space and reduces liability and cost to the organization. City records should only be stored on approved devices and in appropriate storage locations.

### **8.1 Electronically**

State laws generally preclude the destruction of a public record less than two years old unless the record has been reproduced in some manner, properly stored, and is available for public disclosure to the same extent as the original. Accordingly, the Electronic Media Imaging System (EMIS) shall be the official repository used to retain and store electronic copies of City records. Use of any other system or device to store electronic copies in lieu of an original, must be approved by the City clerk prior to destruction of the original record. No page of any record shall be destroyed if the page cannot be reproduced electronically with full legibility. Every irreproducible page shall be preserved in a manner that shall afford easy reference for the retention period set forth in the retention schedule. Every reproduction made pursuant to this section shall be deemed an original record.

#### **8.1.1 EMIS Storage Medium**

The City recognizes the EMIS as the official electronic repository of the City. This system complies with requirements regarding electronic record storage as set forth in section 34090.5 of the California State Government Code. Records stored or transferred to the EMIS are eligible for destruction 30 days after entry in the EMIS with no further approval required provided the following criteria is met.

1. Department Records Coordinator identifies records that are imaged and stored in a medium other than the EMIS and are also stored in the EMIS.
2. The Department Records Coordinator confirms that quality control process is completed as outlined in the City's Imaging Policy and Guidelines for City Records (administered by the City Clerk's Office and adopted by Administrative Regulation) on designated records and that 30 days has elapsed from entry in the EMIS.

3. The Department Records Coordinator destroys the records as outlined in the City's record retention schedule.

## **8.2 Offsite**

The City will make every effort to avoid storing records in offsite storage facilities. Whenever possible, records will be held in the department responsible for the document (Office of Record) in their original form in the EMIS.

## **8.3 Duplicate Records**

When a duplicate of an official record exists, it may be destroyed as the discretion of the department director when the original record is on file electronically in the EMIS or in original format in the Office of Record, without further authorization from the City Clerk of City Attorney.

## **8.4 Records Disposition**

Record disposition applies to all records, regardless of the physical form or location of the record. At the conclusion of a records retention period, the record shall be disposed of in accordance with this policy.

# **9. REQUIRED FORMS**

The following forms are to be utilized by all City Department Directors or their designees in order to efficiently and accurately identify, inventory, transfer to storage, retrieve, and destroy records under his/her control: (Each form, including instructions, is attached hereto.)

## **9.1 Records Retention Schedule (Exhibit B)**

This form governs the mandatory disposition of City records by indicating the minimum length of time records shall be maintained in the office and in storage, and the time period after which they may be destroyed.

The Retention Schedules are created by the Office of the City Clerk based on a detailed examination of the Records Inventory & Identification Forms, and interviews with each department to determine the legal, vital, administrative, or historical value of the records. Applicable codes and statutes are referenced to determine the required retention period. Retention schedules and amendments thereto are approved by the City Attorney, City Clerk and Department Head, and authorized by City Council resolution.

## **9.2 Records Inventory & Identification Form (Exhibit C)**

This form is used to collect the inventory and appraisal information needed to develop retention periods for public records under the control of each City Department. The records inventory is a detailed review of the quantity, type, function, and organization of records by category or record "series". This information is used by the Office of the City Clerk to research and apply the retention periods to each record "series" per legal and/or administrative requirements. When more than one legal citation applies to a particular

record, the longest retention period shall apply. Once completed, the inventory forms are retained by the Office of the City Clerk.

**9.3 Request for Amendment to Records Retention Schedule Form (Exhibit D)**

This form is used when any change is needed in the Records Retention Schedule. It is completed by the requesting department and reviewed by the City Clerk or his/her designee. Each "Request for Amendment to Records Retention Schedule" form is then submitted to the City Attorney and City Clerk for approval and must be authorized by City Council resolution. The City Clerk or his/her designee will initiate and coordinate a periodic review of all department Retention Schedules to ensure compliance with legal requirements.

**9.4 Authority to Destroy Obsolete Records Form (Exhibit E)**

This form is prepared by the department wishing to destroy records. The City Clerk or his/her designee reviews the form and forwards it to the City Attorney for approval. Once approved by the City Attorney, the records are destroyed. The form is then signed by the department verifying destruction and returned to the Office of the City Clerk for permanent retention.

**10. DISPOSITION OF RECORDS**

As provided by Govt. Code Section 34090, upon the request of the Department Head and with the written consent of the City Attorney and the City Clerk, the records identified in the Records Retention Schedule are authorized to be destroyed on an on-going basis in accordance with the retention periods described therein without the necessity of a specific resolution of the City Council.

**10.1 Procedure**

The Office of the City Clerk shall be responsible for scheduling and coordinating with all City Departments the destruction of records on an annual basis. The appropriate forms will be distributed to all City Departments in order to document the records to be destroyed.

It shall be required that the Department Head, City Attorney, City Clerk and Records Management Coordinator authorize and sign each "Authority to Destroy Obsolete Record" form prior to the records being destroyed.

NOTE: It is imperative that the requests for Authority to Destroy Obsolete Records be reviewed carefully by all signatory staff in order to determine whether records listed are involved in litigation, or if there is an administrative and/or operational requirement which may require a temporary extension of the retention period.

Records deemed to be confidential in nature shall be shredded. All other records shall be removed from their locations for secure destruction.

The Department Director in control of the records and City Clerk or his/her designee shall certify each and every destruction of records. The City Clerk or his/her designee shall maintain a permanent record of all destroyed records and destruction certifications.

## 10.2 Exceptions

In accordance with Government Code Section 34090, the City is not authorized to destroy the following City records:

- Records affecting the title of real property or liens thereon.
- Court records (unless the originals are maintained by a court of law).
- Records required to be kept by statute.
- Records less than two years old.
- The minutes, resolutions, or ordinances of the City Council or the City's Boards or Commissions.

## 11. VITAL RECORDS PROTECTION

Vital Records contain information necessary for the City to resume operations after a disaster. Each Department Director is responsible for identifying the Vital Records under his/her control and ensuring that the Vital Records are maintained according to the following procedures:

- All Vital Records shall be stored in a secure, safe and controlled environment, to protect the records from theft or damage (i.e. vault or Records Center).
- Vital Records that are in use but are required to be kept in a secured area, should be returned to the secured area at the end of each workday. Vital Records should not be allowed to accumulate on desks or in unprotected areas.
- The Information Technology Division shall back up the City's Servers, and imaged records each business day in accordance with procedures established with the Administrative Services Director. The backup copy will be stored at an off-site location to be used for recovery if necessary. The address of the off-site location is on file with the City Clerk's office.
