# **CHAPTER 1**

## **INTRODUCTION**

### **A. Purpose and Content**

The Housing Element of the General Plan contains the official policies for the construction, rehabilitation and preservation/conservation of housing in the City of Los Alamitos. The Housing Element is built upon identification and analysis of existing and projected housing needs, resources, opportunities and past performance. The Housing Element contains detailed analysis of the City’s economic, demographic and housing characteristics.

The Housing Element addresses housing opportunities for current and future Los Alamitos residents through 2029 and provides the policy guidance for local decision making related to housing in the City. The Housing Element is the only element of the General Plan that requires review and certification by the State of California.

This Housing Element update covers the Planning Period from October 2021 through October 2029. The Housing Element also evaluates the City’s progress in implementing the 2014–2021 housing policy program.

### **B. Housing Element Updates**

The Statewide housing goal is “decent housing and a suitable living environment for every Californian” (Government Code Section 65580). The Legislature recognizes the important role that local governments play in pursuit of this goal and mandates that all cities and counties prepare a Housing Element as part of their comprehensive General Plans.

The Housing Element is intended to be reviewed annually and updated and modified as necessary to remain relevant and useful and to reflect the community’s dynamic housing needs. This Housing Element update covers the planning period from October 2021 through October 2029, consistent with the State-mandated update required for all jurisdictions within the Southern California Association of Governments (SCAG) region.

## **C. State Law and Local Planning**

### **1. Consistency with State Law**

The Housing Element is one of the eight required General Plan elements, mandated by State law. State law requires that each jurisdiction’s Housing Element consist of “an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing.” The Housing Element must also analyze and plan for housing for all economic segments of the community.

Government Code Section 65583 outlines specific requirements regarding the scope and content of the Housing Element.

### **2. General Plan Consistency**

The Government Code requires internal consistency among the Elements of a General Plan. Section 65300.5 of the Government Code states that the General Plan’s various Elements shall provide an integrated and internally consistent and compatible statement of policies. City staff has reviewed the other Elements of the General Plan and has determined that this Housing Element provides consistency with them. The City will maintain this consistency as future General Plan Amendments are processed by evaluating proposed amendments for consistency with all Elements of the General Plan.

### **3. Relationship to Other Plans and Programs**

The Housing Element identifies goals, objectives, policies and programs for the Planning Period that directly addresses the City’s housing needs. These goals and policies will be implemented through a number of City plans and programs including the City’s Municipal Code.

## **D. Housing Element Organization**

The Housing Element is organized into four parts:

- Section 1: Introduction. Explains the purpose, process and contents of the Housing Element;
- Section 2: Housing Needs. Describes the demographic, economic and housing characteristics of Los Alamitos, as well as the existing and projected housing needs;
- Section 3: Resources and Constraints Analysis. Analyzes the potential and actual governmental and non-governmental constraints to the maintenance, preservation/conservation, and development of housing. Also analyzes the potential housing resources of the City; and,
- Section 4: Housing Policy Program. Describes specific policies and programs the City will carry out over the Planning Period to address the City's housing goals.

Supporting background material is included in the following four appendices:

- Appendix A: Community Outreach
- Appendix B: Residential Land Resources
- Appendix C: Review of Housing Element Past Performance
- Appendix D: Assessment of Fair Housing
- Appendix E: Glossary of Housing Terms

## **E. Community Participation**

The Housing Element was developed through combined efforts of City staff, the City's Planning Commission, City Council, and community members. Community input was sought and received through a public workshop and hearings. The City held a community workshop on August 25, 2021, at which participants generally asked questions about the City's responsibilities and future housing needs, and also discussed the upcoming Town Center Strategic Plan, which will incorporate inclusionary housing requirements for the parcels located within its boundary. The workshop was advertised in the newspaper, noticed on the City's website, and included in a mailing to property owners and an email blast to interested developers in the region. Following the workshop, the Housing Element update was posted on the City's website for public review and input in a 17-day comment period. This effort was announced through a City-wide mailing and e-newsletter to all residents, posting of notices on the City's website and in the newspaper, and announcements on social media. Following the

**1****Housing Element  
Introduction**

---

public review period, the Planning Commission held a hearing (October 27, 2021) on the Housing Element, to solicit additional input. Three community members attended, and expressed concerns about the addition of more housing units in the City. The Planning Commission tabled the Housing Element pending HCD review, and the Element was submitted to HCD on November 2, 2021.

Comments received through the outreach activities have been considered in the development of the Housing Policy Program. A summary of the comments is provided in Appendix A of this Housing Element, along with a list of community stakeholders.

The City will continue to conduct outreach regarding housing issues through the planning period, including AFFH outreach, as described in Policy Action 3.6 and 5.3. Please also see Appendix A.

*This page intentionally left blank.*

# CHAPTER 2

## HOUSING NEEDS ANALYSIS

### A. Introduction

One of the key mandated components of the Housing Element is evaluating both existing and future housing needs for all segments of the community.

This chapter analyzes housing demographic and economic characteristics that influence the supply of and demand for housing. These analyses provide baseline information and establish a foundation for developing policies and programs to address identified housing needs. The analyses identify housing needs according to income, tenure, and special needs groups.

Primary data sources include the 2000 and 2010 US Census, the American Community Survey (2019), the California Department of Finance (DOF), the California Employment Development Department (EDD) and the Southern California Association of Governments (SCAG). These sources provide the most reliable information for evaluating existing conditions and a basis for consistent comparison with historical data. These sources also provide forecasts of future conditions and needs.

### B. Community Profile

#### 1. Population Trends and Characteristics

Population and employment trends generally influence the demand for housing and the types of housing needed. This section describes the changes to population size and age and racial/ethnic composition of the City.

##### a. Historical, Existing and Forecast Growth

Los Alamitos is one of 34 cities within Orange County. Table 2-1 lists the counties in southern California and their respective populations. DOF estimates the overall County population was 3,153,764 in 2021, the third most populous county in the state. Los Angeles and San Diego Counties had the first and second largest populations in the

state, respectively. According to the 2010 US Census, Orange County also had the third largest county population at the time with 3,010,232 residents. Overall, the County has experienced slower population growth over the last two decades. The population increased by 18 percent from 1990 to 2000, less than 6 percent from 2000 to 2010, and less than 5 percent from 2010 to 2021. From 2020 to 2021, the County population decreased by 26,727 residents.

**Table 2-1**  
**Regional Population Trends**  
**2000-2021**

<b>County</b>	<b>2000</b>	<b>2010</b>	<b>2021</b>
Imperial County	142,361	174,528	186,034
Los Angeles County	9,519,338	9,818,605	10,044,458
<b>Orange County</b>	<b>2,846,289</b>	<b>3,010,232</b>	<b>3,153,764</b>
Riverside County	1,545,387	2,189,641	2,454,453
San Bernardino County	1,709,434	2,035,210	2,175,909
San Diego County	2,813,833	3,095,813	3,315,404
Ventura County	753,197	823,318	835,223

Sources: US Census Table P1, 2000 and 2010, California Department of Finance E-5, 2021.

As shown in Table 2-2, DOF estimated Los Alamitos' population at 11,538 in 2021. The City experienced a decrease in population between 2000 and 2010 (87 people, or 1 percent), and a 1 percent increase in population from 2010 to 2021. Therefore, in the last 21 years, there has been no change in population in the City. The City represents approximately 0.4 percent of the overall county population.

**Table 2-2**  
**Population Growth**  
**2000–2021**

<b>Jurisdiction</b>	<b>2000</b>	<b>2010</b>	<b>2021</b>	<b>2010-2021 Growth</b>	
				<b>Number</b>	<b>% change</b>
City of Los Alamitos	11,536	11,449	11,538	89	1%
<b>Orange County</b>	<b>2,846,289</b>	<b>3,010,232</b>	<b>3,153,764</b>	<b>143,532</b>	<b>5%</b>

Source: US Census Table P1, 2000 and 2010, California Department of Finance E-5, 2021.

The Southern California Association of Governments (SCAG) prepares population forecasts for jurisdictions within its coverage area as part of future growth policies and programs. SCAG's 2020-2045 Regional Transportation Plan/Sustainable Communities

Strategy (RTP/SCS) forecasts the Los Alamitos’s population to reach 12,300 in 2045, although the City’s population has been stagnant for over 20 years. SCAG’s projection represents a 6.6% increase between 2021 and 2045, or an addition of 762 residents.

**b. Age Composition**

From 2010 to 2019, Los Alamitos experienced growth in the Retirement (55-64 years) and Senior Citizen (65 years and over) populations, while the populations of other age groups somewhat declined. This suggests a slowly aging trend and potential growing need for senior housing and programs. The Prime Working age group remains the largest in the City with 40.8 percent of the population in 2021. Table 2-3 summarizes the age distribution of the City’s population.

**Table 2-3**  
**Age Distribution**  
**2010–2019**

Age Group	2010		2019	
	Number	% of Population	Number	% of Population
Preschool (Under 5 years)	527	4.6%	457	4.0%
School (5–9 years)	668	5.8%	765	6.6%
	904	7.9%	938	8.1%
	1,007	8.8%	593	5.1%
Young Adult (20–24 years)	712	6.2%	577	5.0%
Prime Working (25–34 years)	1,356	11.8%	1,608	13.9%
	1,582	13.8%	1,633	14.2%
	1,866	16.3%	1,467	12.7%
Retirement (55–59 years)	682	6.0%	845	7.3%
	551	4.8%	775	6.7%
Senior Citizen (65-74 years)	694	6.1%	1,047	9.1%
	625	5.5%	476	4.1%
	275	2.4%	353	3.1%
<b>Total</b>	<b>11,449.00</b>	<b>100.0%</b>	<b>11,534</b>	<b>100.0%</b>

Notes:

<sup>1</sup> Discrepancy due to categorical change in Young Adult definition, 2010 Census break down classifies school age as 5–19 years and Young Adult as 20–24 years.

Sources: US Census Table P12, 2010, American Community Survey 5-Year Estimates Subject Table DP05, 2019.

### c. Race and Ethnic Composition

As illustrated in Table 2-4, the majority of Los Alamitos residents are White, representing 62.5 percent of the population in 2019. Asian residents comprise the second largest racial/ethnic group with 14.6 percent of the population, and residents of 'Some Other Race'<sup>1</sup> comprise the third largest group with 8.3 percent. Between 2010 and 2019 the White, American Indian and Alaska Native, and Native Hawaiian or other Pacific Islander populations declined. All other racial/ethnic groups increased in population, including residents of Hispanic or Latino origin, which increased from 21.1% to 27.0% of the total population between 2010 and 2019.

Table 2-4  
 Racial and Ethnic Composition  
 2010–2019

Racial/Ethnic Group	2010		2019		2010-2019 Change in % of Population
	Number	% of Population	Number	% of Population	
White	8,131	71.0%	7,214	62.5%	-12%
Black or African American	324	2.8%	713	6.2%	118%
American Indian & Alaska Native	51	0.4%	5	0.0%	-90%
Asian	1,471	12.8%	1,681	14.6%	13%
Native Hawaiian or other Pacific Islander	50	0.4%	22	0.2%	-56%
Some Other Race	726	6.3%	954	8.3%	30%
Two or more races	696	6.1%	945	8.2%	35%
<b>Total</b>	<b>11,449</b>	<b>100.0%</b>	<b>11,534</b>	<b>100.0%</b>	<b>0.7%*</b>
Hispanic or Latino (of any race)	2,418	21.1%	3,110	27.0%	28%

Sources: US Census Tables P3 & P4, 2010, American Community Survey 5-Year Estimates Subject Table DP05, 2019.

\*Change of total population.

<sup>1</sup> The Census Bureau uses the category "Some Other Race", which accounts for single races other than the five race categories per U.S. Office of Management and Budget (OMB) Standards for Race and Ethnicity (1997):

- American Indian or Alaska Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White.

## 2. Employment Trends

Housing needs are also influenced by employment trends. Proximity to job opportunities is an important factor in housing choices. Significant employment opportunities within and close to a city can lead to demand for housing. The quality and/or pay of available employment influence the demand for various housing types and price levels.

Table 2-5 lists the top employers in Los Alamitos in 2021. The types of industries with large employment needs in the City are closely related to the housing needs of the local labor pool. The City’s principal employers include hospitals, aerospace manufacturers, business services and restaurant/wholesale trade. Typical jobs in these industries include production workers, medical professionals, clerks and managers.

Table 2-5  
Top Employers  
2021

Company	Industry	Number of Employees
Los Alamitos Medical Center, Inc.	Healthcare	1,100
Arrowhead Products	Aerospace	780
Trend Offset Printing Services	Service/Printing	700

Bearing Inspection, Inc.	Business Service	97
Ganahl Lumber Co.	Business Service	95

Source: City of Los Alamitos and HDL Companies, 2021.

As shown in Table 2-6, the largest group of Los Alamitos residents were employed in the educational services, health care and social assistance industry (23.9 percent) in 2019. Retail trade (13.6 percent) made up the second largest employment group followed by arts, entertainment, recreation, accommodation (hospitality) and food services (11.6

percent). In Orange County, the top-ranking industry is the same as Los Alamitos (19.5 percent), followed by professional, scientific, management, administrative and waste management services (14.5 percent) and manufacturing (12.2 percent).

**Table 2-6  
Employment by Industry<sup>1</sup>  
2019**

Note:

<sup>1</sup>Employment reported by Los Alamitos/Orange County residents. Does not reflect the number of jobs within the respective jurisdictions.

Source: American Community Survey 5-Year Estimates Subject Table S2405, 2019.

Annual wages vary by industry in Orange County, but steadily increased from 2012 to 2017.<sup>2</sup> As shown in Figure 2-1 below, the highest-paying sectors are Utilities, Finance and Insurance, Information, and Management of Companies and Enterprises, with incomes averaging above \$100,000. The lowest-paying sectors include Accommodation and Food Services, Agriculture, Forestry, Fishing & Hunting, Retail Trade, and Other Services (excluding Public Administration), with incomes averaging around \$20,000 to under \$40,000.

<sup>2</sup> 2018-2019 Orange County Workforce Indicators Report, Orange County Business Council.

Figure 2-1

**Orange County Annual Industry Wages, 2012-2017**

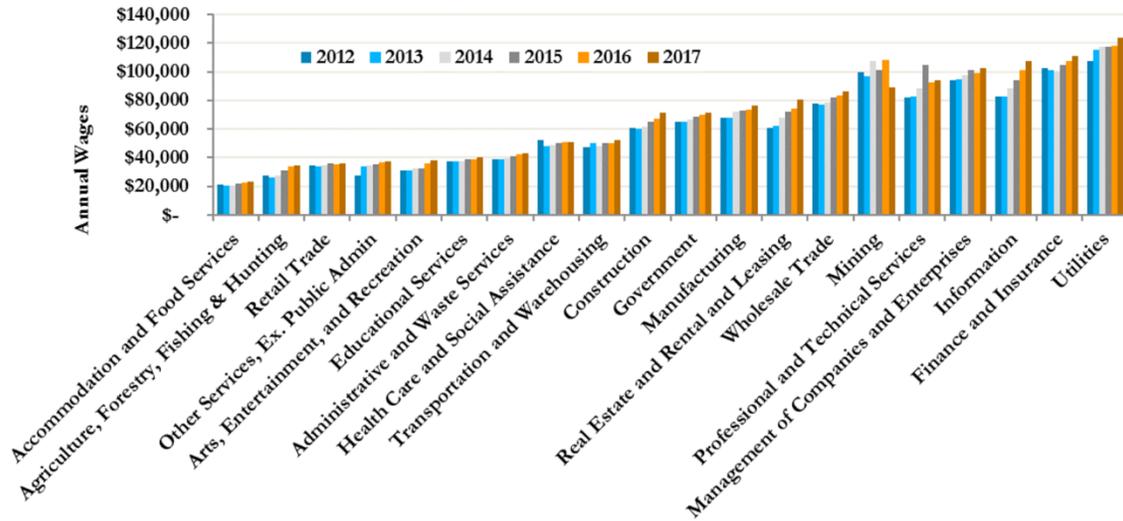

Table 2-7  
City Employment by Occupation  
2019

Occupation	Number of Employees	% of Total
Management, business, science, and arts occupations	2,646	47.8%
Service occupations	874	15.8%
Sales and office occupations	1,277	23.1%
Natural resources, construction, and maintenance occupations	311	5.6%
Production, transportation, and material moving occupations	424	7.7%

Source: American Community Survey 5-Year Estimates Subject Table DP03, 2019.

As shown in Table 2-7, nearly half (47.8%) of the City’s civilian employed labor force is in “management, business, science, and arts” occupations, followed by “sales and office” occupations (23.1%) and “service” occupations (15.8%).

According to the EDD, the City’s labor force decreased from 6,500 in 2010 to 5,300 in 2021. Unemployment fluctuated in the last decade, with a high of 8.9% in 2020 (due to the pandemic) followed by 8.0% in 2012, to a low of 2.9% in 2019. As shown in table 2-8,

the unemployment rate in Los Alamitos in April of 2021 was 6.3 percent. Overall, except for the change most likely associated with COVID-19, the employment rate has been improving in the City.

According to City tax records on the top 100 business license accounts, total employee count (based inside the City) increased from 7,737 to 10,161 in 2018, and then decreased slightly to 10,061, likely due to the pandemic. This corroborates the generally decreasing unemployment rate according to EDD data.

**Table 2-8**  
**Labor Force Trends**  
**2010–2021**

<b>Year</b>	<b>Labor Force</b>	<b>Employment</b>	<b>Unemployment</b>	<b>Unemployment Rate</b>
2010	6,500	6,200	300	5.3%
2011	6,600	6,300	300	4.9%
2012	5,700	5,300	500	8.0%
2013	5,700	5,300	400	6.7%
2014	5,700	5,400	300	5.5%

2020	5,400	4,900	500	8.9%
Apr/2021	5,300	5,000	300	6.3%

Source: California EDD, 2021.

Los Alamitos is a small city in Orange County, a major employment hub which is slowly approaching full employment.<sup>3</sup> The County's strong labor market provides ample job opportunities for both county residents and residents of nearby counties such as Riverside and San Bernardino, which have 69,019 and 36,489 net commuters into Orange County, respectively. Orange County has a net worker inflow from neighboring counties including Los Angeles, despite a high worker outflow to Los Angeles (312,035 residents) from Orange County. These data suggest the City residents have relatively easy access to in-county job opportunities, while also being able to access jobs in neighboring counties including Los Angeles. This is evidenced by a commute time under one hour for 87.1% of workers 16 years and over who did not work from home.<sup>4</sup> In

<sup>3</sup> 2018-2019 Orange County Workforce Indicators Report, Orange County Business Council.

<sup>4</sup> American Community Survey 5-Year Estimates Subject Table S0801, 2019.

addition, Los Alamitos’ physical location on the northern edge of the County makes it particularly susceptible to cross-commuting (outflow of City residents to other counties, and inflow of workers from other counties).

### 3. Household Characteristics

The US Census Bureau defines a household as all persons living in a single housing unit, whether or not they are related. One person living alone is considered a household, as is a group of unrelated persons living in a single housing unit. A family is defined as related persons living within a single housing unit.

#### a. Household Formation and Composition

Table 2-9 summarizes the change in the number of households in the City, County and State since 2000. In 2019, the American Community Survey reported 4,092 households in Los Alamitos, an approximately a 2.8 percent decrease from 2010. During the same period, total households in Orange County increased by about 4.5 percent and households in California increased by 3.7 percent.

Table 2-9  
Total Households  
2000–2019

Area	2000	2010	2019	Percent Increase 2000-2010	Percent Increase 2010-2019
Los Alamitos	4,180	4,212	4,092	0.8%	-2.8%
Orange County	935,287	992,781	1,037,492	6%	4.5%
California	11,502,870	12,577,498	13,044,266	9%	3.7%

Sources: US Census, 2000 and 2010, American Community Survey 5-Year Estimates Subject Table DP02, 2019.

The average number of persons per household in Los Alamitos was 2.66 in 2010 and 2.63 in 2021. As shown in Table 2-10, the average persons per household in the City was less than the overall county average (above 2.9) in both 2010 and 2021.

Table 2-10  
Average Persons per Household  
2010–2021

Area	2010	2021
Los Alamitos	2.66	2.63
Orange County	2.99	2.94

Sources: US Census, 2010, California Department of Finance E-5, 2021.

As shown in Table 2-11, households of 2 persons made up the largest segment of owner-occupied households, and households of 3 persons made up the largest segment of renter-occupied households. Two-person households comprised the second largest segment of renter-occupied households. One-person households comprised the second largest segment of owner-occupied households. Large households (5 or more persons) comprised 9 percent of the total households. The majority of units are rentals, about 58 percent.

Table 2-11  
Household Size Distribution by Tenure  
2019

**b. Household Income**

As shown in Table 2-12, the median household income for Los Alamitos in 2019 was \$88,729. This is \$1,505 less than the county median. Within the City, the median income of owner-occupied households was \$106,034, which is \$34,567 more than that of renter-occupied households. Because of the higher percentage of renter households in the City, median income is lower overall when compared to the County.

**Table 2-12**  
**Median Household Income**  
**2019**

Area	Median Income
Los Alamitos	\$88,729 <sup>1</sup>
Owner-Occupied Households	\$106,034
Renter-Occupied Households	\$71,467
Orange County	\$90,234

Notes:

Based on the American Community Survey data for 2019, Table 2-14 shows the income of Los Alamitos' owner-occupied and renter-occupied households. A greater number of renter-occupied households have income levels in the extremely low and very low range than owner-occupied households.

Table 2-14

## 4. Housing Stock and Market Conditions

This section describes the existing housing stock and current market conditions in Los Alamitos. Analysis of past and current housing trends provides a basis to project future housing needs.

### a. Housing Stock Profile

Based on 2000, 2010, and 2021 US Census and California DOF estimates, less than one-half percent of Orange County's housing units are located in Los Alamitos. In 2000, the City had 4,329 housing units. By 2010, the number of units increased slightly to 4,355 and by 2021 to 4,437. Given the more rapid growth in other Orange County communities, Los Alamitos' near build out conditions have contributed to its slow housing growth.

**Table 2-15**  
**Number of Housing Units**  
**2000–2021**

Year	Los Alamitos	Orange County	Los Alamitos as Percent of Total Orange County Units
2000	4,329	969,484	0.45%
2010	4,355	1,048,907	0.42%
2021	4,437	1,118,971	0.40%

Sources: US Census, 2000 and 2010, and California Department of Finance E-5, 2021.

**i. Unit Size**

As shown in Table 2-16, the American Community Survey reported two- or three-bedroom units are the most common residential unit type in Los Alamitos, comprising 71.9 percent of all residential stock. Units with four or more bedrooms are also relatively common comprising 21.7 percent of all residential units. Studio and one-bedroom units comprise only 6.4 percent of the total units.

**Table 2-16**  
**Unit Size**  
**2019**

Subject	Estimate	Percent
Total Housing Units	4,092	100%
No Bedroom	61	1.5%
1 Bedroom	201	4.9%
2 or 3 Bedrooms	2,942	71.9%
4+ Bedrooms	888	21.7%

Source: American Community Survey 5-Year Estimates Subject Table S2504, 2019.

**ii. Unit Type**

As shown in Table 2-17, single family detached and multifamily units are evenly distributed housing types in Los Alamitos. As of 2019, 45.1 percent of the housing units are single-family detached and 41.1 percent are multifamily. Smaller multifamily developments (2-4 units) and mobile homes are increasing in percentage of total housing units, while single-family detached units and multifamily developments with 5 or more units declined in both number and percentage.

**Table 2-17**  
**Housing Inventory by Unit Type**  
**2010–2019**

Unit Type	2010		2019	
	Number	%	Number	% <sup>1</sup>

Notes:

<sup>1</sup> Percentages may not equal to 100% due to rounding.

Source: American Community Survey 5-Year Estimates Subject Table S2504, 2010 and 2019.

Table 2-18 illustrates the distribution of occupied unit types by tenure. The majority (78 percent) of owner-occupied units are single-family detached. The majority of renter-occupied units are within multifamily developments. Approximately 35 percent of renter-occupied units are in multifamily structures with 2 to 4 units and 32 percent are in structures with 5 or more units.

Table 2-18

2020	3	-	-	-	22	209,216
<b>Total</b>	<b>15</b>	<b>375,000</b>	<b>10</b>	<b>149,100</b>	<b>42</b>	<b>186,643</b>

Notes:

<sup>1</sup> Calculated using provided data.

Source: City of Los Alamitos.

Table 2-19, above, describes residential building permit activity during the 2014-2021 planning period. Permits were issued for a total of 67 units. The majority of single-family units constructed were mobile homes. Multi-family developments with 5 or more units gained the most growth from 2017 to 2020, with an average value increasing from \$150,000 to \$209,216 per unit.

In addition to the permits listed above, 10 permits were issued for Accessory Dwelling Units (ADUs) between 2014 and 2020. Three of the 10 permits were completed in 2020 and 2021, and the others remain open as of July 2021. ADUs are a new building type in the City, which may provide additional housing opportunities in the 2022-2029 planning period, particularly for affordable housing (see Chapter 4, Housing Policy Program).

### b. Tenure

Approximately 42 percent of Los Alamitos' housing units were owner-occupied in 2019. As shown in Table 2-20, the percentage of owner-occupied housing units in Los Alamitos was comparatively less than California, and the reverse of Orange County as a whole.

Table 2-20  
 Occupied Units by Tenure  
 2019

Area	Owner-Occupied Units		Renter-Occupied Units		Total Occupied Units	
	Number	%	Number	%	Number	%
Los Alamitos	1,739	42%	2,353	58%	4,092	100%
Orange County	595,272	57%	442,220	43%	1,037,492	100%
California	7,154,580	55%	5,889,686	45%	13,044,266	100%

Source: American Community Survey 5-Year Estimates Subject Table DP04, 2019.

### c. Vacancy Rates

Vacancy rates are an indicator of housing supply and demand. Low vacancy rates influence greater upward price pressures. Higher vacancy rates indicate downward price pressure. A four to five percent vacancy rate is considered “healthy” and indicates a well-functioning market. Based on DOF data, the vacancy rate in Los Alamitos remained constant, just below 3.3% between 2010 and 2021. Table 2-21 summarizes the occupancy status during these two years. According to American Community Survey estimates, the homeowner and rental vacancy rates are very close, at 1.6% and 1.4%, respectively. These data collectively imply high demand for both home ownership and rental in the City of Los Alamitos.

Table 2-21  
Occupancy Status  
2010-2021

Occupancy Status	2010	Percent	2021	Percent
Occupied Housing Units	4,212	96.72%	4,291	96.71%
Vacant Housing Units	143	3.28%	146	3.29%
Total Housing Units	4,355	100%	4,437	100%

Source: DOF, 2010 and 2021.

### d. Age of Housing Stock

Age of a housing unit is often an indicator of housing condition. In general, housing units that are 30 years or older may exhibit need for repairs based on the useful life of materials. Housing over 50 years old is considered aged and is more likely to exhibit a need for major repairs.

Table 2-22 shows the housing units by year of construction and tenure. According to the 2019 American Community Survey, approximately 56 percent of all occupied housing units in Los Alamitos are over 50 years old. Another 32 percent are between 30 and 50 years old.

Table 2-22  
 Year of Construction by Tenure (Occupied Units)  
 2019

Year Built	Owner-Occupied Units		Renter-Occupied Units		Total Occupied Units	
	Number	%	Number	% <sup>1</sup>	Number	% <sup>1</sup>
2014-Later	28	2%	10	0%	38	1%
2010-2013	0	0%	46	2%	46	1%

<b>Total</b>	<b>1,739</b>	<b>100%</b>	<b>2,353</b>	<b>100%</b>	<b>4,092</b>	<b>100%</b>

Notes:

<sup>1</sup> Percentages may not equal to 100% due to rounding.

Source: American Community Survey 5-Year Estimates Subject Table DP04, 2019.

### e. Housing Conditions

Housing is considered substandard when found to be below the minimum standard of living defined in the California Health and Safety Code. Households living in substandard conditions are considered in need of housing assistance, even if they are not seeking alternative housing arrangements, due to health and safety threat.

In addition to structural deficiencies and standards, lack of infrastructure and utilities often serves as an indicator of substandard conditions. In 2019, the American Community Survey estimated 6 units lacking plumbing facilities and 36 units lacking complete kitchen facilities, as shown in Table 2-23. It should be noted that there may be some overlap in the number of substandard housing units, as some units may lack both complete plumbing and kitchen facilities. Table 2-23 shows that the majority of City housing stock does not lack plumbing or complete kitchen facilities, though more rental units lack complete kitchen facilities than owner-occupied units. The City has not conducted a housing conditions survey within the last five years, nor is new property owner inspection required.

On average, the City sees approximately six residential units that require action from Code Enforcement on housing conditions annually. In the last five years (2017 to 2021), the City's Code Enforcement Division has issued 21 citations to single family homes, 10 citations to multi-family units, and one citation to mobile home parks related to substandard building/property conditions such as plumbing, roof damage, electrical, building, windows, HVAC, or property maintenance issues. Most of these property owners made the required repairs without financial assistance. There are around 12 citations pending investigation, inspection, or repair as of January 2022. On average, it is expected that 6 units may need rehabilitation each year, with a cumulative total of 18 units in need at any time. However, based on the recent Code Enforcement records, the City's housing stock is generally in good condition; although some need repair and maintenance, it is unlikely to have units that need to be replaced. As a result of this analysis, the City has included 6 units per year in its quantified objectives for rehabilitation during the planning period.

**Table 2-23**  
**Units Lacking Plumbing or Complete Kitchen Facilities**  
**2019**

<b>Tenure</b>	Lacking complete kitchen facilities		Lacking plumbing facilities		<b>Total Units in City</b>
	<b>Number</b>	<b>%</b>	<b>Number</b>	<b>%</b>	
Owner-Occupied Units	6	0.3%	6	0.3%	1,739
Renter-Occupied Units	30	1.7%	0	0%	2,353
<b>Total Occupied Units</b>	<b>36</b>	<b>0.9%</b>	<b>6</b>	<b>0.1%</b>	<b>4,092</b>

Source: American Community Survey 5-Year Estimates Detailed Tables B25053 and B25049, 2019.

**f. Housing Costs and Rents**

This section evaluates housing cost and affordability trends in Los Alamitos.

**i. Affordability Gap Analysis**

The costs of renting or owning a home can be compared to a household's ability to pay for housing. Housing affordability is defined as paying no more than 30 percent of the household income on housing expenses. Table 2-24 summarizes the affordable monthly rent payment and estimated affordable purchase price by income categories, based on the 2021 HCD income limits for Orange County.

**Table 2-24**  
**Affordable Rent and Purchase Price by Income Category**  
**2021**

<b>Income Category</b>	<b>% of AMI<sup>1</sup></b>	<b>Income Limit</b>	<b>Affordable Monthly Rent Payment<sup>2</sup></b>	<b>Estimated Affordable Purchase Price<sup>3</sup></b>
Extremely-low Income	≤ 30% <b>AMI</b>	\$40,350	≤ \$1,009	\$211,294
Very-low Income	31%-50% <b>AMI</b>	\$67,250	\$1,681	\$352,157
Low Income	51%-80% <b>AMI</b>	\$107,550	\$2,689	\$563,189
Moderate Income	81%-120% <b>AMI</b>	\$128,050	\$3,201	\$670,538

Notes:

<sup>1</sup>Based on family of four. AMI = Area Median Income.

<sup>2</sup>30 % Gross Rent or PITI.

<sup>3</sup>Assumes 4.0% interest rate, 30-year mortgage. Mortgage payments equal to 30% of monthly income.

Source: HCD 2021 State Income Limits.

## ii. Existing and New Home Price Trends

As shown in Table 2-25, 7.3 percent of the owner-occupied units were valued below \$100,000. Approximately 1.7 percent were valued between \$100,000 and \$199,999. Approximately 1.5 percent were valued between \$200,000 and \$299,999 and 89.6 percent were valued at \$300,000 or more.

**Table 2-25**  
**Value of Owner-Occupied Housing Units**  
**2019**

<b>Value</b>	<b>Number of Units</b>	<b>Percent of Total Owner-Occupied Units<sup>1</sup></b>
\$49,999 or less	97	5.6%
\$50,000 to \$99,999	29	1.7%
\$100,000 to \$149,999	11	0.6%
\$150,000 to \$199,999	19	1.1%
\$200,000 to \$299,999	26	1.5%
\$300,000 to \$499,999	179	10.3%
\$500,000 to \$999,999	1,135	65.3%
\$1,000,000 or more	243	14.0%
<b>Total</b>	<b>1,739</b>	<b>100%</b>

Notes:

<sup>1</sup>Percentage may not equal to 100% due to rounding.

Source: American Community Survey 5-Year Estimates Subject Table DP04, 2019.

As shown in Table 2-26, the median value for owner-occupied homes in Los Alamitos was \$761,200 in 2019. This represents a 24.1 percent increase from the median value of \$613,600 in 2013. The median value of owner-occupied homes in the City continues to be higher than that of neighboring cities and the overall county, though it had the lowest growth rate between 2013 and 2019.

**Table 2-26**  
**Median Housing Value Trends**  
**2013–2019**

Jurisdiction	Median Value, owner-occupied units		Percent Change
	2013	2019	
Los Alamitos	\$613,600	\$761,200	24.05%
Seal Beach	\$291,800	\$371,600	27.35%
Long Beach	\$417,600	\$556,100	33.17%
Cypress	\$496,600	\$632,900	27.45%
Hawaiian Gardens	\$243,800	\$363,500	49.10%
Orange County	\$519,600	\$679,300	30.74%

Source: American Community Survey 5-Year Estimates Detailed Table B25077, 2013 and 2019.

### iii. **Ownership Affordability**

The median sale price for new and resale housing units in the City has been rising with fluctuations from as low as below \$700,000 in 2017 to over \$1.2 million in 2021.<sup>5</sup> The 2018 Los Alamitos median home sales price was \$925,000, which represents a 141% increase from 2000, slightly less than the 151% increase in the SCAG region.<sup>6</sup> As shown in Table 2-19, since 2019 only four single-family homes were constructed, and available data shows one was priced at \$1,995,000.<sup>7</sup> These recent data show that home prices exceed the affordability range for all income categories at or below Moderate income. A four-person household earning an annual income equal to the 2021 HCD AMI of \$106,700 for Orange County would be able to afford a \$558,738 home, assuming a 30-year fixed-rate loan at 4 percent. The median sales price in Los Alamitos exceeds what a family earning the median could afford. Extremely-low, very-low, low and moderate households may have difficulty finding housing they can afford to purchase.

<sup>5</sup> Redfin.com, Los Alamitos Housing Market, accessed June 3, 2021.

<sup>6</sup> SCAG Local Profiles, Core Logic/Data Quick, May 2019. SCAG median home sales price calculated as household-weighted average of county medians.

<sup>7</sup> Orange County Real Estate, Inc. Based on information from California Regional Multiple Listing Service, Inc. as of 2021-06-03 at 1:48 pm.

**iv. Rental Prices**

There are a limited number of units listed for rent in Los Alamitos. Most renter-occupied units are privately owned single-family homes and few are in larger apartment complexes. Therefore, available market data for monthly rents is limited. Table 2-27 summarizes the median gross monthly rent for Los Alamitos based on the American Community Survey. In order to update this information to current (2022) conditions, representative rental rates for non-subsidized apartments were collected and are provided in Table 2-27, below. As shown, rents for available rental units on the market as of January 2022 are much higher than average rent reported in 2019 ACS, which can indicate increasing prices and scarcity of rental units in Los Alamitos, especially for larger units. Market rent for 3-bedroom units in 2022 is almost double that reported in the 2019 ACS, and there were few studios or 4+-bedroom units available on the market.

**Table 2-27  
Median Gross Rent by Unit Size  
2019**

<b>Unit Size</b>	<b>Average Monthly Rent (2019 ACS)</b>	<b>Current Market Monthly Rent (2022 rent.com)</b>
Studio	Not provided	Not available
1 bedroom	\$1,289	\$1,850 - \$2,520
2 bedrooms	\$1,728	\$1,950 - \$3,375
3 bedrooms	\$2,292	\$3,800 - \$4,110
4 bedrooms	\$2,938	\$2,750 - \$4,500

Source: American Community Survey 5-Year Estimates Detailed Table B25031, 2019; rent.com and apartments.com, accessed January 25, 2020.

As shown in Table 2-28, at least 52 percent of renter-occupied households in Los Alamitos spend 30 percent or more of their household income on rent. The high rate of overpayment by renters coincides with the increasing market rent identified above, indicating a need for more affordable rental units in Los Alamitos.

Table 2-28  
Gross Rent as a Percentage of Household Income  
2019

Percent of Household Income Spent on Gross Rent	Number of Households	Percent of Renter-Occupied Households
Less than 10.0 percent	95	4%
10.0 to 14.9 percent	261	11%
15.0 to 19.9 percent	260	11%
20.0 to 24.9 percent	309	13%
25.0 to 29.9 percent	164	7%

**v. Rental Affordability**

Based on the average rents for housing in Los Alamitos and the surrounding areas, a very-low income family may not be able to afford a 2-bedroom unit. A low-income family would be able to afford up to a 3-bedroom unit. Four-bedroom units are only affordable to those in the moderate and above-moderate income categories. Lower-income large households may have difficulty finding adequate-size housing that is affordable.

**C. Housing Needs**

This section provides an overview of existing and future housing needs in Los Alamitos. It focuses on five categories:

- Housing need resulting from households overpaying for housing;
- Housing need resulting from overcrowding;
- Housing need for extremely low-income households;
- Housing need based on SCAG’s Regional Housing Needs Assessment; and,
- Housing needs of special needs groups such as seniors, large households, persons with disabilities (including developmental disabilities), female-headed households, homeless persons and farmworkers.

## 1. Households Overpaying for Housing

Households experiencing overpayment are households paying more than 30 percent of their gross income on housing-related expenses, including rent or mortgage payments and utilities. High housing costs can cause households to spend a disproportionate percentage of their income on housing and can result in payment problems, deferred maintenance and/or overcrowding.

Overpayment is often more prevalent in renter-occupied than in owner occupied households. The Comprehensive Housing Affordability Strategy (CHAS) database, provided by HUD based on American Community Survey data, describes the number of households, by income, with housing cost burdens. The latest CHAS data for the 2013-2017 period for Los Alamitos are shown in Table 2-29. Of all owner-occupied households, 26% are overpaying for housing, and 9% are severely overpaying. The

percentages are higher when analyzing lower-income households as a group. Of all lower-income owner-occupied households, 48% are overpaying, and 27% are severely overpaying.

Of all renter households, 48% are overpaying, and 23% are severely overpaying. Of all lower-income renter households, 81% are overpaying, and 42% are severely overpaying.

**Table 2-29**  
**Overpayment by Income Level, 2013-2017**

Income Category <sup>1</sup>	Owner Households	Percent Owner	Renter Households	Percent Renter
Household Income ≤ 30% HAMFI	205		370	
Households overpaying	140	68%	300	81%
Households severely overpaying	90	44%	300	81%
Household Income > 30% HAMFI and ≤ 50% HAMFI	195		390	
Households overpaying	90	46%	365	94%

Subtotal: All lower-income households	605		1285	
Subtotal: All lower-income HH overpaying	290	48%	1040	81%
Subtotal: All lower-income HH severely overpaying	165	27%	535	42%
Household Income > 80% HAMFI and ≤ 100% HAMFI	190		190	
Households overpaying	100	53%	19	10%
Households severely overpaying	0	0%	4	2%
Household Income > 100% HAMFI	995		835	
Households overpaying	80	8%	60	7%
Households severely overpaying	0	0%	0	0%
<b>Total Households</b>	<b>1,795</b>		<b>2,315</b>	
<b>Total Households Overpaying</b>	<b>470</b>	<b>26%</b>	<b>1,119</b>	<b>48%</b>
<b>Total Households Severely Overpaying</b>	<b>165</b>	<b>9%</b>	<b>539</b>	<b>23%</b>

Note:

<sup>1</sup> HAMFI = HUD Area Median Family Income

“Overpaying” is defined as spending >30% of gross household income on housing costs.

“Severely overpaying” is defined as spending >50% of gross household income on housing costs.

Source: U.S. Dept. of Housing and Urban Development, CHAS data for Los Alamitos, based on 2013-2017 ACS.

## 2. Overcrowding

An overcrowded unit is defined by the California Department of Housing and Community Development (HCD) as a housing unit occupied by more than one person per room (excluding bathrooms, kitchen, hallway and closet space). Overcrowding can affect public facilities and services, reduce the quality of the physical environment and create conditions that contribute to deterioration of the housing stock.

Table 2-30 summarizes estimates of overcrowding in Los Alamitos as estimated by the American Community Survey in 2019. Only four percent of total units were overcrowded. Of all 167 overcrowded units, 80.2% were renter-occupied units and 19.8% were owner-occupied units.

Severely overcrowded units have more than 1.5 persons per room and are a subset of overcrowded units. They account for 0.4% of all occupied housing units in the City, including 11 owner-occupied units and 7 renter-occupied units.

Table 2-30  
Overcrowding, 2019

Persons per Room	Owner-Occupied Units	Renter-Occupied Units	Total	Percent <sup>1</sup> of Total
1.00 or less	1,706	2,219	3,925	95.9%
1.01 to 1.50	22	127	149	3.6%
1.51 to 2.00	11	7	18	0.4%
2.01 or more	0	0	0	0%
<b>Total Overcrowded</b>	<b>33</b>	<b>134</b>	<b>167</b>	<b>4.0%</b>
<b>% Overcrowded by Tenure</b>	<b>1.9%</b>	<b>5.7%</b>	-	-

<b>% Severely Overcrowded by Tenure</b>	<b>0.6%</b>	<b>0.3%</b>	-	-

Note:

<sup>1</sup>Percentage may not equal to 100% due to rounding.

Source: American Community Survey 5-Year Estimates Detailed Table B25014, 2019.

As shown, the number of overcrowded units in Los Alamitos is relatively low. Future affordable housing developments should consider including a limited number of units with 3 or more bedrooms to help accommodate larger households. Other affordable housing options that can alleviate overcrowding are ADUs and JADUs, which are permitted by the Zoning Code in all residential zones. The City has issued ten permits for ADUs in the last planning period (see Table 2-19, Residential Building Permits), and a program to track their progress is included to determine whether they will become an

effective means of accommodating lower income household need. No ADU sites are included in the City’s Land Inventory for purposes of meeting the RHNA allocation for the 2021-2029 planning period.

### 3. 2021–2029 Growth Needs

SCAG is responsible for allocating housing needs to each jurisdiction in its region, including Los Alamitos. A local jurisdiction’s “fair share” of regional housing need (also known as the Regional Housing Needs Allocation (RHNA)) is the number of additional housing units needed to accommodate the expected growth in the number of households and to replace expected demolitions and conversion of housing units to non-residential uses. The “fair share” allocation is also designed to achieve a future vacancy rate that allows for healthy function of the housing market.

The allocation is divided into four income categories: very-low, low, moderate and above-moderate income. Cities must also plan for the growth needs in the extremely-low income category, which is assumed to be a subset equal to 50 percent of the very-low income allocation. The RHNA allocation is not a requirement for jurisdictions to construct these units; it is only a requirement to create policies and programs to encourage the construction of units and to identify adequate sites to accommodate the jurisdiction’s “fair share.”

Table 2-31 summarizes the City of Los Alamitos’ RHNA for the 2021–2029 Planning Period.

**Table 2-31**  
**Regional Housing Needs Allocation**  
**2021–2029**

	<b>Extremely Low Income</b>	<b>Very-low Income<sup>1</sup></b>	<b>Low Income</b>	<b>Moderate Income</b>	<b>Above-Moderate Income</b>	<b>Total Allocation</b>
Housing Units	97	97	119	145	311	769

Notes:

<sup>1</sup> Although not provided in the RHNA state law requires cities to plan for units to accommodate extremely low income, which can be estimated at 50% of very-low income, or 97 units.

Source: Based on SCAG’s 6th cycle Final RHNA Allocation, adopted March 2021.

## 4. Special Needs Groups

Certain segments of the population may have more difficulty finding decent, affordable housing due to their special needs. This section identifies the needs of specific groups, as required by State law, including: seniors, large households, female-headed households, persons with disabilities including developmental disabilities, homeless persons, and farmworkers.

### a. Seniors

Seniors are considered a special needs group because they are likely to have fixed incomes and may require specially-designed housing. The primary housing concerns of the elderly include:

- Income—the elderly population is generally on a fixed income;
- Household composition—the elderly, especially elderly women, often live alone;
- Transportation—the elderly population is more likely to depend on public transportation and may need special accommodation due to physical disabilities/limitations; and,
- Health care—the elderly often need access to health care.

As shown in Table 2-32, senior households (with householders age 65 and older) comprised 28 percent of the total households in Los Alamitos in 2019. The 1,165 senior households correspond to a senior population of 1,876 in 2019. Home ownership data shown in the table below indicates that approximately 33% of seniors are renters, and 67% are homeowners.

Table 2-32  
Householders by Tenure and Age  
2019

Householder Age	Owner-Occupied Households		Renter-Occupied Households		Total Households	
	#	% Owner-Occupied Households	#	% Renter-Occupied Households	#	% Total Households

≥\$200,000	96	8%
<b>Total</b>	<b>1,165</b>	<b>100%</b>

Source: American Community Survey 5-Year Estimates Detailed Table B19037, 2019.

According to the 2019 American Community Survey data,<sup>8</sup> at least 199 out of 388 senior householders that rent experience overpayment (gross rent over 30 percent of household income); at least 227 out of 777 senior householders that are homeowners experience overpayment (monthly owner costs over 30 percent of household income). The slowly increasing number of seniors in the population is creating a demand for more affordable housing.

Currently, there is one affordable housing community in Los Alamitos for seniors aged 62 and over. Klein Manor, located east of Laurel Park, offers 71 apartment units including studios and one-bedroom units, as well as a few accessible units for the sensory/mobility impaired. Klein Manor is operated by the Retirement Housing Foundation and charges approximately 30% of the resident income for rent.

Senior housing needs can include low-income apartments, retirement communities, independent living centers, assisted living centers, nursing homes, and hospice care centers. The City runs several programs for senior citizens. Additional housing resources include privately-run senior communities in and around the City.

<sup>8</sup> American Community Survey 5-Year Estimates Detailed Tables B25072 & B25093, 2019.

**Table 2-35**  
**Senior Resources in Los Alamitos**

Organization	Services Provided
Katella Senior Living Community	Independent living, assisted living, memory care, respite care
Senior Grocery Program	Food distribution
Los Alamitos Senior Club	Social activities and events with weekly meeting at Community Center
Dine In & Dough House	Twice a week lunch experience hosted by the Los Alamitos Recreation & Community Services Department

**b. Large Households**

Large households are defined as having five or more persons living in the same household. Large households are a special needs group because they require housing with higher bedroom counts. As shown in Table 2-36, 372 of the City’s total households had five or more persons in 2019. This represents a 12% increase from year 2011 (332 households). Of the 372 large households, 219 (58.9%) are renters and 153 (41.1%) are owners. ACS also identified a total of 888 housing units with 4 or more bedrooms (see Table 2-16), which may indicate generally sufficient large housing units to accommodate large households.

**Table 2-36**  
**Large Households by Tenure**  
**2019**

Number of Persons in Unit	Owner-Occupied Households	Renter-Occupied Households	Total Households
Five	110	184	294
Six	14	30	44
Seven or more	29	5	34
<b>Total</b>	<b>153</b>	<b>219</b>	<b>372</b>

Note:

Total Households Citywide= 4,092

Source: American Community Survey 5-Year Estimates Subject Table B25009, 2019.

Note that renters occupy 6.0% of overcrowded units (see Table 2-30), which is a relatively low percentage. Only 81 of 888 units with four or more bedrooms are occupied by renters,<sup>9</sup> coinciding with the overcrowding data.

<sup>9</sup> American Community Survey 5-Year Estimates Detailed Tables B25042, 2019.

Larger units are typically priced higher and may be affordable only to moderate and above moderate income households. There may be a challenge for lower income large households to find affordable and adequate housing. The City implements programs to encourage development of affordable housing units and provide information on, and referral to, state and federal assistance programs.

### c. Female-Headed Households

Female-headed households are considered a special needs group due to their historically low rates of homeownership, lower income, and high poverty rates. Table 2-37 summarizes the female-headed households by tenure, with and without children. Approximately 33 percent of Los Alamitos' households are female-headed, and 18 percent of total households are female-headed family households. Approximately 20 percent of renter-occupied households are female-headed families compared to 14 percent of owner-occupied households that are female-headed families.

Table 2-37  
 Female-Headed Family Households by Tenure  
 2019

Householder Age	Owner-Occupied Households		Renter-Occupied Households		Total Households	
	Number	% of Owner-Occupied Households <sup>1</sup>	Number	% of Renter-Occupied Households <sup>2</sup>	Number	% of Total Households <sup>3</sup>
Female householder, no spouse present, with children under 18 years	19	1%	308	13%	327	8%
Female householder, no spouse present, without own children	220	13%	169	7%	389	10%
<b>Total</b>	<b>239</b>	<b>14%</b>	<b>477</b>	<b>20%</b>	<b>716</b>	<b>18%</b>

Notes:

<sup>1</sup> Total Owner-Occupied Households= 1,739

<sup>2</sup> Total Renter-Occupied Households= 2,353

<sup>3</sup> Total Households= 4,092

Source: American Community Survey 5-Year Estimates Subject Table B25115, 2019.

As shown in Table 2-38, in 2019 the majority of female-headed households (82 percent) were above the poverty level. Approximately 31 percent of female-headed households with children were below the poverty level.

**Table 2-38**  
**Poverty in Female-Headed Family Households**  
**2019**

Household Type	Below Poverty Level		Above Poverty Level	
	Number	% of Household Type <sup>1</sup>	Number	% of Household Type <sup>1</sup>
Female householder, no spouse present, with own children under 18 years	123	31%	275	69%
Female householder, no spouse present, without own children	7	2%	311	98%
<b>Total</b>	<b>130</b>	<b>18%</b>	<b>586</b>	<b>82%</b>

Notes:

<sup>1</sup> ACS figures subject to margin of error; total female-headed households, no spouse present, with own children under 18 years= 398; total female-headed households, no spouse present, without own children= 318

Source: American Community Survey 5-Year Estimates Subject Table B17012, 2019.

#### **d. Persons with Disabilities**

The disabled population includes several special needs groups such as, but not limited to, the physically handicapped, developmentally disabled, and severely mentally ill. Typically housing for the needs of these populations include independent living units and supportive housing communities. Affordability and accessibility are the two major housing needs for persons with disabilities.

Accessibility needs, both within the home and to/from the housing unit, often require specially designed housing units. The City’s reasonable accommodation ordinance (Municipal Code Chapter 17.42) provides a process for disabled individuals or those acting on their behalf to make requests for reasonable accommodation in the form of relief from various land use regulations such land use, zoning, or building laws and policies.

Table 2-39 shows the number of disabilities by type for Los Alamitos residents. The 2019 ACS identified 1,039 persons in the City with disabilities, of which 486 (46.8%) were persons over the age of 65. Individuals may be affected by one or more types of disability. The most prevalent disabilities in the City are ambulatory difficulty (24.6%) and cognitive difficulty (19.0%).

Table 2-39  
 Number of Disabilities by Disability Type and Age  
 2019

Disability Type	Ages under 18		Ages 18-64		Ages 65 and over	
	# of disabilities	% of total disabilities	# of disabilities	% of total disabilities	# of disabilities	% of total disabilities
Hearing Difficulty	0	0%	45	2.3%	246	12.4%
Vision Difficulty	20	1.0%	142	7.2%	84	4.2%
Cognitive Difficulty	76	3.8%	175	8.8%	126	6.4%
Ambulatory Difficulty	28	1.4%	145	7.3%	315	15.9%
Self-Care Difficulty	38	1.9%	108	5.4%	132	6.7%
Independent Living Difficulty	*	*	90	4.5%	214	10.8%
<b>Total</b>	162	8%	705	35.5%	1,117	56.3%
<b>Total Disabilities</b>	<b>1,984</b>	<b>Total Civilian Non-Institutionalized Population with a Disability</b>				<b>1,039</b>

\* data not provided

Source: American Community Survey 5-Year Estimates Subject Table S1810, 2019.

In 2019, the 486 senior residents with one or more disabilities represented nearly 26% of the total senior population (1,876). The most prevalent disabilities among seniors are ambulatory difficulty (15.9%) and hearing difficulty (12.4%). As discussed above, Klein Manor, a subsidized housing project, includes several accessible units for the sensory/mobility impaired. Assisted living resources also include Katella Senior Living Community as well as other providers around the City.

### Developmental Disabilities

Per Senate Bill No. 812, the Housing Element must discuss the housing needs of persons with developmental disabilities. As defined by federal law, “developmental disability” means a severe, chronic disability of an individual that:

- Is attributable to a mental or physical impairment or combination of mental and physical impairments;
- Is manifested before the individual attains age 22;
- Is likely to continue indefinitely;
- Results in substantial functional limitations in three or more of the following areas of major life activity: a) self-care; b) receptive and expressive language; c) learning; d) mobility; e) self-direction; f) capacity for independent living; or g) economic self-sufficiency;

- Reflects the individual’s need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

The Census does not record developmental disabilities. According to the American Association on Intellectual and Developmental Disabilities, 2013 data shows that approximately 1.6 percent of the population can be defined as developmentally disabled.<sup>10,11</sup> This equates to 185 persons in the City of Los Alamitos with developmental disabilities, based on the 2019 ACS population of 11,534 persons. Based on SCAG data, as of June 2019, there are 170 children (under 18 years old) and 89 adults (18 years and over) with developmental disabilities in the City.<sup>12</sup>

The State department of Developmental Services provides community-based services to developmentally disabled persons through contracted regional centers. The Regional Center Orange County (RCOC) is responsible with the care of persons with developmental disabilities in Orange County. RCOC currently serves 176 individuals with developmental disabilities in Los Alamitos. Table 2-40 provides a breakdown by age of those helped through RCOC programs.

**Table 2-40**  
**Developmentally Disabled Residents by Age**  
**2021**

<b>0–14</b>	<b>15–22</b>	<b>23–54</b>	<b>55–64</b>	<b>65+</b>	<b>Total</b>
81	46	44	2	3	176

Source: RCOC, 2021.

Many developmentally disabled persons can live and work independently within a conventional housing environment. More severely disabled individuals require a group living environment where supervision is provided. The most severely affected individuals may require an institutional environment where medical attention and physical therapy are provided. Because developmental disabilities exist before adulthood, the first issue in supportive housing for the developmentally disabled is the transition from the person’s living situation as a child to an appropriate level of independence as an adult.

<sup>12</sup> CA DDS consumer count by CA ZIP, age group for the end of June 2019.

## Resources

The most obvious housing need for persons with disabilities is housing that is adapted to their needs. Most single-family homes are inaccessible to people with mobility and sensory limitations. Housing may not be adaptable to widened doorways and hallways, access ramps, larger bathrooms, lowered countertops, and other features necessary for accessibility. Location of housing is also an important factor for many persons with disabilities, as they often rely upon public transportation to travel to necessary services and shops. “Barrier free design” housing, accessibility modifications, proximity to services and transit, and group living opportunities are important in serving this group.

A variety of housing options and support services are provided by local and regional service agencies in Orange County, including:

- The Aging and Disability Resource Connection (ADRC) initiative is a collaborative effort of the U.S. Administration on Aging and the Centers for Medicare and Medicaid Services, in support of state efforts to develop “one-stop shop” centers in local communities that help older adults and individuals with disabilities make informed decisions about their service and support options and serve as the single point of entry to the long-term care system. ADRC of Orange County helps people who are aging or have a disability, their families and caregivers, in understanding their options and successfully connecting with the services and supports they need.
- County of Orange Social Services Agency In-Home Supportive Services (IHSS) provides supportive services to persons who are aged, blind, or disabled, and who are limited in their ability to care for themselves and cannot live at home safely without assistance. Recipients of Security Supplemental Income (SSI/SSP) are eligible for IHSS, and people with higher income might still be eligible but subject to payment.
- Dayle McIntosh Center (DMC) is a non-profit organization that facilitates both individual and community independent living options for people with disabilities through support services, skills training, transition assistance, services for the deaf, and community services.
- Glennwood Housing Foundation, Inc is a non-profit corporation providing non-profit housing and supported living services to adults with developmental and/or intellectual disabilities. Glennwood House of Laguna Beach offers individual apartment style living on a 33,000 square foot site that includes ADA compliant state-of-the-art living, dining, kitchen, two recreational/multi-media lounges, and communal social spaces. The program aims to assist participants in developing daily living skills that enable them to live independently and live, work, and play in the local community.

- The Arc Los Angeles and Orange Counties is committed to providing for people with intellectual and developmental disabilities the ability to form and work towards goals through training and education, based on their individual abilities. The Arc is the world’s largest community based organization of and for people with intellectual and developmental disabilities. The Los Angeles & Orange Counties chapter serves over 200 children and adults with intellectual and other developmental disabilities from 26 cities in the area.
- Help for Brain Injured Children (H.B.I.C.) is a non-profit organization that focuses on the physical and environmental condition of the neurologically impaired child and young adults. H.B.I.C. assists in the medical rehabilitation and educational processes with the most appropriate programs available, including an adult day program, a certified non-public school (Cleta Harder Developmental School), and behavioral intervention.
- The Lighthouse Group is a non-profit organization serving adults with special needs by providing community and support through monthly clubs, camp experiences and other events. Lighthouse Orange County serves 50-70 participants on a weekly basis.
- ACCESS is a shared-ride service provided by Orange County Transportation Authority for people who are unable to use the regular, fixed-route bus service because of functional limitations caused by a disability. ACCESS service is provided within  $\frac{3}{4}$  mile of, and during the same hours as, the Orange County Bus service. Subscription service and same-day taxi service are also available at the cost of the OC ACCESS base fare.

#### **e. Homeless Population and Transitional Housing**

Due to the transient nature of homelessness, enumeration of this population is difficult. The homeless population tends to move from place to place based on available services such as food and temporary living quarters. People experiencing homelessness may live in emergency shelters, transitional housing programs, or motel or hotel vouchers paid by third-party agencies such as nonprofits, religious organizations and local government agencies. Unsheltered homeless people use as primary nighttime location a public or private place not designated for, or ordinarily used as, a regular sleeping accommodation for people such as the streets, abandoned buildings, vehicles or parks.

The most recent data on the homeless population in Orange County is provided through the 2019 Point-in-Time (PIT) Count Survey and Report. The data provide a snapshot of homelessness on a particular date and time. The 2019 PIT Count for Orange County determined there was one unsheltered homeless individual and 21 sheltered

individuals/families in Los Alamitos.<sup>13</sup> The unsheltered individual was not identified as a transitional aged youth (age 18-24), veteran, or senior (age 62 and over). While PIT counts for earlier years are not available at the city level, Orange County saw an increase of 2,068 persons or 43% in PIT count from 2017 to 2019. Less than 0.2% of the City of Los Alamitos population experienced homelessness in 2019, including both sheltered and unsheltered. The City is in a better situation than the overall county.

In Los Alamitos, there are two emergency/transitional shelters serving specialized populations. The Precious Life Shelter serves homeless pregnant women with a total of 27 beds and a three-step program: emergency program, transitional program, and single parent efficiency program. Casa Youth Shelter provides shelter and supportive services for homeless or at-risk youth ages 12 to 17. The facility has 12 beds and serves an average of more than 200 youth per year. Many of Casa Youth Shelter's clients are referred from other cities. In addition to these shelters, We Care provides rental and utility assistance for Los Alamitos families and individuals with emergency need.

At the time of the 2019 PIT Count for Orange County, 738 emergency shelter and transitional housing beds remained vacant. Of these, 242 unused beds were in the North Planning Area (including Los Alamitos), and 183 were at the Armory Cold Weather Shelter Program (Fullerton and Santa Ana locations). Therefore, the City should have sufficient capacity and resources to accommodate people experiencing homelessness within its jurisdiction, and no additional facilities would be required.

The City permits homeless shelters with up to 20 beds and conditionally allows those with more than 20 beds in the Planned Light Industrial (P-L-I) zone. The P-L-I zone is appropriate for such facilities because these lands are located near commercial and school sites and in areas where other governmental services are available. The City allows transitional and supportive housing in all residential districts subject to only those restrictions that apply to other residential uses of the same type in the same zone.

AB 101 requires that Low-Barrier Navigation Centers (LBNC) be a by-right use in areas zoned for mixed-use and nonresidential zoning districts permitting multifamily uses. LBNC provide temporary room and board with limited barriers to entry while case managers work to connect homeless individuals and families to income, public benefits, health services, permanent housing, or other shelter. Policy Action 4.6 has been provided to require that the Zoning Ordinance be amended to meet this requirement.

---

<sup>13</sup> Everyone Counts 2019 Point In Time Final Report, County of Orange, California, July 30, 2019.

**f. Farmworkers**

The 2019 American Community Survey estimated only 8 (less than 0.07 percent) of Los Alamitos' residents were employed in agriculture, forestry, fishing and hunting, and mining. These 8 workers are in production, transportation, and material moving occupations. Active agricultural production is limited in Orange County. It is assumed that very few, if any, of the residents are employed in active agricultural production or harvesting. The 2018 ACS estimated no resident employed in the agriculture and related industries. Therefore, there is no identified need for farmworker housing in Los Alamitos. Nevertheless, as with other special needs, these farmworker households, if any, can benefit from City incentives for developers to increase/maintain affordable units that are available to all segments of the population.

**g. Extremely-Low Income Households**

Although extremely-low income households are not specifically identified by the State as a special needs group, their specific housing needs warrant further analysis. Extremely-low income (ELI) households are defined as households with incomes less than 30 percent of the area median income (AMI). ELI households are a subset of the very low-income household category. The provisions of Government Code Section 65583 (a)(1) require quantification and analysis of existing and projected housing needs of extremely-low income households. The AMI for a 4-person household in Orange County is \$106,700. ELI household incomes are defined by HCD and HUD as those earning less than \$40,350.<sup>14</sup> In 2019, at least 12.7 percent of Los Alamitos households were within the extremely-low income category (refer to Tables 2-13 and 2-14; household income less than \$25,000).

*Existing Needs*

Table 2-41 provides a summary of housing problems experienced by extremely-low income households in the City of Los Alamitos. According to data from the 2013 to 2017 CHAS provided by HUD, 575 households (14% of total households) in Los Alamitos are considered extremely low-income. The majority (64%) of ELI households are renters. Up to 77 percent of extremely-low income households experience at least one type of housing problem, including incomplete kitchen and plumbing facilities, overcrowding

<sup>14</sup> Per HUD, the Extremely Low Income (ELI) income limit is the greater of either: 1) 60% of Very Low Income limit (\$67,250), which equals \$40,350, or 2) poverty guideline established by Dept. of Health and Human Services (HHS), which equals \$26,200.

and severe overcrowding, and overpayment. Renter ELI households are more likely to experience overpayment or severe overpayment (81% for either) than owner ELI households (68% and 44%, respectively).

**Table 2-41**  
**Housing Problems for Extremely Low-Income Households**  
**2013–2017**

	<b>Renters</b>	<b>Owners</b>	<b>Total Households</b>
<b>Extremely-low Income Households</b>	<b>370</b>	<b>205</b>	<b>575</b>
% with any Housing Problem <sup>1</sup>	81%	68%	77%
% Cost Burden <sup>2</sup> > 30%	81%	68%	77%
% Cost Burden <sup>2</sup> > 50%	81%	44%	68%

Notes:

<sup>1</sup>“Housing Problem” defined as any occupied housing units lacking a complete kitchen, lacking complete plumbing, having 1.01 or more persons per room (overcrowded), or costing more than 30 percent of the occupant household’s income (overpayment).

<sup>2</sup>Percentage of household income spent on housing cost.

Source: U.S. Department of Housing and Urban Development, CHAS, based on the 2013-2017 ACS.

### *Projected Needs*

To calculate projected ELI housing needs, the City assumed 50% of its very low income Regional Housing Needs Allocation (RHNA) consists of ELI households. From its very low income need of 194 units (see Table II-31), the City has projected a need of 97 units for ELI households.

The needs of extremely low-income households may include housing units designed for transient/homeless populations, multifamily rental housing, factory-built housing, mobile homes, housing for agricultural employees, supportive housing, single room occupancy units, and workforce housing. Extremely low income households are eligible to receive rental assistance through the Orange County Housing Authority’s Housing Choice Voucher (Section 8) program. There are no affordable housing units designated for ELI households within the City. Small ELI households may also find affordable housing in typically affordable options such as Single Room Occupancy (SRO) hotels, and accessory dwelling units (ADUs). ADUs are permitted in all residential zones. While SRO was removed from the allowed uses during a Zoning Code update in 2019, the City plans to add SRO as a permitted use in the P-L-I zone in 2022 as described in Policy Action 4.8.

# CHAPTER 3

## HOUSING RESOURCES AND CONSTRAINTS

### A. Governmental Constraints

State law requires that housing elements identify and analyze potential and actual governmental constraints to the maintenance, improvement, or development of housing for all income levels, including housing for people with disabilities. The analysis should identify the specific standards and processes of these constraints and evaluate their impact on the supply and affordability of housing. The analysis should determine whether local, regulatory standards pose an actual constraint and must also demonstrate local efforts to remove constraints that hinder a jurisdiction from meeting its housing needs. Governmental constraints may include policies, standards, requirements or actions imposed by government on land and housing use and development. Although State and federal agencies may also impose governmental constraints upon housing, these agencies are beyond the control of local government and are therefore not included in this analysis.

#### 1. Land Use Controls

##### a. Los Alamitos 2035 General Plan

Every city in California is required by State law to have a General Plan, which establishes policy guidelines for development in the city. The General Plan is the foundation for all land use controls. The Land Use Element identifies the location, distribution and density of land uses throughout the city. Los Alamitos utilizes a number of planning tools, including zoning regulations and the subdivision ordinance, to implement the General Plan.

The Los Alamitos 2035 General Plan provides for three residential and one mixed use land use designations in the City. Table 3-1 summarizes these designations and their associated density ranges and acreages. Densities for residential designations are expressed in dwelling units per acre (du/ac).

Table 3-1  
 Los Alamitos 2035 General Plan  
 Residential Land Use Designations

Designation	Description	Acres	Density Range
Single Family Residential	Single family detached homes on individual lots	258	1-6 du/ac
Limited Multiple Family Residential	Single family detached and attached residences, including small lot subdivisions, townhouses, courtyard homes, duplexes and triplexes. Live/work uses are also permitted, subject to the uses permitted by the Professional Office designation.	18	6-20 du/ac, Max office space 500 square feet per unit
Multiple Family Residential	Single family detached and attached residences, including all development permitted in other residential categories as well as stacked flats and other building types with 4 or more units. Other uses such as convalescent hospitals, churches, and mobile home parks are also permitted subject to special procedures such as a Conditional Use Permit.	145	20-30 du/ac
Mixed Use	Vertical or horizontal mix of commercial, office, public/quasi-public, and/or residential uses on the same parcel. Stand-alone (not mixed-use) commercial, office, and public/quasi-public uses are also permitted. For parcels that front Los Alamitos Boulevard or Katella Avenue, the ground floor is required to consist of those uses permitted or conditionally permitted in the General Commercial Zoning District.	19	30 du/ac

Source: Los Alamitos 2035 General Plan.

When the General Plan was prepared in 2013, there were approximately 4,421 dwelling units in the City. The build-out analysis identified a maximum potential of 251 net additional units that could be built. In total, 4,672 dwelling units are anticipated within the City limits at build-out. DOF reports 4,437 dwelling units within the City as of January 2021, leaving a potential for 235 units to be added to the City's housing stock. Since the adoption of the General Plan, the City has undertaken the preparation of a Town Center Strategic Plan, which is intended to provide for higher density (up to 60 units per acre) residential in a mixed use atmosphere. The intent of the Town Center is to create a full integrated commercial and residential environment which provides an activated and vibrant downtown. As provided in Appendix B, Land Resources, the City has assumed that some of its lower income RHNA will be accommodated in the Town Center. In addition, two larger properties which have housed businesses in the City are

currently being marketed for sale by their owners, and the businesses are planned for closure. The City has seen a significant interest in the redevelopment of these sites, and anticipates that a portion of its RHNA will be accommodated on these lands (also see Appendix B and Section 4, which provides Policy Actions for the creation of new zoning designations and the rezoning of properties included in the City’s sites inventory). The expansion of high-density residential lands over those included in the City’s current General Plan will provide additional opportunities for housing at all income levels, expand the City’s options for meeting its RHNA allocation, and eliminate any potential constraint associated with General Plan designations and land availability.

All Multi-family properties which are adding square footage are required to comply with the City’s requirement for Site Development Permit.

### **Growth Management Element**

The Growth Management Element of the City’s General Plan contains policies for the planning and provision of traffic improvements that are necessary for the City’s orderly growth and development. The policies and programs presented in the Element are for the establishment of specific traffic Level of Service (LOS) standards, a development mitigation program, participation in inter-jurisdictional planning forums, development of a seven-year capital improvement program, and adoption of a Transportation Demand Management Ordinance.

Under the Element’s Policy 1.2, all new development within the City are required to establish a development phasing plan commensurate with required improvements. Within three years of the issuance of the first building permit or within five years of the first grading permit for a development project, whichever occurs first, the project is required to construct and complete the necessary improvements to transportation facilities to which the project contributes measurable traffic to attain the level of service standards established in this Element. The Element is specifically tied to transportation and not land use, and therefore the City has not found the Growth Management Element to constrain the provision of housing or unduly impact the cost of housing.

### **b. Zoning Code**

The City’s Zoning Code establishes more specific development standards, allowable uses and limitations. Zoning regulations control development by establishing requirements related to density, height, lot size, yard setbacks and parking spaces. These site development standards work to ensure a quality living environment for all Los Alamitos

**3****Housing Element  
Housing Resources and Constraints**

residents. The City complies with new transparency requirements by posting its Zoning Code and development standards for all parcels on its website.

There are four residential zoning districts:

- R-1: Single-Family Residential
- R-2: Limited Multiple-Family Residential
- R-3: Multiple-Family Residential
- M-H: Mobilehome Park

The City permits senior housing projects for low- and very low-income households in the C-F (Community Facilities) zone with a Conditional Use Permit. Homeless shelters are permitted in the P-L-I (Planned Light Industrial) zone (with a CUP for more than 20 beds). The City also has one mixed-use zoning district (TCMU or Town Center Mixed Use), which permits residential uses with provisions (e.g., multi-family dwelling must be integrated into a project as either horizontal or vertical mixed use). The City currently applies a Live/Work Overlay Zone (LW) over the R-2 zone in the downtown area, which is intended to allow live/work development and uses on certain lots, while still maintaining the primary zoning.

Manufactured or mobile homes are permitted in all residential zones on a permanent foundation if the Planning Commission determines the proposed parcel is compatible for the use. A mobile home on a permanent foundation is included under the definition of “single-family dwelling” and is subject only to the same development standards as a conventional single-family dwelling in the same zone.

Table 3-2 summarizes the residential zoning districts and permitted residential uses.

Table 3-2

<sup>1</sup>7 or more persons only

P = Permitted Use

AUP = Administrative Use Permit

CUP = Conditional Use Permit Required

-- = Use Not Allowed

Source: Los Alamitos Municipal Code, 2021.

**3****Housing Element  
Housing Resources and Constraints**

The Conditional Use Permit (CUP) process, which requires Planning Commission action, is no different for a market rate or affordable residential development. A residential development plan, or the addition of square footage to an existing multiple-family residential structure, is already subject to another review process called the “site development permit.” This permit is applied for and considered by the Planning Commission concurrently with the requirement for a Conditional Use Permit. The Commission would approve, approve with conditions, or disapprove the Conditional Use Permit application and site development permit applications, imposing conditions necessary to ensure compatibility with surrounding uses, to preserve the public convenience, health, interest, safety, or welfare, and necessary to make the findings required by the Los Alamitos Municipal Code at the same time. These findings represent a potential constraint to the provision of housing, so Policy Action 4.8 includes a requirement to modify the required findings.

The Administrative Use Permit (AUP) is similar to the CUP in purpose and procedures, other than the AUP requires action by the Development Services Director rather than the Planning Commission. Unlike the CUP process, no public notice or public hearing shall be required for an AUP. The AUP process is no different for a market rate or affordable residential development.

Table 3-3 summarizes the residential zoning requirements in the City.

**Table 3-3**  
**Summary of Residential Zoning Requirements**

Zoning District	Parcel Area (Sq Ft)	Minimum Dwelling Area (Sq Ft)	Maximum Density	Maximum Height Limit (Main Structures) (Ft)	Maximum Height Limit (Accessory Structures <sup>3</sup> ) (Ft)	Maximum Site/Parcel Coverage	Minimum Front Yard (Ft)	Minimum Front Yard (cul-de-sac) (Ft)	Minimum Side Yard (Ft)	Minimum Side Yard (corner lot) (Ft)	Minimum Rear Yard (Ft)

**Summary of Residential Zoning Requirements**

Zoning District	Parcel Area (Sq Ft)	Minimum Dwelling Area (Sq Ft)	Maximum Density	Maximum Height Limit (Main Structures) (Ft)	Maximum Height Limit (Accessory Structures <sup>3</sup> ) (Ft)	Maximum Site/Parcel Coverage	Minimum Front Yard (Ft)	Minimum Front Yard (cul-de-sac) (Ft)	Minimum Side Yard (Ft)	Minimum Side Yard (corner lot) (Ft)	Minimum Rear Yard (Ft)
									residential zoning district, then 40 feet		zoning district, then 40 feet
C-F	Based on CUP or Site Development Permit Approval Process										
TCMU	10,000	--	30 du/ac	60	60	2.00 FAR for nonresidential components	0-10 ft	0-10 ft	Not required unless abutting a residential zoning district, then 10 feet	10	Not required unless abutting a residential zoning district, then 15 feet

Notes:

<sup>1</sup>minimum lot or space size for individual mobile home is 2,000 sq. ft

<sup>2</sup>Structures:

- For any portion in excess of 25 feet shall be set back an additional 5 feet.
- Shall not exceed 2 stories and 25 feet in height on lots with a common property line with an R-1 zoned property

<sup>3</sup>Accessory dwelling units shall conform to the setback requirements for the main structure

<sup>4</sup>When a lot in an R-2 or R-3 zone is approved for single-family residential use by a subdivision or lot split, with a minimum area of less than 9,000 sq. ft., the parcel may have a minimum front setback area of 15 feet.

<sup>5</sup>Front setbacks may vary provided an average building setback of 20 feet is maintained along an entire block face, with no setback less than 15 feet.

<sup>6</sup>Where a dwelling or dwellings have entry from an interior side yard; the entry must open onto an outdoor court. The minimum length of the outer court wall which parallels the side lot line shall be 15 feet and shall have a minimum height of four feet and a maximum height of six feet. The dwelling entry shall be set back a minimum of 15 feet from such side lot line.

\*All live/work uses in the (LW) overlay zone shall comply with the development standards applicable to the primary zone and the supplemental standards established in Section 17.28.180 (Live/Work Standards).

-- = Not listed

Source: Los Alamitos Municipal Code, Title 17

The minimum setback, maximum site coverage and maximum height requirements are specifically designed to work with the parcel area requirements to not reduce the ability for a project to achieve the maximum permitted density. The majority of constructed multifamily projects in the City yield densities of 20 du/ac and higher; in the neighboring cities, a number of projects yield densities above 30 du/ac. The City's residential zoning requirements provide flexibility, especially for multi-family development, by allowing for average front yard setbacks instead of strict minimum setbacks. There is also flexibility for increased height through a Conditional Use Permit.

The City's requirements are similar to other surrounding communities and do not constrain the provision of housing, nor do they unduly impact the cost of housing.

As mentioned above, the City is preparing a Town Center Strategic Plan, which is intended to provide for higher density (up to 60 units per acre) residential in a mixed use atmosphere. As provided in Appendix B, Land Resources, the City has assumed that some of its lower income RHNA will be accommodated in the Town Center. Therefore, Policy Action 4.5 has been proposed to require the zoning modification to allow up to 60 units per acre in the Town Center Mixed Use (TCMU) zone. The Town Center Strategic Plan also proposes Zoning Code amendments for the TCMU zone, including allowing exclusive residential structures with conditions (i.e., on lots smaller than 10,000 sq. ft. and not fronting Pine Street) and slightly increasing setback requirements for frontage along Katella Avenue, Los Alamitos Boulevard and Pine Street. In the Realistic Capacity section of Appendix B, Land Resources, a conservative analysis was conducted for a hypothetical development site in the TCMU zone and demonstrated that the proposed development standards would allow up to 117.6 units per acre. The analysis found that the proposed development standards for the TCMU zone would not constitute a constraint for achieving RHNA units assigned to Sites 1 through 4 at a density of 60 units per acre. Policy Action 4.5 would also require Sites 1 through 4 in the inventory (Figure B-1, Appendix B) to develop as designated in Table B-2 (Appendix B).

In addition, two larger properties (Site 5, zoned P-L-I and Site 6, zoned C-F; see Appendix B) which have housed businesses in the City are planned for redevelopment. Site 6 has been sold to a developer and is being considered for housing development as a whole. With the business planned for closure on Site 5 and a significant interest in its redevelopment, the City anticipates that a portion of its RHNA will be accommodated on these lands (see Appendix B and Chapter 4). Policy Action 4.4 is included to require the creation of a new zoning designation, R-4, and the rezoning of Sites 5 and 6 to R-4. The R-4 zone would allow 30 to 36 units per acre by right, not including density bonus provisions. The height limits would be increased to allow higher rise buildings, although setback requirements are expected to remain uniform across all residential zones. Policy Action 4.4 requires the City to demonstrate that the assigned units are physically

possible Sites 5 and 6 under the new development standards prior to adoption of the R-4 zone and require that the assigned affordable housing units be built consistent with Table B-2 and Figure B-1 on each parcel so designated. Therefore, land use controls regarding the proposed R-4 zone will not constitute a constraint for housing development to meet the RHNA.

The proposed zoning changes would increase residential densities allowed over those in the City's current Zoning Ordinance. The City will not approve requests to develop housing at densities below those anticipated in the Sites Inventory. Allowing higher densities will provide additional opportunities for housing at all income levels, expand the City's options for meeting its RHNA allocation, and eliminate any potential constraint associated with zoning designations and land availability.

### **c. Parking Requirements**

Table 3-4 summarizes the residential parking requirements in Los Alamitos. Parking requirements do not constrain the development of housing directly. However, parking requirements may reduce the amount of available lot areas for residential development.

The City has found that these parking requirements are necessary to adequately provide for the number of vehicles typically owned by each housing type. In addition, the City has established reduced standards for very low, low and moderate housing projects, to reduce the costs associated with the provision of parking for affordable housing projects. The City has not found these parking requirements to constrain the provision of housing or unduly impact the cost of housing. Nonetheless, Policy Action 4.11 requires the City to monitor the impact of parking requirements on multifamily development as they are proposed, and implement appropriate strategies such as parking reduction on a case-by-case basis.

**Table 3-4**  
**Residential Parking Requirements**

Type or Residential Development	Required Parking Spaces (Off Street)
Accessory Dwelling Unit	One space <sup>1</sup>
Single-Family Dwelling	Two covered spaces for each dwelling unit for units with up to four bedrooms. Three covered spaces for units with five or more bedrooms.
R-2 Limited Multiple-Family	Two spaces for each dwelling unit
Multi-Family Dwellings <sup>2</sup>	<ul style="list-style-type: none"> <li>• One and a half parking spaces for each studio unit</li> <li>• Two spaces for each one-bedroom unit</li> <li>• Two and ¾ spaces for each two-bedroom unit</li> <li>• Three and a half spaces for each three-bedroom unit</li> <li>• Four spaces for each four-bedroom unit, an additional ½ space for each room in excess of the first four bedrooms</li> </ul>
Multi-Family - Affordable Housing Developments (moderate income and below) <sup>2</sup>	<ul style="list-style-type: none"> <li>• One Parking space for each studio</li> <li>• One parking space for each affordable one-bedroom dwelling unit</li> <li>• Two parking spaces for each affordable dwelling unit over one bedroom, regardless of the number of bedrooms</li> </ul>
Homeless Shelter	Two spaces for the facility plus one space for each six occupants at maximum allowed occupancy
Senior Residential Housing Projects	One and 1/10 spaces for each unit
Mobilehome Parks	Two covered tandem parking spaces for each dwelling unit and one-half open parking space for guests for each dwelling unit
Mixed Uses	As required for each separate use in the mixed-use development
Live/Work Unit	Two covered spaces per unit, plus one customer space, which can be in a driveway
Residential Care Facilities	¼ space to one and half spaces per unit or room, to be determined by the Planning Commission based on the age of residents, type of transportation facilities provided, and on-site amenities to be provided. <sup>3</sup>

Notes:

<sup>1</sup> With exceptions as specified in Section 17.28.020(E)9.

<sup>2</sup> In addition:

- Project with 4 or fewer units: A minimum of 1 unassigned, designated guest space
- Project with 5 or more units: A minimum of 0.33 unassigned designated guest spaces per unit
- Plus, where a common recreation room is provided, 2 spaces

The total number of parking spaces required is determined by the aggregate number of units within the project as a whole.

<sup>3</sup> The applicant shall submit a study prepared by a City-approved independent consultant that provides justification for the parking proposed.

Source: Los Alamitos Municipal Code, Chapter 17.22.

## 2. Density Bonus Ordinance

Section 17.28.050 of the City's Municipal Code states that residential density bonuses, incentives, or concessions for the production of affordable housing shall be granted in compliance with Government Code Section 65915, as amended from time to time. State law requires a city or county to grant one density bonus and incentives or concessions, waivers or reductions of development standards, and parking ratios if requested, for developers who agree to construct housing that contains affordable housing as specified in Government Code Section 65915 (b)(1). The city shall grant the incentive or concession upon request, unless the city makes a written finding that the incentive or concession does not result in identifiable and actual cost reductions, would have a specific, adverse impact, or would be contrary to state or federal law.

The City's density bonus ordinance requires residential development to set aside at least one of the following, in consistence with Government Code Section 65915 (b)(1):

- Ten percent of the total units for lower income households;
- Five percent of the total units for very low income households;
- A senior citizen housing development or a mobile home park that limits residency based on age requirements for housing for older persons;
- Ten percent of the total dwelling units in a common interest development for persons and families of moderate income, provided that all units in the development are offered to the public for purchase;
- Ten percent of the total units of a housing development for transitional foster youth, disabled veterans, or homeless persons, subject to a recorded affordability restriction of 55 years and shall be provided at the same affordability level as very low income units;
- Twenty percent of the total units for lower income students in a student housing development that meet certain requirements; or
- One hundred percent of all units in the development, including total units and density bonus units, but exclusive of a manager's unit or units, are for lower income households, except that up to 20 percent of all units may be for moderate-income households.

Development concessions or incentives may include:

- a reduction in site development standards;
- a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission;

- approval of mixed-use zoning in conjunction with the housing project; or
- other regulatory incentives or concessions proposed by the developer or city or county which result in identifiable and actual cost reductions.

A project that receives a density bonus and concession or incentive must retain affordability of the units for at least 55 years. As provided in Policy Action 4.7, the City will annually review its Density Bonus provisions to assure compliance with State law.

The City currently does not have streamlining procedures pursuant to SB 35 for affordable housing development. Policy Action 4.12 requires the City to establish applications and approval procedures consistent with SB 35 requirements to facilitate affordable housing development.

### 3. Senior Citizen Housing

The Zoning Code allows Senior Citizen housing in the R-2 (Limited Multiple-Family Residential), R-3 (Multiple-family Residential), M-H (Mobile home Park), TCMU (Town Center Mixed Use), and C-F (Community Facilities) zones with a Conditional Use Permit. Development standards for senior citizen housing and residential care facilities are found in Section 17.28.250 of the Municipal Code, and are as follows:

- Off-street parking shall be provided for each project in compliance with the standards in Chapter 17.22 (See Table 3.4).
- At a minimum, proposed developments shall comply with the applicable zone regulations relative to structure setbacks, lot coverage, landscaping, and other development standards.
- New projects proposed on property abutting lots that are zoned or developed commercially or industrially shall include specific measures approved by the Planning Commission to mitigate potential impacts from adjacent uses (e.g. the construction of decorative block walls, the use of sound attenuation materials, the inclusion of a landscaped buffer, etc.).
- Sound attenuation measures shall be provided for new senior housing projects that comply with State requirements for residential occupancy.
- For senior housing developments in a residential zone, the density standards of that zone shall apply. For senior housing developments and residential care facilities in all other zones, where such uses are permitted, no density limit shall apply.
- Minimum and maximum dwelling unit size shall be governed by the Uniform Building Code and Department of Housing and Urban Development regulations. The Planning Commission may increase these standards upon review of the proposed occupancy and on-site amenities.

#### 4. Emergency Shelters, Transitional Housing and Single Room Occupancy Units

##### a. Homeless Shelters and Transitional Housing

To accommodate its share of the region's homeless, there are a number of organizations in and around the City that offer shelter and services to homeless persons. State housing law requires that cities identify sites that are adequately zoned for homeless shelters and transitional housing. Table 3-5 provides a summary of emergency shelters and transitional housing located in the City of Los Alamitos.

Table 3-5  
Homeless Facilities in Los Alamitos

Facility Name	Type of Facility	Target Population	Number of Shelter Beds
Precious Life Shelter	Emergency/Transitional /Supportive	Pregnant homeless women and their infants	27
Casa Youth Shelter	Emergency	Youth	12

Source: Official websites of Precious Life Shelter and Casa Youth Shelter, accessed June 2021.

There is also a nonprofit organization sponsored by local churches, community groups, corporations and concerned citizens, WE CARE of Los Alamitos, a family support center serving families, veterans, and senior citizens in the areas of Northwest Orange County. WE CARE pools the resources of the community to meet the emergency needs of families and individuals such as rental assistance, utility assistance, therapy services, food, personal care items, and more. The City also financially assists shelters in the region, as described in Appendix C and Appendix D.

The City of Los Alamitos defines emergency shelters and transitional housing in its Municipal Code, and established the allowable locations and standards for these uses with the adoption of Ordinance 13-04 in July of 2013. To comply with the provisions of SB 2, the City amended the Zoning Ordinance to allow for transitional and supportive housing as a residential use, subject only to those requirements of other residential uses in the same zone.

**i. Adequate Sites for Emergency Shelters**

Pursuant to SB 2, jurisdictions with an unmet need for emergency shelters are required to identify a zone(s) where emergency shelters will be allowed as a permitted use without a Conditional Use Permit or other discretionary permit. The identified zone(s) must have sufficient capacity to accommodate the shelter need, and at a minimum provide capacity for at least one year-round shelter.

Section 17.10.020 of the City's Municipal Code permits homeless shelters of up to 20 beds by right in the P-L-I zone. It also allows for shelters for more than 20 beds in the P-L-I zone through a Conditional Use Permit. While each facility is limited to the 20 beds, the Planned Light Industrial zone (P-L-I) could accommodate several facilities within its 154 acres. More specifically, the limitation of each facility to 20 beds - does not limit the Planned Light Industrial Zone (P-L-I) area to only 20 beds.

Other requirements include:

- A waiting and intake area of 10 square feet per bed with a minimum of 100 square feet;
- A written management plan and resident manager;
- An emergency shelter may not be located closer than 300 feet from another emergency shelter; and
- Residents are limited to a six-month maximum stay.

Recent state law also restricts parking requirements for emergency shelters to that necessary for employees only. The Zoning Ordinance currently does not comply with this requirement, and Policy Action 4.6 requires that this requirement be corrected.

Per City Ordinances 19-03 and 13-04, emergency shelters for homeless persons that are subject to a multi-jurisdictional agreement, subject to California Government Code Section 65583(d), shall be considered an allowed use even if inconsistent with Municipal Code Section 17.28.160, provided the agreement includes standards and operational criteria acceptable to the participating jurisdictions.

**ii. Transitional and Supportive Housing**

Facilities of this nature offer an interim home for homeless individuals and families as they transition into permanent housing. Transitional and supportive housing is permitted as a residential use in Los Alamitos and are also allowed through a AUP in the TCMU zone. These uses are only subject to those restricts that apply to other residential dwelling of the same type in the same zone.

**iii. Low-Barrier Navigation Centers**

AB 101 requires that Low-Barrier Navigation Centers (LBNC) be a by-right use in areas zoned for mixed-use and nonresidential zoning districts permitting multifamily uses. LBNC provide temporary room and board with limited barriers to entry while case managers work to connect homeless individuals and families to income, public benefits, health services, permanent housing, or other shelter. "Low Barrier" means best practices to reduce barriers to entry, and may include, but are not limited to, the following:

- (1) The presence of partners if it is not a population-specific site, such as for survivors of domestic violence or sexual assault, women, or youth.
- (2) Pets.
- (3) The storage of possessions.
- (4) Privacy, such as partitions around beds in a dormitory setting or in larger rooms containing more than two beds, or private rooms.

Policy Action 4.6 has been provided to require that the Zoning Ordinance be amended to include Low-Barrier Navigation Center as defined by state law.

**b. Single Room Occupancy Units**

Single Room Occupancy (SRO) units are small, one-room units occupied by a single individual, and may either have a shared or private kitchen and bathroom facilities. SROs are rented on a monthly basis typically without rental deposits, and can provide an entry point into the housing market for extremely low income individuals, formerly homeless and disabled persons.

To comply with the provisions of AB 2634, the City adopted Ordinance 13-04 in 2013 to allow the development of SRO housing. Policy Action 4.8 has been added to conditionally allow SRO in the P-L-I zone. Facilities with SRO units are subject to the requirements of Municipal Code Section 17.28.260, which address development and facility operation.

**5. Accessory Dwelling Units**

Accessory dwelling units provide additional housing opportunities for people of all ages and economic levels, while maintaining compatibility with the surrounding single-family residential neighborhood. The City of Los Alamitos permits accessory dwelling units in the R-1, R-2, R-3 and M-H zones.

Per Municipal Code Chapter 17.28.020, “Accessory dwelling unit” or “ADU” means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multifamily dwelling is or will be situated. Requirements for an ADU include:

- Maximum size of ADU shall not exceed 850 square feet for a studio or one-bedroom unit and 1,000 square feet for a unit with two bedrooms, and the total floor area of an attached ADU shall not exceed 50 percent of the floor area of the existing primary dwelling;
- An attached ADU must have independent exterior access from the proposed or existing primary dwelling;
- One off-street parking space must be provided for an ADU unless certain conditions are met in Municipal Code Chapter 17.28.020 E.9.; and
- The height of an ADU shall not exceed 16 feet unless the ADU is within the existing space of a single-family dwelling, an accessory structure, or multifamily dwelling structure.

“Junior accessory dwelling unit” or “JADU” means a unit that is no more than 500 square feet in size and contained entirely within a single-family residence. A JADU may include separate sanitation facilities, or may share sanitation facilities with the single-family residence. Requirements for a JADU include:

- A JADU shall not be less than 220 square feet and shall not exceed 500 square feet in size;
- A JADU located within a proposed or existing single-family residence must include a separate entrance from the main entrance of the residence;
- A JADU must include an efficiency kitchen, including a cooking facility with appliances, and a food preparation counter and storage cabinets that are of reasonable size in relation to the size of the JADU;
- No additional off-street parking is required for a JADU beyond that required at the time the existing primary dwelling was constructed.

The City’s standards are consistent with current State law. However, as standards have been changing for ADUs and JADUs, Policy Action 4.7 requires that the City annually review its ADU and JADU requirements for compliance with State law.

## 6. Housing for Persons with Disabilities

According to the US Census Bureau, persons with disabilities, including those with developmental disabilities, are individuals with a long-lasting physical, mental or emotional condition. These conditions can make it difficult for a person to do daily activities such as walking, climbing stairs, dressing, bathing, learning or remembering. These conditions can also prevent a person from going outside the home alone or to work at a job.

### a. Reasonable Accommodation Procedures

As a matter of State law (SB 520), jurisdictions are now required to analyze potential and actual constraints upon the development, maintenance and improvement of housing for persons with disabilities, and demonstrate local efforts to remove governmental constraints and provide reasonable accommodations for housing designed for persons with disabilities. With the 2013 adoption of the Reasonable Accommodation Ordinance No. 13-05 the City of Los Alamitos established a process for requesting reasonable accommodation. Ordinance No. 19-03 updated the process to conform to federal and state fair housing laws in 2019. Reasonable accommodation procedures are explained in Los Alamitos Municipal Code Section 17.42. An application for a reasonable accommodation from a zoning regulation, policy or practice is made on a form provided by the Development Services Department, accompanied by a fee. The Development Services Director shall issue a written determination to approve, conditionally approve, or deny a request for reasonable accommodation. The written decision shall be based on the following findings, all of which are required for approval:

1. The requested accommodation is requested by or on behalf of one or more individuals with a disability protected under State or Federal law.
2. The requested accommodation is necessary to provide one or more individuals with a disability an equal opportunity to use and enjoy a dwelling.
3. The requested accommodation will not impose an undue financial or administrative burden on the City, as “undue financial or administrative burden” is defined in Fair Housing Laws and interpretive case law.
4. The requested accommodation will not result in a fundamental alteration in the nature of the City’s Zoning Code, as “fundamental alteration” is defined in Fair Housing Laws and interpretive case law.

5. The requested accommodation will not fundamentally alter the character of the community, as “fundamental alteration” is defined in Fair Housing Laws and interpretive case law, including creating a substantial increase in traffic or insufficient parking.
6. The requested accommodation will not, under the specific facts of the case, result in a direct threat to the health, safety, or general welfare of other individuals or substantial physical damage to the property of others.

The findings above are in compliance with federal and state fair housing laws. No public hearing is required for any reasonable accommodation request unless a decision of the Director is appealed or called for review. The City’s reasonable accommodation procedure does not pose a constraint to housing for persons with disabilities.

All improvements constructed under a reasonable accommodation authorized by Code, which deviate from the City’s development standards at the time that the improvement is constructed, are required to be removed upon the vacation of the unit by the person to whom the reasonable accommodation was granted, unless the Director makes a finding per Municipal Code Section 17.42.050.

### **b. Zoning and Other Land Use Regulations**

Examples of the ways in which the City facilitates housing for persons with disabilities through its regulatory and permitting procedures are:

- The City of Los Alamitos currently permits residential care facilities, regardless of the number of residents, in the C-O (Commercial- Professional Office) and C-G (General Commercial) zones with a Conditional Use Permit.
- The City of Los Alamitos currently permits residential care facilities for seven or more persons in the R-3 (Multiple-Family Residential) zone with a Conditional Use Permit.
- The City defines family as “a group of persons, whether related or unrelated, who live together in a nontransient and interactive manner, including the joint use of common areas of the premises which they occupy and sharing household activities and responsibilities such as meals, chores, and expenses.” Live-in domestic help would qualify under the family definition for sharing household activities and responsibilities. The City has determined that the current definition does not pose a constraint on housing for persons with disabilities.
- For residential care facilities, the City requires a quarter to one and half parking spaces for each unit or room.

State law already provides that transitional housing, supportive housing, and residential care facilities for 6 or fewer persons are allowed in all residential zones of a city with the same development standards as other residential uses in those zones. Table 3-2 has been revised to clarify this.

The City has not received any applications for a residential care facility in the recent past. However, a Conditional Use Permit application for a residential care facility for seven or more persons would be evaluated based on compliance with the development standards and requirements stated in the Zoning Code, which may constrain development of residential care facilities. Policy Action 3.5 requires the City to address this constraint within one year of adoption of the Housing Element and designate zones where residential care facilities facility for seven or more persons are allowed by right.

## 7. Building Codes and Enforcement

Building and safety codes are adopted to preserve public health and safety, and ensure the construction of safe and adequate housing. These standards also have the potential to increase the cost of housing construction and maintenance.

### a. Building Codes

The City of Los Alamitos has adopted the 2019 California Building Code, which is based on the most recent International Building Code, which establishes construction standards for all residential buildings. The City amends the code as needed to further define requirements based on local conditions.

The following construction codes, subject to the modifications set forth in Section 15.04.010 of the Municipal Code, have been adopted by the City:

1. The 2019 California Administrative Code (Title 24, Part 1);
2. The California Building Code (Part 2, which is based on the 2018 International Building Code);
3. 2019 California Residential Code (Part 2.5, based on the 2018 International Residential Code);
4. 2019 California Electrical Code (Part 3, based on the 2017 National Electrical Code);
5. 2019 California Mechanical Code (Part 4, based on the 2018 Uniform Mechanical Code);
6. 2019 California Plumbing Code, (Part 5, based upon the 2018 Uniform Plumbing Code);

7. 2019 California Energy Code, (Part 6);
8. 2019 California Historical Building Code (Part 8);
9. 2019 California Existing Building Code (Part 10, based on the 2018 International Existing Building Code);
10. 2019 California Green Building Standards Code (Part 11, known as the "CALGreen" Code);
11. 2019 California Referenced Standards Code (Part 12).

The majority of amendments to the code do not apply to or affect residential construction. Prior to adoption of these amendments, the City analyzed their potential impacts and found that these amendments are required to ensure the public safety, health and welfare.

#### **b. American with Disabilities Act**

The federal Fair Housing Act of 1998 (FHA) and the Americans with Disabilities Act (ADA) are intended to assist in providing safe and accessible housing. ADA provisions include requirements for a minimum percentage of units in new developments to be fully accessible for persons with physical disabilities. Compliance with these regulations may increase the cost of housing construction as well as the cost of rehabilitating older units, which may be required to comply with current codes. However, the enforcement of ADA requirements is not at the discretion of the City, but is mandated under federal law.

## **8. Development Fees**

The City charges various development and permit fees to cover administrative costs associated with the development of residential projects. These fees ensure quality development and the provision of adequate services. Often times, development fees are passed through to renters and homeowners in the price/rent of housing, thus affecting the affordability of housing.

The Building Industry Association of Orange County conducts periodically a land development fee survey and provides a comparative summary for Los Alamitos and surrounding jurisdictions. The most recent fee survey (2013-2014) utilizes a hypothetical subdivision and house size to standardize the reporting of fees. The prototype subdivision used in 2013-2014 was 50 detached units on 10 acres at a density of 5 dwelling units per acre. The building fees are based on a 2,500 square foot, single-family

detached unit valued at \$166,850, with 4 bedrooms and 2.5 bathrooms and a 400 square foot garage. The results showed the development fees in Los Alamitos were comparative to neighboring jurisdictions including Cypress, Westminster and Garden Grove. While fees for individual items vary among cities, the overall fee level in Los Alamitos are similar to the neighboring cities.

Table 3-6 shows the most recent development fee schedule implemented in Los Alamitos from July 1, 2021. The City complies with new transparency requirements by posting the most recent Master Fee Schedule on its website. The total development and permit (including planning and impact) fees for a recently built single-family home (4,260 square feet, including demolition of existing unit) were \$8,435.53. The total development and permit fees for a recent condominium project were \$56,161.70 or \$11,232.34 per unit. The total development and permit fees for a recent apartment project (four 2,229-square-foot units) were approximately \$13,090.64 or \$3,272.66 per unit. In addition, the park in-lieu fees also apply to condominium projects because they involve subdivisions. Traffic mitigation fees only apply to subdivisions, so would not apply to multiple family housing projects. Therefore, total development and permit fees including park and traffic fees for a typical condominium project would amount to \$29,626.34 per unit. Compared to condos, multi-family apartment projects would have a much lower total fee amount especially when no subdivision is required. Based on the residential projects constructed in Los Alamitos, the City has not found the development and permit fees to hinder the supply of housing or negatively impact the affordability of housing. Policy Action 4.1 requires the City to use incentives including fee waivers/deferrals to encourage affordable housing development. Policy Action 4.2 also provides a similar incentive program for lot consolidation, which will be crucial for future housing development in the Town Center where small lot sizes may constitute a constraint to affordable housing. The City will continue to monitor the multifamily development fees annually and establish strategies such as fee deferral or waivers at City Council's direction (Policy Action 4.3).

Table 3-6  
Development Fee Summary (2021-2022)

Description	Los Alamitos
<b>Planning</b>	
Preliminary Review	\$234
Negative Declaration <sup>1</sup>	Actual Cost
Initial Environmental Assessment <sup>1</sup>	\$234
Planning Plan Check- Major (> 250 Sq. Ft)	\$468
Planning Plan Check- Minor (Additional Sq. Ft of ≤ 250 Sq. Ft)	\$117
Zoning Ordinance Amendment (map or text) <sup>1</sup>	Deposit \$2,500 /actual cost
Tentative Tract Map	\$1,682 (\$1,472 for a Tentative Parcel Map)
Site Plan Review	\$3,507 Major; \$2,572 Minor
Extension of Time Requests- Discretionary	Deposit \$443
Conditional Use Permits and Variances	\$2,572 Major; \$1,286 Minor; Variances \$935

**3****Housing Element  
Housing Resources and Constraints**

<b>Building</b>	
Building Inspection Fees	\$2,258 for \$100,001 valuation.*
Building Plan Review Fees	\$1,883 per \$100,001 valuation.*
Surcharge- Technology Fee	20% of Building Permit Fee
Surcharge- General Plan Maintenance Fee	9.3% of Building Permit Fee
<b>Engineering and Subdivision</b>	
Final Tract Map	\$1,306
Parcel Map	\$725 per parcel
Lot Line Adjustment	\$725 per parcel
Access- Personal/Homeowner	\$373
Driveway- Residential	\$186
Grading	\$725 plan check, \$373 inspection
Improvement	\$933 plan check, \$560 inspection
<b>Capital Facilities and Connections<sup>2</sup></b>	
Park In-Lieu Fees	\$18,076 single-family \$15,161 duplex \$13,412 multi-family \$9,913 mobile home
Traffic Impact Mitigation Fees	\$318 per residential unit

## Notes:

<sup>1</sup> Actual Cost using FBHR<sup>2</sup> Only applies to subdivisions (e.g. lot split or condominium map).

## 9. Local Processing and Permit Procedures

Processing time for residential projects varies according to the complexity of the proposed development. Projects not requiring a Conditional Use Permit, tentative tract or parcel map or other additional entitlement are subject to ministerial (administrative) review by the Planning staff when the project is submitted for building permits.

A tentative parcel map, residential development plan, Conditional Use Permit, or the addition of square footage to an existing multiple-family residential structure shall be subject to the Site Development Permit process. Any proposed addition to an existing multi-family residential, mixed-use or group of related structures whereby the addition is 2,500 square feet or less of gross floor area is subject to a Minor Site Development Permit, which consists of a staff-level review with public notice but no public hearing. Other types of development are likely subject to a Major Site Development Permit,

which requires a discretionary Planning Commission review process that includes public notice with a public hearing as required for all Planning Commission actions. The staff and/or Planning Commission shall consider the following criteria:

- Compliance with the Zoning Code and all other applicable City regulations and policies and
- Compatibility with neighboring properties and developments with regard to setbacks, building heights, massing, location of parking facilities, and similar site design and building design features that shape how a property appears within a broader, definable neighborhood or zone context.

Typically, the site plan review and Conditional Use Permit processes take eight to twelve weeks from the date of application submittal. If the project also includes Planning Commission action on a Tentative Parcel or Tract Map then staff will process it concurrently with the site plan review, Conditional Use Permit and any required environmental documentation. If the project requires City Council approval, it may take up to six months.

Recent housing projects in the City have taken two to twelve months to submit building permit applications after receiving project approval. The City has seen longer time periods since the COVID-19 pandemic. Since this time period varies from project to project and is based on the developer’s timeline, not the City’s, it is not considered a constraint to housing development in general.

Engineering plan check for a typical project in Los Alamitos normally takes two to four weeks. Building department plan check for the same type of project may also take from two to four weeks. Overall, the typical processing time for a 5-unit multiple-family project, from project submittal to building permit issuance, is typically 10 to 16 weeks. This does not account for the time between project approval and submittal of building permit applications. Table 3-7 outlines the typical processing timeframes for all residential development.

<b>Approval Type</b>	<b>Timeframe</b>
Conditional Use Permit	60-90 days
Site Plan Review	60-90 days
Tentative Parcel/ Tract Map	60-90 days
Ministerial	5-10 days for first review

Source: City of Los Alamitos, 2021.

## 10. Environmental and Infrastructure Constraints

### a. Environmental Constraints

Environmental hazards affecting housing units include geologic and seismic conditions, which pose the greatest threat to the built environment. The following hazards may impact future development of residential units in the city. There are no other environmental or other constraints that would preclude development on identified sites.

#### i. Seismic Hazards

Los Alamitos is in a region of high seismic activity and is subject to potentially destructive earthquakes. While there are no known active or potentially active faults located in the City of Los Alamitos, the entire Southern California region is considered to be seismically active. Five faults, the Newport-Inglewood, Norwalk, El Modena, Whittier-Elsinore, and Elysian Park Faults are situated within close proximity to Los Alamitos. Surface rupture resulting from earthquakes is unlikely to occur in the City because no faults have been identified within its boundaries. Also, due to its flat topography, Los Alamitos residents are not exposed to geologic hazards such as landslides. The 2019 California Building Code (CBC; California Code of Regulations, Title 24, Part 2), adopted by reference in the Los Alamitos Municipal Code (Chapter 15.04 Building Codes), contains provisions to safeguard against major structural failures or loss of life caused by earthquakes or other geologic hazards. The City's Development Services Department enforces CBC provisions, requires preparation of geotechnical reports for construction projects prior to issuing development permits, and imposes the recommended design parameters of the report as conditions of approval.

#### ii. Flooding

The Orange County Flood Control District (OCFCD) maintains storm drainage and flood control in Los Alamitos. Three natural surface water bodies located in and adjacent to Los Alamitos are the Coyote Creek, Carbon Creek and San Gabriel River. The two concrete-lined creeks are intermittent and can be dry for some part of the year. The concrete-lined San Gabriel River flows year-round in the lower end. Most flood control facilities within the City currently provide protection for a 25-year storm.

The City of Los Alamitos participates in and promotes the National Flood Insurance Program administered by the Federal Emergency Management Agency (FEMA). The program provides communities and individuals with flood hazard information and provides flood insurance for property owners within participating jurisdictions. According to current FEMA Flood Insurance Rate Maps, the Sites Inventory (Table B-2) does not include any sites in the 100-year special flood hazard areas. Most inventory sites are located in Zone X (area with reduced flood risk due to levee or 0.2% annual chance flood hazard), and the Lampson site is located in Zone D (area of undetermined flood hazard). Areas of potential flooding in and near the City are generally associated with the Coyote Creek and Carbon Creek, which are not near any future housing sites.

### **iii. Toxic and Hazardous Wastes**

The local regulatory authority for the on-site storage of hazardous materials in Los Alamitos is the Orange County Fire Authority. Within the Orange County Fire Authority, the Safety and Environmental Services section enforces codes and ordinances relative to fire and life safety issues associated with commercial, industrial, and residential development, as well as hazardous materials. Under Assembly Bill 2286, businesses that handle hazardous materials (including hazardous wastes) or extremely hazardous substances at reportable quantities are required to submit a Hazardous Materials Business Emergency Plan (HMBEP) in CERS. The Orange County Certified Unified Program Agency (CUPA) verifies information disclosed by businesses and provides it to agencies that are responsible for the protection of public health and safety and the environment, such as fire departments, hazardous materials response teams and other local environmental regulatory groups.

According to the California Department of Toxic Substances Control (DTSC) “EnviroStor” database, Site 5 in the inventory has a tiered permit and is identified to have potential soil contamination from aerospace manufacturing/ maintenance uses. The site’s cleanup oversight agency is the DTSC Site Cleanup Program. Before any housing development occurs on Site 5, the developer will be required to perform site evaluation and remediation under DTSC oversight in accordance with existing regulations. According to the State Water Resources Control Board GeoTracker database, Site 3 in the inventory has an open case regarding a former dry cleaner onsite. The site’s cleanup oversight agency is the Santa Ana Regional Water Quality Control Board (RWQCB). Any future developer will be required to perform remediation under RWQCB oversight in accordance with existing regulations prior to redevelopment. The Sites Inventory does not include any other sites that are included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5.

**iv. Fire Hazards**

The City of Los Alamitos contracts with the Orange County Fire Authority for fire protection and emergency medical services. The local fire station in Los Alamitos is located at 3642 Green Avenue. The fire station houses three Fire Captains, three Engineers, and three Firefighters. Additional resources are also available from 77 Orange County Fire Stations, the City of Long Beach, and Los Angeles County. Due to the low density character of the community and sparse wildland areas in the City, the wildland fire hazard is considered to be insignificant or low. The inventory sites are not located in or near state responsibility areas or Very High Fire Hazard Severity Zones as classified by the California Department of Forestry and Fire Protection.

**v. Noise**

The existing noise environment surrounding the City of Los Alamitos is influenced primarily by transportation related noise sources. These transportation related noise sources include traffic noise from nearby roadways (i.e., I-605, Katella Avenue and Los Alamitos Boulevard) and aircraft noise from the Joint Forces Training Base (JFTB). Stationary noise sources include air conditioning units, power generators, air compressors, school bells, and power equipment. The City of Los Alamitos General Plan has traffic noise contours for assessing the compatibility of residential uses with transportation related noise sources. The City has also adopted a Noise Ordinance that sets criteria for residential areas impacted by stationary noise sources, including “not to exceed” noise levels for various periods of time and regulations for special activities.

Most sites listed in the Sites Inventory are outside of the 60/65-CNEL noise contours established for JFTB, except the Site 6 which is partially within the 60-CNEL noise contour but completely outside the 65-CNEL noise contour. The City enforces California Building Code’s standards for residential construction practices and building materials to ensure that interior noise levels do not exceed 45 dBA. Future housing projects will be subject to CBC requirements and thus meet the City noise standards of 45 dBA at night and 55 dBA during the day for residential uses as set forth in the General Plan.

**b. Infrastructure Constraints****i. Water**

The Golden State Water Company owns and operates the extensive network of water lines that serves Los Alamitos. The water system supply sources include a mixture of groundwater from the Orange County Groundwater Basin and imported water from the

Colorado River Aqueduct and State Water Project (imported and distributed by Metropolitan Water District of Southern California (MWDSC)). The system has historically met at least 60 percent of its total water demand by pumping water from groundwater sources. Municipal Water District of Orange County (MWDOC) is the intermediate wholesaler between MWDSC and the Golden State Water Company for imported water and prepares the Urban Water Management Plan (UWMP) for Orange County.

The City is located in an urbanized area and is generally built-out. Additional housing units will be accommodated through redevelopment or increased units on parcels with existing development. Water infrastructure facilities are generally accessible throughout the City. Fire flow has been determined adequate in most areas. Where there is low fire flow, buildings are required to be sprinklered. Based on the 2020 MWDOC UWMP analysis and discussion with the City of Los Alamitos' water service provider, sufficient water capacity is available to provide water service for additional units constructed to meet the City's RHNA allocation for the planning period.

## **ii. Sewer**

Los Alamitos' wastewater is carried through pipes owned by the Rossmoor/Los Alamitos Area Sewer District (RLAASD) then to two larger sewer trunk lines owned by the Orange County Sanitation District (OCSD). These trunk lines eventually connect to treatment plant facilities owned by the OCSD located in Huntington Beach. There are approximately 56.4 miles of sewer lines in the Rossmoor/Los Alamitos area.

Similar to water infrastructure, the main sewer infrastructure is available at most locations within the City. Based on RLAASD's Sewer System Management Plan (2017) and discussion with the Rossmoor/Los Alamitos Area Sewer District, there is sufficient sewer capacity available to provide service for additional units constructed to meet the

City's RHNA allocation for the Planning Period. Improvements to the sewer system may be necessary for certain parcels in the City if the existing infrastructure in that particular location cannot accommodate a higher intensity use. This would be determined on a project-by-project basis.

## **11. On and Off-Site Improvements**

When subdividing land, the City may require the developer/subdivider to dedicate land or pay in-lieu fees to provide necessary on and off-site improvements. The subdivision

**3****Housing Element****Housing Resources and Constraints**

---

committee determines the appropriate dedications which may include dedication of land for local streets, arterial highways, alleys, trails, paths and pedestrian ways, flood control facilities, parks, easements for landscape maintenance, public utility easements and public transit facilities.

Since Los Alamitos is generally built-out, new development would primarily be infill and subdivisions would result in few new parcels. Most subdivisions would utilize the existing circulation network. Private streets may need to be constructed for access to individual lots. Table 3-8 summarizes the required widths for private streets.

---

Table 3-8  
Private Street Widths

Street Type	Minimum Pavement Width	Minimum Right-of-Way Width
Private street serving 4 or fewer parcels	28'	40'
Private street serving 5 or more parcels	40'	56'

Source: City of Los Alamitos Municipal Code, Chapter 16.

---

## B. Non-Governmental Constraints

### 1. Vacant and Underutilized Land

A detailed analysis of vacant and underutilized land in the City of Los Alamitos is provided in Appendix B.

### 2. Land Prices

The cost of land has a key influence on the cost of housing and the availability of affordable units. Land prices are determined by a number of factors including, but not limited to, land availability and permitted development density. As land becomes less available, the price of land increases. The price of land also increases as the number of units permitted on each lot increases. In Orange County, undeveloped land is limited and combined with a growing population land prices have increased.

There are few vacant parcels of land remaining in Los Alamitos. As a result, few, if any, transactions of only land have occurred in the past few years. Based on transactions in nearby cities and the price of land in the overall County, the price of land in Los Alamitos is estimated to be \$38 to \$77 per square foot.

### 3. Construction Costs

Construction costs are primarily determined by the costs of materials and labor. They are also influenced by market demands and market-based changes in the cost of materials. Construction costs depend on the type of unit being built and the quality of the product being produced. Table 3-9 summarizes estimated construction cost based on development type in urban area of Orange County, which are representative for Los Alamitos.

Table 3-9  
 Construction Cost Estimates

Development Type	Density (units per acre)	Unit Size (square feet)	Cost per Square Foot
Single-Family Residential	3-6	1,890 – 3,000	\$87.55
Single-Family Residential – detached 3-story	12-14	1,900 – 2,300	\$124.34
Multi-family Residential – 2-story	11-15	2,400 – 2,560	\$88.21
Multi-family Residential – attached 2- story condo	14-17	1,450 – 1,900	\$103.93
Multi-family – attached 3-story	18-22	2,050 – 2,250	\$125.27

Source: Typical average costs in Orange County urban area from Building Industry Association, Orange County Chapter, 2021

## 4. Financing

Mortgage interest rates have a large influence over the affordability of housing. Higher interest rates increase a homebuyer’s monthly payment and decrease the range of housing that a household can afford. Lower interest rates result in a lower cost and lower monthly payments for the homebuyer.

When interest rates rise, the market typically compensates by decreasing housing prices. Similarly, when interest rates decrease, housing prices begin to rise. There is often a lag in the market, causing housing prices to remain high when interest rates rise until the market catches up. Lower-income households often find it most difficult to purchase a home during this time period.

Figure 3-1 shows the average interest rates between July 2018 and June 2021. The interest rates have generally declined from December 2018 through January 2021. Interest rates have fluctuated, but are currently low, at around 3 percent. Interest rates are determined by national policies and economic conditions and there is little that a local government can do to affect these rates. However, in order to extend home buying opportunities to lower-income households, jurisdictions can offer interest rate write-downs. Additionally, government insured loan programs may be available to reduce mortgage down payment requirements.

Loan limits have generally increased for different types of lenders in 2021, giving qualifying homebuyers more buying power. While the mortgage rates hit historical low due to the COVID-19 pandemic, some lenders may ask for extra asset documents before closing due to the volatility in the financial markets. The economy is recovering fast in

2021 and is likely to continue the trend in the coming months. However, mortgage rates are also increasing and the housing market is experiencing a slowdown in purchase application activity. Furthermore, it has yet to translate into a weaker home price trajectory because the shortage of inventory continues to cause pricing to remain elevated. These conditions may create obstacles to homeownership by low-income households.

Figure 3-1  
Mortgage Rates  
July 2018 – June 2021

Source: Freddie Mac Primary Mortgage Market Survey, U.S. weekly average mortgage rates as of 6/10/2021.

The City has not found any evidence that nongovernmental constraints affect its ability to meet the RHNA. In addition, the City cannot influence banks, lending institutions or the suppliers of building materials and labor cost alike. Although the City will continue to work with the affordable housing development community to reduce costs and encourage development through fee waivers, density bonus provisions and other means over which it has control, it cannot impact the national economy which heavily influences land prices, mortgage rates and labor/material costs.

## 5. Energy Conservation

Southern California Edison, which provides electricity service in Los Alamitos, offers public information and technical assistance to developers and homeowners regarding energy conservation. Southern California Edison also provides incentives for energy efficient new construction and home improvements. For new construction, the building

owner and/or contractor can participate in the Savings By Design program or the California Advanced Homes Program, which helps home builders to prepare for future energy code changes, build homes better than code and reach Zero Net Energy (ZNE).

Homeowners also have the option of installing efficient appliances including a heat pump water heater, smart thermostat and/or a Home Area Network (HAN) to receive rebates. Both homeowners and renters may qualify for the Residential Energy Efficiency Loan (REEL) program which offers financing options for energy efficiency upgrades. Under the Energy Savings Assistance program, income-qualified customers may be eligible to receive energy-efficient appliances at no charge or a minimal charge.

The Southern California Gas Company, which also provides service to Los Alamitos, offers various rebates and savings programs that promote reduced energy consumption and sustainable design. Rebates include energy efficient appliances upgrade for both single-family and multi-family units. Through the Energy Efficient New Homes program, builders can receive up to \$1,000 per single family item or \$1,400 per multi-family item for constructing homes with qualifying natural gas appliances that exceed the Title 24 requirements.

One of the more recent strategies in building energy-efficient homes is following the U.S. Green Building Council's guidelines for LEED Certification. LEED-certified buildings demonstrate energy and water savings, reduced maintenance costs and improved occupant satisfaction. The LEED for New Construction program has been applied to numerous multi-family residential projects nationwide. The LEED for Homes includes standards for new single-family and multi-family home construction. The LEED certification standards are one piece of a coordinated green building program.

A green building program considers a broad range of issues including community site design, energy efficiency, water conservation, resource-efficient material selection, indoor environmental quality, construction management, and building maintenance. The end result will be buildings that minimize the use of resources; are healthier for people; and mitigate the effects on the environment.

The following presents a variety of ways in which Los Alamitos can promote energy conservation:

- Provide information regarding rebate programs and energy audits available through Southern California Edison;
- Refer residents and businesses to green building certification programs such as LEED for Homes;

## Housing Element **3**

### Housing Resources and Constraints

- Develop incentives, such as expedited plan check, for developments that are utilizing green building;
- Promote funding opportunities for green buildings, including available rebates and funding through the California Energy Commission; and
- Provide resource materials regarding green building and energy conservation.

# CHAPTER 4

## HOUSING POLICY PROGRAM

### A. Introduction

This chapter describes the City’s Housing Policy Program for the 2021–2029 RHNA Planning Period. The Policy Program details the specific policy actions the City will undertake to address present and future housing needs, meet the requirements of State law and consider the input of residents and stakeholders. The Policy Program serves as a guide for policy makers and City staff and will assist in the decision-making process for housing and housing-related activities during the 2021–2029 planning period.

In developing the Policy Program, the City assessed its housing needs, conducted a fair housing assessment (Appendix D), evaluated the performance of existing programs (Appendix C) and received input from the community (Appendix A). The strategies or policy actions detailed in this program are accompanied by:

- an identification of the City department or agency responsible for implementation;
- anticipated targeted financing or funding source;
- quantified objectives (where applicable); and,
- anticipated timeframe for implementation.

The Housing Policy Program is organized into five Housing Strategy Areas:

- Maintenance and Rehabilitation of Housing Stock
- Preserving Housing Costs Affordability
- Affirmatively Furthering Fair Housing
- Adequate Housing Supply
- Coordinated Housing Efforts

### B. City of Los Alamitos Housing Policy Program

#### Housing Strategy Area 1: Maintenance and Rehabilitation of Housing Stock

The City of Los Alamitos is generally a “built-out” community comprised of long established neighborhoods. The City has not experienced significant construction of new

**4 Housing Element  
Housing Policy Program**

housing units in recent years. Approximately 32 percent of the City’s housing stock is between 30 and 50 years old and an additional 56 percent is over 50 years old. Much of the housing stock has been deemed to be in decent, suitable condition. However, due to the relative age of housing units there is an anticipated need for on-going maintenance and rehabilitation. Maintenance and rehabilitation activities help ensure the quality of the City’s existing housing stock and neighborhoods is preserved, thereby preserving and revitalizing communities that may be vulnerable to displacement due to inadequate housing conditions.

Policy Action 1.1: Proactive Code Enforcement

The City currently has an active code enforcement program and shall continue to perform proactive and complaint-based code enforcement activities. When the activities involve housing construction deficiencies, the City shall inform the property owner of government programs such as the federal Title I Property Improvement Loan Program and other rehabilitation programs that may be available from nonprofit housing organizations such as Habitat for Humanity. The City shall also provide informational materials on the programs at City Hall and on the City’s website. The City will target 5 units annually for rehabilitation during the planning period.

Objective: Continued Proactive Code Enforcement Activities, refer 3 households annually  
Responsible Party: Code Enforcement Division  
Funding Source: General Fund  
Timeframe: Ongoing, update website and distribution materials by December 31, 2022

Policy Action 1.2: Single-Family Rehabilitation Loan Program

Extremely-low- and very-low-income Los Alamitos residents are eligible for the U.S. Department of Agriculture Single-Family Rehabilitation Housing Repair Loans & Grants Program, also known as the Section 504 Home Repair program. This program provides loans to very-low-income homeowners to repair, improve or modernize their homes or grants to elderly very-low-income homeowners to remove health and safety hazards. Homeowners that are unable to obtain affordable credit elsewhere are eligible and must be age 62 or older and not able to repay a repair loan to qualify for grants.

The City shall continue to encourage residents (especially in Tract 1100.14) to apply for the Section 504 Home Repair program by providing and disseminating information on the City’s website and at City Hall. To encourage community preservation and prevent displacement, the Code Enforcement Division will continue to provide information on the program and encourage very-low-income residents to apply when addressing code violations.

Objective: Assist units owned by extremely-low- and very-low-income households, refer 3 households annually  
Responsible Party: County of Orange/Code Enforcement Division  
Funding Source: County of Orange  
Timeframe: Quarterly social media and website announcements, update informational materials and website by December 31, 2022

Policy Action 1.3: Rehabilitation of Multifamily Dwellings

The City will provide for regulatory incentives and in-kind technical assistance to nonprofit organizations, affordable housing developers, and property owners for the acquisition and rehabilitation of multifamily properties. To encourage acquisition and rehabilitation of multifamily units as a place-based strategy for community revitalization and displacement protection, the City Council shall consider a variety of incentives such as streamlined permit review, reduced development standards, parking reductions or other concessions on a case-by-case basis.

Objective: Encourage and facilitate rehabilitation of multi-family dwellings, endeavoring to assist one multi-family project annually  
Responsible Party: Planning Division/City Council  
Funding Source: General Fund  
Timeframe: Establish incentive package by December 2022. As rehabilitation projects are proposed, incentives will be at City Council discretion on a case-by-case basis during 2021 to 2029

**Housing Strategy Area 2: Preserve Housing Costs Affordability**

The availability of suitable housing at an affordable cost has a direct positive influence on the ability of Los Alamitos’ residents to remain in the City and maintain and/or enhance their quality of life. Preserving existing affordable housing units is especially critical to special needs persons in the community. Preserving affordable housing units and increasing assistance are ways in which the City can ensure current and future residents have the opportunity to obtain affordable housing and prevent displacement.

**4 Housing Element  
Housing Policy Program**

Policy Action 2.1: Preservation of Units At-Risk of Converting to Market Rate

Continue to monitor units at-risk of conversion with priority on the Klein Manor (71 affordable units that accept Section 8 vouchers). The City does not have any units at-risk during the planning period or within ten years of the start date, however, it will continue to monitor affordable units and proactively assist property owners to continue income-restrictions to maintain 71 affordable units throughout the planning period.

Objective: Continue to monitor “at-risk” units  
Responsible Party: Planning Division  
Funding Source: General Fund  
Timeframe: Ongoing, re-evaluate in 2029 during the next housing element planning period

Policy Action 2.2: Section 8 Housing Choice Rental Assistance Program

The Orange County Housing Authority continues to provide rental assistance to qualified households in Los Alamitos through the Section 8 Housing Choice Voucher Program. The City shall continue to work with the Housing Authority to promote the Section 8 program and increase the number of households served as additional vouchers become available.

Objective: Increase use of Section 8 Housing Choice Vouchers through referral. Assist 12 households per year.  
Responsible Party: City Development Services Department/Orange County Housing Authority  
Funding Source: HUD  
Timeframe: Meet annually with the County to get update on opportunities; participate upon issue of each Notice of Available Funds or new inquiry received

Policy Action 2.3: Energy Conservation

Monthly utility costs can affect a household’s ability to afford suitable housing. Reducing energy consumption and residents’ utility costs can assist households in reducing monthly housing expenses. The City will encourage residents to participate in energy conservation incentive programs through the utility companies (Southern California Gas and Southern California Edison). To further promote efficient use of energy resources, the City shall investigate the feasibility and effectiveness of offering additional incentives or developing other strategies.

**Objective:** Encourage participation in energy conservation incentive programs

**Responsible Party:** Development Services Department

**Funding Source:** General Fund

**Timeframe:** Establish incentive program for energy conservation and publish on City website by June 30, 2023. Consider feasibility of offering additional incentives annually in the General Fund budget; annually update information on the City website with links to SoCalGas and SCE programs with the first update by December 31, 2022

**Housing Strategy Area 3: Affirmatively Furthering Fair Housing**

The City promotes fair housing and makes all programs available to low-income families and individuals, regardless of race, religion, color, national origin, ancestry physical disability, mental disability, medical condition, marital status, political affiliation, sex, age, sexual orientation or other arbitrary factor. Housing should be available for all persons regardless of income, family status, age, race, sex, national origin or color. The City encourages the provision of housing to meet needs of those with special needs, including but not limited to, elderly households, persons with disabilities, including those with developmental disabilities, families with children, the homeless and all other segments of the community.

Policy Action 3.1 Housing for Persons with Special Needs

The City understands that persons with special needs often require housing units not readily available in the private market and that affordability is a concern. The City shall encourage and facilitate development of housing for family and large households, the elderly, farmworkers, persons experiencing homelessness and persons with disabilities, including physical and developmental disabilities. The City will assist developers in identifying outside funding sources and support efforts to pursue those opportunities—either as group homes or in single family homes, when appropriate and feasible. The City will develop a menu to offer incentives such as density bonuses, regulatory concessions and expedited processing. The City will develop and disseminate informational materials annually to developers regarding the incentive program and identified funding sources to potentially assist 5 special needs residents annually through the planning period.

**Objective:** Housing for Persons with Disabilities

**Responsible Party:** Development Services Department

**Funding Source:** General Fund

**4 Housing Element  
Housing Policy Program**

Timeframe: Establish incentive program and publish on City website by June 30, 2023. Annually contact developers and non-profit organizations to promote density bonus, regulatory concessions and expedited processing, as well as funding sources such as the County and State funding programs. Consider specific incentives as housing projects for persons with special needs are proposed.

Policy Action 3.2: Fair Housing Information and Referrals

The City shall continue to provide referrals to the Fair Housing Council of Orange County for fair housing services including counseling services for tenant-landlord disputes and cases of alleged discrimination.

The City shall continue to publicize fair housing and complaint referral information at local community centers and in the Recreation & Community Services Schedule of Classes. The City will also provide information at City Hall and on the City's website.

Objective: Fair Housing Information and Referrals, refer 5 households annually  
Responsible Party: Development Services Department/Fair Housing Council of Orange County  
Funding Source: General Fund  
Timeframe: Ongoing, update website and distribution materials by June 30, 2022

Policy Action 3.3: Active Outreach

Collaborate and coordinate with government agencies and nonprofit groups such as the Fair Housing Council of Orange County to support outreach and expansion of lending programs for homeownership among minority populations.

Objective: Outreach to 20 residents annually and expansion of mortgage lending programs for minority populations  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Annually with adoption of budget, subject to available funding

Policy Action 3.4: Prevent and Combat Potential Housing Discrimination

The City shall work with government agencies (e.g. Fair Housing Council of Orange County) and nonprofit groups (e.g. Habitat for Humanity) on anti-discrimination during housing processes for residents in protected classes, such as those with disabilities and families with children. Advertise workshops and events held by these organizations on anti-discrimination on the City’s email newsletter and Housing Element webpage.

Objective: Expand anti-discrimination efforts through education and coordination, referring 5 households annually  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Ongoing, update website and email newsletter by June 30, 2022

Policy Action 3.5: Residential Care Facilities for Seven or More Persons

The City currently requires a Conditional Use Permit (CUP) application for a residential care facility for seven or more persons in the R-3 zone. To remove any potential constraint to housing for persons with disabilities, the City shall remove the CUP requirement for the R-3 zone, or allow residential care facility for seven or more persons by right in another zone as appropriate.

Objective: Remove additional requirement for residential care facilities for seven or more persons  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: December 2022 Zoning Code Annual Update

Policy Action 3.6: Fair Housing Targeted Outreach

The City will annually review its policies and zoning laws relating to fair housing, and reach out to the community through surveys and workshops as appropriate. The outreach efforts will be advertised via multiple channels, such as City email newsletter, posting at City website, print material at City Hall, local community centers, and social media.

Objective: Expand outreach to affirmatively further fair housing, reaching 20 households annually  
Responsible Party: Development Services Department

**4 Housing Element  
Housing Policy Program**

Funding Source: General Fund  
Timeframe: December 2022 Zoning Code Annual Update, annually thereafter

**Housing Strategy Area 4: Adequate Housing Supply**

The City strives to ensure an adequate supply of housing is available to meet existing and future housing needs of all economic segments of the community, enhance housing mobility, and encourage various new housing choices in high resource areas.

Policy Action 4.1: Incentives for Development of Housing Affordable to Lower and Moderate Income Households

The City recognizes the need for housing affordable to and meet the needs of all segments of the population, especially lower and moderate income households. The City shall encourage the development of housing affordable to lower and moderate income households throughout the City using incentives such as density bonus provisions (Municipal Code Section 17.28.050), expedited processing, and fee waivers/deferrals.

Objective: Encourage development of lower and moderate income housing units to meet the City’s RHNA allocation during the planning period  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Establish incentive program by June 30, 2023. Update informational materials and City website by June 30, 2023. Provide incentive information to developers who contact the City regarding inventory sites and other opportunities as they occur; meet annually with the property owners of inventory sites and affordable housing developers to discuss the incentives available through the City, County and State funding sources and identify development opportunities.

Policy Action 4.2: Encourage and Facilitate Lot Consolidation

The City will encourage and facilitate the consolidation of vacant and underutilized lots for residential development through a variety of incentives, including but not limited to: financial incentives such as land write-downs, fee deferral or reductions, assistance with on- or off-site infrastructure costs, and other pre-development costs associated with the

assemblage of multiple parcels. Consolidation will provide the opportunity to develop vacant and underutilized lots to their fullest potential, especially in high resource areas such as the Town Center. The City will work with private land owners and developers through annual outreach and the identification of opportunities and incentives to assemble larger holdings to allow multi-family projects which increase the number of units and housing choices in the Town Center and other areas in the City. The City will evaluate the appropriateness of a variety of incentives and provide this information to the developers and other interested parties through the City’s website and print material at City Hall.

**Objective:** Encourage and facilitate lot consolidation, with a focus in Town Center

**Responsible Party:** Development Services Department

**Funding Source:** General Fund

**Timeframe:** Establish incentive program by December 31, 2022. Update informational materials and City website by December 31, 2022; annual outreach to development community to promote incentives and opportunities; as City staff reviews projects in the Town Center and other areas in the City, reassess and update the incentives in 2024 and 2028.

**Policy Action 4.3: Monitor Multifamily Development Fees**

Development fees, including impact and permit fees, may impact the feasibility of residential development, especially the development of multifamily units. The City shall annually monitor the impact of fees for multifamily development. If fees are determined to be a constraint to multifamily development, the City shall establish programs or strategies to address constraint such as fee deferral or waivers at City Council’s direction.

**Objective:** Monitor the cost of fees (planning, building, etc.) associated with multifamily development and establish strategies as appropriate

**Responsible Party:** Development Services Department

**Funding Source:** General Fund

**Timeframe:** 2021–2029, Annually monitor fees and implement strategies as appropriate

**4 Housing Element  
Housing Policy Program**

Policy Action 4.4: Create R-4 Zoning and Rezoning to Allow Higher Density

The City shall require that at least the minimum number of assigned affordable housing units be built consistent with Table B-2 on each parcel so designated. To provide more housing units affordable to lower income levels, the City shall create and adopt an R-4 zone which allows 30 to 36 units per acre as a base, not including density bonus provisions, and apply that designation to those sites so identified in Table B-2. The zoning text shall conform to Government Code section 65583.2(h) (i), requiring a minimum of 20 units per acre and 16 units per site, permitted by right. The City will rezone the Lampson property (Site 6 in Table B-2, Appendix B) to R-3. Project applications for the Lampson site will include both the market rate and affordable housing units, or a Development Agreement will be prepared to assure that both projects are constructed.

The City shall require that the assigned affordable housing units be built consistent with Table B-2 and Figure B-1 on each parcel so designated. Prior to adoption of the R-4 zone, the City will demonstrate that the assigned units are physically possible on each inventory site under the new development standards.

Objective: Create a new R-4 zone and rezone all properties so designated in Table B-2; enforce RHNA units designated on these properties  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: October 15, 2022

Policy Action 4.5: Modify TCMU Zoning to Allow Higher Density

To increase affordable housing development in the high resource area of Town Center, the City shall modify the TCMU zone to allow up to 60 units per acre as a base, not including density bonus provisions; and require that the assigned affordable housing units be built consistent with Table B-2 and Figure B-1 on each parcel so designated. The zoning text shall conform to Government Code section 65583.2(h) and (i), requiring a minimum of 16 units per site, permitted by right. Prior to adoption of the TCMU zoning amendment, the City will demonstrate that the assigned units are physically possible on each inventory site under the new development standards.

Objective: Modify the TCMU zone to allow higher residential densities; enforce RHNA units designated on the Town Center inventory sites  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: October 15, 2022

Policy Action 4.6: Modify homeless shelter provisions

Review the Zoning Ordinance and make changes to ensure compliance with AB 101 (Low-Barrier Navigation Centers). Modify the definition of “homeless shelter” to include this use. Revise parking requirements for homeless shelters in Table 3-05 in the Zoning Ordinance to require parking for employees only and remove requirements for occupant parking.

Objective: Modify the homeless shelter provisions to comply with state law  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: 2022 Zoning Code Annual Update

Policy Action 4.7: Accessory Dwelling Units (ADU)

The City shall establish a monitoring program to determine the affordability of ADUs and Junior ADUs. The program will include tracking annual permits, an annual survey of rents in ADUs, and whether any ADUs are accepting housing subsidy or restricting their units to very low or low income households. The City will establish incentives, such as a floor area bonus, fee waivers or parking reductions for property owners that choose to dedicate their ADUs/JADUs as affordable units for rent to low-income households for at least 30 years. In addition, the City will annually review its Zoning standards for ADUs and JADUs to ensure compliance with State law.

Objective: Facilitate ADUs to expand housing choices and enhance housing mobility in high resource areas, targeting one ADU/JADU annually  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Annually, monitoring beginning 2022 and establish incentive program by June 30, 2024 with Zoning Ordinance Annual Update

Policy Action 4.8: Zoning Code Update

The City’s Zoning Code shall be amended consistent with state law for employee housing (Health and Safety Code section 17021.5), permanent supportive housing (Government Code section 65651), Density Bonus and single room occupancy units as these requirements are amended by State law. The City shall also modify the findings required for Conditional Use Permits and Site Development Permits to assure that the

**4 Housing Element  
Housing Policy Program**

requirements for approval are based on quantified standards. The City shall conduct a thorough review of the Zoning Code to ensure compliance with state law at the time of update.

Objective: Modify the Zoning Code to comply with state law  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: December 31, 2022 Zoning Code Annual Update

Policy Action 4.9: City-owned Parcels

The City will market the surface parking lot (Site 2d as listed in Table B-2) and Sites 7 and 8 for joint venture with the development community to include affordable housing and offer it in accordance with the Surplus Land Act, through a Request for Proposals. The City will be a partner in the joint project or offer the properties at below-market rates as an incentive to achieve housing units designated on Sites 7 and 8, 2c/2d and possibly in conjunction with those designated on Sites 2a/2b.

Objective: Facilitate affordable housing development on City-owned parcels, including consolidation on Site 2d and adjacent parcels such as Sites 2c, 2a and 2b  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Marketing in 2022, RFP by June 30, 2023 for Site 2d; contract in place by January 31, 2024. Contract in place by June 30, 2026 for Sites 7 and 8.

Policy Action 4.10: Land Subdivisions

The City will encourage further land divisions resulting in parcel sizes that facilitate multifamily development affordable to lower income households in light of state, federal and local financing programs (i.e. 50-100 units) as development proposals are brought forward. The City will discuss incentives available for land divisions (e.g., 2-5 acres) encouraging the development of housing affordable to lower income households with housing developers as proposals are brought forward. The City will offer incentives for land division encouraging the development of affordable housing including, but not limited to:

- priority to processing subdivision maps that include affordable housing units,
- expedited review for the subdivision of larger sites into buildable lots where the development application can be found consistent with Table B-2 and Figure B-1 in this Housing Element,

- financial assistance (based on availability of federal, state, local foundations, and private housing funds).

Objective: Facilitate land subdivisions for affordable housing development  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: As projects are proposed; 2022-2023 for Site 6 and 2022-2024 for other inventory sites if needed

Policy Action 4.11: Monitor Multifamily Parking Requirements

The multifamily parking requirements may impact the feasibility of residential development, especially those with affordable units. The City shall annually monitor the impact of parking requirements for multifamily development. In addition, the City shall establish programs or strategies in its Zoning standards to address the constraint such as parking reductions.

Objective: Reduce the impact of parking requirements on multifamily development and establish strategies as appropriate  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Modify Zoning standards by December 31, 2023

Policy Action 4.12: Streamlining Procedures (SB 35)

To facilitate affordable housing development, the City shall establish streamlining procedures for applications and approval for qualifying affordable housing development pursuant to SB 35.

Objective: Establish SB 35 application and approval procedures  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: 2023 Zoning Code Annual Update

**Housing Strategy Area 5: Coordinated Housing Efforts**

The City of Los Alamitos has very limited local resources to provide for housing and housing-related activities. Therefore, to maximize use of limited local resources, the City strives to build partnerships and coordinate housing efforts with outside agencies and organizations.

**4 Housing Element  
Housing Policy Program**

Policy Action 5.1: Housing Programs Information Dissemination

To promote the use of the City and County’s housing programs and housing resources, the City shall develop, print, and publish electronic informational materials for distribution to residents and property owners. These materials will be placed on the City’s website, at City Hall, in the City’s newsletter and in other locations frequented by community members. The City shall also distribute program information, as appropriate, in conjunction with the City’s code enforcement activities.

Dissemination of Housing Programs Information

Objective:

Responsible Party: Development Services Department

Funding Source: General Fund

Timeframe: Develop and distribute informational materials by March 31, 2022

Policy Action 5.2: Pursue External Funding for Housing Rehabilitation, Preservation and Production

To assist in the production, rehabilitation and preservation of housing for its residents and community revitalization, the City shall investigate and pursue, as appropriate, external funding sources including CDBG and HOME funds, State HCD grants and other existing and future federal and state funding opportunities.

The City is a participating city in the County of Orange’s Urban County Program and may receive federal funds through the County’s annual competitive proposal/application process. To ensure the City is able to receive funds through the County, the City shall continue to meet with County staff and develop a proposal/application according to the County’s requirements. If funds are secured, the City shall develop implementation and monitoring programs consistent with the fund requirements.

Objective: Obtain external funds for housing

Responsible Party: Development Services Department

Funding Source: Various federal, state and local sources

Timeframe: Annually through meetings with developers to explore incentives and upon issuance of each Notice of Available Funds

Policy Action 5.3: Partnerships and Coordination with Developers and Outside Agencies

To maximize the efficiency and effectiveness of existing and estimated future local resources, the City seeks partnerships with developers and applicable outside agencies in the development of affordable housing. The City shall evaluate the effectiveness of its

current partnerships with developers and outside agencies. Based on its findings, the City will seek ways to expand and foster partnerships and increase cooperation within these partnerships to provide additional housing opportunities for lower income households.

The City will formulate an outreach strategy to provide information to residential developers on a variety of City-initiated incentives, such as development standards and density bonuses, reduced parking requirements and other programs related to residential projects. Much of this process can be integrated into the Town Center Mixed Use Strategic Plan process, which covers all the Town Center sites identified for affordable housing.

The City will also seek partnerships with outside agencies such as the County of Orange to obtain financing and other resources as appropriate.

Objective: Increase Partnerships and Coordination with Developers and Outside Agencies, with an emphasis during the Town Center Mixed Use Strategic Plan process  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: Develop strategy by June 30, 2023; annually through meetings with developers to explore incentives and continue outreach in conjunction with Policy Action 3.6

Policy 5.4: Promote Community Participation

The City understands collaborating with residents and stakeholders is critical in formulating effective housing policies and programs. The City shall continue to encourage community participation by informing residents and stakeholders of public workshops and hearings related to housing through notices posted at City Hall, local community centers and the City’s website; and mailers to relevant community stakeholders.

Objective: Promote Community Participation  
Responsible Party: Development Services Department  
Funding Source: General Fund  
Timeframe: 2021-2029, Ongoing

## C. Quantified Objectives

Table 4-1 summarizes the quantified objectives by income category for the 2021–2029 planning period.

Table 4-1  
Quantified Objectives  
2021–2029

Program/Income Level	Quantified Objective (dwelling units or households)
<b>New Construction</b>	
<i>Extremely-low Income (subset of Very Low Income Objective, assumed 50% of Very Low Income Objective)</i>	97
Very-Low Income	97
Low Income	119
Moderate Income	145

## COMMUNITY OUTREACH

### A. Community Outreach Activities

The Housing Element was developed through combined efforts of City staff and consultants, the City’s Planning Commission, City Council, and Los Alamitos residents and stakeholders. Community input was sought and received through community and stakeholder workshops, information disseminated through the City’s website, electronic mail notifications, and public hearings. The input received was considered in the development of goals and policy actions provided in Chapter 4: Housing Policy Program. The comments received were provided as part of the draft Housing Element to the Planning Commission and City Council. These bodies will consider the public input prior to the adoption of the final Housing Element.

### B. Community Workshop

On August 25, 2021, the City held a community workshop at the Los Alamitos City Hall Council Chambers. The workshop was advertised on the City’s website, local newspaper, and in email blasts to the City’s public outreach notice requestors and development community. The workshop was open to the general public and stakeholder groups such as affordable housing developers, community groups and housing advocacy groups were invited to participate (see list of invitees below).

During the workshop, participants generally asked questions about the City’s responsibilities and future housing needs, and also discussed the upcoming Town Center Strategic Plan, which will incorporate inclusionary housing requirements for the parcels located within its boundary. Policy Action 4.5 was included to expand affordable housing in the Town Center area in synergy with the Strategic Plan.

Stakeholders invited to public workshop:

- Colliers International
- Habitat for Humanity Orange County
- Hutton Development Company
- ICRE
- Integra Realty Resources - Orange County

- JBL Holdings, LLC
- Kennedy Commission
- Kimley-Horn
- Kynsley
- Lennar, California Coastal Division
- Marcus & Millichap
- The Olson Company
- U.S. General Services Administration Office of Real Property Utilization & Disposal Public Buildings Service
- West Coast Hotel and Management, LLC
- WestEd
- David See
- Eddie and Donna Kesky
- Jim Gallagher
- Nick Zamvakellis
- A Community of Friends
- Affordable Homestead LLC
- Bibi Foundation
- City Ventures, LLC
- Cypress Equity Investments
- Families Forward
- Flo Engineering Inc.
- Green Development Company
- Housing Innovation Partners
- Integrity Housing
- Irvine Community Land Trust
- Olivecs Foundation
- The Kennedy Commission
- Universal Standard Housing
- USA Properties Fund, Inc
- ZMCO Inc.
- Southern California Association of Non-Profit Housing
- Innovative Housing Development Corporation
- Jamboree Housing Corporation

## **C. Community Workshop Comments**

The following notes were taken during the participant discussion at the community workshop held on August 25, 2021. Workshop participants included Los Alamitos residents.

- Attendees generally asked questions about the City's responsibilities and future housing needs
- Attendees also discussed the upcoming Town Center Strategic Plan, which will incorporate inclusionary housing requirements for certain parcels located within its boundary. The parcel locations and allocation of affordable units were also discussed.

## **D. Other Community Outreach Activities**

Following the workshop, the Housing Element update was made available on the City's website following each revision for public review and comment. This effort was announced each time through a City-wide mailing to all residents, posting of notices on the City's website and in the newspaper, and announcements on social media. Following the public review period, the Planning Commission held 3 hearings on the Housing Element, and took public comment on the draft. Three community members attended the first two hearings, and the Planning Commission discussed the needs of all segments of the community, and the process moving forward.

Moving forward, the City is committed to proactive outreach via multiple channels, such as City email newsletter, posting at City website, print material at City Hall, local community centers, and social media to reach all segments of the community and encourage their input (Policy Action 3.6). The City will conduct surveys and workshops as appropriate to encourage input from all segments of the community. The City will integrate outreach with other planning efforts, such as the Town Center Strategic Plan, which covers many sites in the Sites Inventory. The City will also reach out to community organizations for partnership on affordable housing development and related outreach (Policy Action 5.3).

# **APPENDIX AB**

## **RESIDENTIAL LAND RESOURCES**

### **A. Adequate Sites Analysis**

State law requires each jurisdiction in California to demonstrate the availability of adequate sites through appropriate zoning and development standards and the availability of public services and facilities. These available sites must provide the necessary policy and regulatory guidance to accommodate a variety of housing types at a variety income levels. The City of Los Alamitos must demonstrate through policies and regulations that the estimated capacity of adequate sites will be able to accommodate the projected housing need for the 2021-2029 Planning Period.

The Southern California Association of Governments (SCAG) is the regional agency responsible for allocating projected new housing demand to individual jurisdictions within the region. The Regional Housing Needs Assessment (RHNA) process identifies each jurisdiction's "fair share" allocation for new construction need. The "fair share" allocations consider factors such as market demand for housing, employment trends, availability of adequate sites, public facilities, transportation infrastructure and type and tenure of existing housing units. The "fair share" allocation is further adjusted to minimize over-concentration of lower-income households in any one jurisdiction.

The RHNA allocations are divided into four state-defined income categories;

- Very-low income: 31 to 50 percent of the County median income;
- Low income: 51 to 80 percent of the County median income;
- Moderate income: 81 to 120 percent of the County median income; and
- Above-moderate income: more than 120 percent of the County median income.

State legislation also requires jurisdictions to analyze and plan for the growth needs for extremely-low income households, earning 30 percent or less of the County median income. State law allows local jurisdictions to estimate extremely-low income need as 50 percent of the very-low income allocation. The RHNA for the Planning Period of October 15, 2021 through October 15, 2029 identifies the City of Los Alamitos' share of the region's housing need as 769 new housing units.

## 1. Capacity to Meet Regional “Fair Share” Goals

The City’s RHNA allocation of 769 units is shown below in Table B-1, and is further broken down into income categories. The City must demonstrate it has or will make available adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the RHNA allocation.

**Table B-1**  
**2021–2029 RHNA Allocation**

	<b>Very-low Income<sup>1</sup></b>	<b>Low Income</b>	<b>Moderate Income</b>	<b>Above-Moderate Income</b>	<b>Total</b>
2021-2029 RHNA	194	119	145	311	769

Notes:

<sup>1</sup> Although not provided in the RHNA state law requires cities to plan for units to accommodate extremely low income, which can be estimated at 50% of very low income, or 97 units.

Source: SCAG.

California housing element law allows local governments to obtain credit toward its RHNA housing goals in three ways: constructed and approved units, vacant and underutilized land, and the preservation of existing affordable housing. The City is predominantly built out and has primarily underutilized sites and marginally vacant land available to accommodate future residential development. However, supplemental zoning and development standards to encourage and facilitate housing for lower income households must be enacted to satisfy the requirements of state law.

### a. RHNA Sites Inventory

The City currently permits multifamily and single family residential development within the R-3 zone with a maximum density of 25 du/ac. AB 2348 establishes “default” density standards. If a local government adopts density standards consistent with the “default” density standard (at least 20 du/ac for Los Alamitos, as amended by SB 1030), the sites with those density standards are accepted as appropriate for accommodating the jurisdiction’s share of regional housing need for lower income households. The capacity analysis of underutilized and redevelopment sites is based on a minimum density of 30 du/ac in the new R-4 zone, which will accommodate 30 to 36 units per acre for sites 7 through 11. In the TCMU zone, the units identified in Table B-2 are prescriptive, and based on the density to be allowed in that zone at 60 units per acre. The assignment of units to sites 1 through 4 is described further below.

**i. Strategy for Meeting Housing Needs**

Table B-2 provides a summary of parcels with residential development potential to meet the RHNA. A map showing the parcel locations is provided in Figure B-1. These lands are dispersed to the extent possible and located in high resource areas to further fair housing principles. The City aims to accommodate lower income units in small sites in the Town Center, in coordination with the Town Center Mixed Use Strategic Plan in development. Larger sites are also suitable for affordable housing, ranging in size from 2.5 to 5 acres (sites 7 through 10), and one large site on Lampson Avenue (Site 6). None of the sites in this inventory were identified in prior planning periods.

The Town Center sites (Site 1 through 4b) are fully developed with general commercial uses in a strip mall or commercial plaza setting with adjacent parking lots. Existing uses range from office, restaurants, retail, to personal services. Site 1 through 4b are within the boundaries of the Town Center Mixed Use Strategic Plan, which has been developed using an SB2 Planning Grant that promotes affordable housing development. A primary goal of the Strategic Plan is to encourage housing development in the Town Center, and an important consideration is to accommodate affordable housing in accordance with this Housing Element update. Future housing development in the Town Center will take the form of horizontal or vertical mixed-use development, with multi-family apartments on top of ground-level retail or standalone residential buildings of live-work units or townhomes. The Strategic Plan facilitates redevelopment in the Town Center through a variety of strategies and implementation actions. Among those is a Zoning Code Amendment to allow up to 60 units per acre in the Town Center Mixed-Use (TCMU) zone, consistent with Policy Action 4.5 in this Housing Element Update. In addition, the City will consider adopting an ordinance to enable the transfer of development rights between properties in the Town Center, including the designated housing sites. This will facilitate redevelopment that involves multiple parcels under different ownership, such as between Sites 2a through 2d, and Sites 4a and 4b as detailed below.

As shown in Table B-2, there are 143 units assigned to sites 1 through 4. These units are to be constructed on these lots, as provided in the Zoning amendment for TCMU. Throughout the development of the Strategic Plan, the City consulted with the land owners in the Plan area, and developed this strategy and the lot assigned in consultation with them. The City will also provide for Inclusionary Housing within a year of adoption of the Strategic Plan. The ordinance would apply to the TCMU zone and require a certain percentage of housing units to be dedicated as affordable units, as provided in Table B-2. This is consistent with the requirement in Policy Action 4.5 in this Housing Element Update. In addition, the Strategic Plan recognizes the small parking lot (Site 2d in Figure B-1) owned by the City can be combined with the adjacent parking lot (Site 2c in Figure

B-1) to create a significant first project in the Town Center. As described in Policy Action 4.9, the City will market Site 2d for joint venture with the development community to include affordable housing and offer it in accordance with the Surplus Land Act, through a Request for Proposals, as described in Policy Action 4.9. The City could be a partner in such a pilot project or use Site 2d as an incentive to achieve housing development prescribed on Sites 2c/2d and even in conjunction with Sites 2a/2b.

Site 6 on Lampson Avenue has been sold to a developer and is actively being planned for redevelopment for housing. The City has received a proposal from the developer for 248 residential units including 77 affordable units on Site 6 as shown below in Table B-2.

Site 7 consists of a 2 acre portion of a City Park, which will be marketed to affordable housing within the planning period, as described in Policy Action 4.9.

Sites 8 through 11 are existing developed lands that are available for sale and expected to develop as residential projects. The City has contacted all of the land owners to inform them that their parcels are to be rezoned for residential uses, and to provide them with the lower and moderate income units the City has assigned in Table B-2. All of these sites are addressed in Policy Action 4.4 or 4.9, which provide for incentives for their development and assures that they will develop for affordable housing. The sites include:

Site 7 is currently Laurel Park, and consists of 4 acres. 2 acres of this site will be rezoned to R4, and will provide 50 units available for lower income households, and 10 units available to moderate income households.

Site 8 is currently occupied by City Hall. The City will apply R4 zoning to the site, and provide the 3.2 acres for sale or joint venture to affordable housing developers, as described in Policy Action 4.9. The RFP issued by the City will include a requirement that all units be designated for affordable housing, and that at least 80 of the units be lower income units, and 16 units for moderate income households. Please see further description under "Realistic Capacity," below.

Site 9 is currently occupied by a church, and is for sale (see further description under "Realistic Capacity," below). The City will apply R4 zoning to the 5 acre property, which would generate a mix of affordable and market rate units, including 20 units for lower income households and 40 units for moderate income households. The balance of the project would allow up to 90 units of housing available to above moderate income households.

Site 10 is currently occupied by a commercial development, and consists of 3 acres. The site will be rezoned to R4, and is expected to develop as a mixed income project, to include 10 lower income units, 15 moderate income units and 65 above moderate income units.

Site 11 is currently occupied by unrestricted market housing, but is planned for redevelopment. The site will be rezoned from R3 to R4, and will provide up to 30 moderate income units.

As set forth in Policy Action 4.4, the City will enforce the units designated in Table B-2 and Figure B-1 as future projects are proposed on these sites. Proposals that include fewer units than designated will not be approved by the City unless alternative sites are identified.

Figure B-1. Location of Sites Inventory

## ii. Realistic Capacity

The City has seen a significant interest in redevelopment for multi-family housing in various locations, including the Old Town West and Apartment Row neighborhoods as discussed below in subsection c. Additional Underutilized Land. The pressure for residential development in the region, combined with older, under-utilized commercial projects, has resulted in considerable developer interest at multiple developed locations, including sites listed in Table B-2 and elsewhere in the City:

- As described above, the City currently has an application in process for site 6, which includes 77 lower income units. In addition, the developer of this project is actively negotiating with the land owner of site 9, a church organization, for the purchase of the land for residential development.
- The City has met with an experienced housing developer who would like to develop a mixed use (housing and commercial) project on site 7. Negotiations are just

beginning, but this is one of two residential developers who have made inquiries regarding site 7 with City staff.

- A residential developer with extensive multi-family residential experience in the City is negotiating with the owner of site 1, and has discussed a mixed use project with City staff.
- City staff have had multiple discussions with the property owner of site 10 regarding the demolition of the existing commercial project for homes, or for a mixed use project that combines commercial and residential development.
- The Town Square is located on 4216-4470 Katella Avenue and occupied by a strip mall with 88,990 square feet in building area and 420 parking spaces. The main building is two-story and occupied by restaurants, personal services, retail, and office uses. As the second story of the main building is primarily vacant, the Town Square property owner has expressed interest to the City to redevelop the second story into 25 housing units, which would result in approximately 11 units per acre. The City is actively engaging with the owner on prospective housing development and addressing parking needs on the property.

These contacts, along with the level of interest in the Town Center for redevelopment of this area into an urban downtown, represent to the City continued interest in redevelopment of properties in the center of town, and a further indication that development pressures will activate the Town Center area as well. Further, the land owners for inventory sites are involved in their development, and have actively considered the market pressure for residential development, and their ability to convert the properties within the planning period, including the end-dates of existing leases and contracts. In addition, Policy Action 3.1 establishes an incentive program for affordable housing development for special needs households, Policy Action 4.2 provides incentives for lot consolidation (particularly useful for sites 1 through 4), and Policy Action 4.9 establishes procedures for the development of City-owned lands (sites 2d, 7 and 8).

The City proposes a new residential zone (R-4) to allow 30 to 36 units per acre by right, and will apply the R-4 zoning to sites 7 through 10 (Policy Action 4.4). The City will rezone the Lampson property to R-3 to allow 20 units per acre by right, consistent with the applications currently under review, which include a mix of affordable and market units (Policy Action 4.4). The City also proposes to increase the allowable density in the Town Center Mixed Use zone to 60 units per acre (Policy Action 4.5). There have not been residential developments above 30 units per acre in Los Alamitos, given the size and population base of the City. Although located in Orange County (a Metropolitan jurisdiction), the City is a suburban jurisdiction with a population under 25,000 (11,538

in 2021 per DOF Table E-5). Historical development trends and zoning designations for residential uses at around 20 units per acre are typical for these cities of more 'suburban' nature and smaller size in the area, including the City of Cypress to the north. In larger cities, for example, the City of Garden Grove to the east, past affordable housing projects have been approved at densities above 60 and even 70 units per acre, such as Wesley Village Apartments (75.8 units per acre) and Sungrove Senior Apartments (62.6 units per acre). The City of Long Beach to the west of Los Alamitos is a Metropolitan jurisdiction and allows dense high-rise apartments up to 250 units per acre.

To expand housing choices and increase affordable housing units in suburban cities that are primarily built out, increasing residential densities is a logical and acknowledged approach and is becoming a trend. The City of Cypress is located immediately to the north of Los Alamitos and currently allows up to 20 units per acre. To accommodate their RHNA, Cypress identified two alternatives for potential sites, both of which involve rezoning to allow at least 30 units per acre on most sites and 60 units per acre on certain sites for all income categories. As discussed in detail in Appendix D (Affirmatively Furthering Fair Housing), the proposed higher densities will enable the City to increase housing supply in high resource areas and address the housing needs for all segments of the population. The Town Center Mixed Use zoning will be modified in synergy with the Town Center Mixed Use Strategic Plan, which aims to revive the Town Center through boosting economic potential, increasing jobs and creating a sense of community. As shown in Table B-2, sites 1 through 4, which all occur in the Town Center area, have been assigned units in anticipation of the development of residential units as part of the Strategic Plan's implementation of an aggressive, place-making redevelopment program. The City envisions the redevelopment of the Town Center as an opportunity to create a traditional downtown, with both businesses and homes that create a close-knit neighborhood.

As a primarily built out small city, the sites identified in Table B-2 are necessarily redevelopment sites, and only two are over 10 acres. Redevelopment of underutilized sites is a strong trend in the region, where many cities are reaching capacity and have limited vacant land available. Because of the limited development in Los Alamitos over the last 20 years, the City considered surrounding jurisdictions' projects in order to determine realistic capacity for its RHNA allocation. The following projects are planned or under construction in surrounding jurisdictions:

City of Cypress:

- Cypress Town Center By Melia Homes proposes the development of a portion of the Los Alamitos Race Course parking lot area (approximately 7 acres) into a

residential multi-family community consisting of 135 dwelling units consistent with the Cypress Town Center and Commons Specific Plan 2.0.

- Citrus Square Senior Community proposes 50 affordable condominium units and 48 market-rate condominium units at an approximately 6.3-acre site that is currently used by the Cypress School District for its administrative and maintenance operations.

City of Garden Grove:

- Garden Brook Senior Village consists of repurposing an existing 8-story, unfinished, steel structure into a 394-unit affordable senior housing project with 12,938 square feet of commercial retail space with general plan amendments and rezoning to provided 5.09 acres of developable site area. The developer received entitlement approval, a density bonus of 35% and three concessions.

City of Westminster:

- Bolsa Row is a mixed-use development located in the heart of little Saigon and synergistically centered around a lively festival street. The 5-story residential at-grade wrap building will consist of 200 for-rent units and onsite amenities including a pool and spa facility, recreation, fitness and leasing space. The development will also include a hotel and retail space on the 6-acre site.

In the western Orange County region, projects with densities from 20 units per acre to above 70 units per acre have been approved and funded on larger sites, including underutilized/redevelopment sites. These projects also prove the feasibility of planned development on larger sites to accommodate units for a range of income levels (a mix of affordable and market rate). Therefore, in Los Alamitos, sites 6 through 10 are promising for residential redevelopment at least 20 units per acre and are planned for a mix of units.

The Lampson site (Site 6) is currently zoned as Community Facilities (C-F) and consists of one office building and parking lot. The City actively engaged with and received positive responses from the development community for future residential developments. The City has recently received a development application from the developer that acquired the Lampson property. The proposed unit breakdown by income level is detailed in Table B-2. Policy Action 4.4 calls for rezoning Site 6 to R-3 to facilitate housing development at 20 units per acre by right, and also requires either the concurrent submittal of the market and affordable components of the site, or the preparation of a Development Agreement to assure that the affordable units are constructed.

Additionally, several Town Center sites contain parcels that are less than ½ acre in size. For a site to be able accommodate housing affordable to lower income households pursuant to AB 2348, the site must accommodate a minimum of 16 units per site. These sites are covered in the Town Center Mixed Use Strategic Plan currently in development, which aims to revive the Town Center area through redevelopment with a focus on mixed use development and improvements in community infrastructure and amenities. The Town Center sites included in the Sites Inventory (Table B-2) are selected by the City and the Strategic Plan team based on suitability for residential development or as part of mixed-use development and redevelopment potential. The selected sites are intended to serve various income levels and include a portion of affordable units to facilitate an economically balanced and integrated community. These sites are also most likely to develop through lot consolidation, for the following reasons:

- 1) Single ownership on multiple parcels. Site 1 includes seven parcels, which are developed as a strip mall with parking lot; Site 3 is a smaller strip mall with two buildings on two parcels.
- 2) Shared pad with no actual boundaries and nearby associated uses. Sites 2a through 2d consist of Los Alamitos Plaza on a single block and two adjacent parking lots across from Pine Street (two-lane undivided). Site 2b is a commercial building in the southwest corner of Site 2a; despite separate ownerships, they are on the same pad/block with no walls or any other physical division. Site 2c is a parking lot associated with the Los Alamitos Plaza and shares ownership with Site 2a, and Site 2d (smaller parking lot) is owned by the City. Because Sites 2a through 2d currently operate as a single commercial plaza, they are likely to be redeveloped as a whole as facilitated by the Town Center Strategic Plan. The City has actively conducted outreach to Town Center property owners to engage them for possible lot consolidation and mixed-use development concepts. So far without apparent objection, the City can further leverage its owned parcel to provide incentives/concessions to encourage redevelopment including affordable housing units. Similarly, as part of a strip mall block, Sites 4a and 4b are adjacent without any physical boundary and share driveways. Despite separate ownerships, Sites 4a and 4b are most likely to undergo redevelopment as a whole through lot consolidation as facilitated by the Strategic Plan.

Policy action 4.2 of the Housing Policy Program (Chapter 4) encourages and facilitates residential lot consolidation through a variety of incentives such as land write-downs, fee deferral or reductions, assistance with on- or off-site infrastructure costs, and other pre-development costs associated with the assemblage of multiple parcels. This will further increase the redevelopment potential for Sites 1 through 4.

In order to accommodate 60 units per acre in the TCMU zone, the draft Town Center Strategic Plan proposed Zoning Code amendments to Chapter 17.12 on the TCMU zone. The amendments that are relevant to housing development on Sites 1 through 4 are as follows:

#### **17.12.010 Purpose of Zone**

The Town Center Mixed-Use (TCMU) zone is established to provide opportunities for commercial and residential mixed-use development that takes advantage of easy access to transit and proximity to commerce, and that encourages pedestrian activity. A wide range of integrated commercial and residential uses are appropriate. The Town Center Mixed-Use zone **requires encourages** the inclusion of a ground-floor, street-frontage commercial components for all projects. Exclusive residential structures are **not-allowed permitted with conditions**. This zone implements the General Plan Mixed-Use land use designation **and the Town Center Strategic Plan**. (Ord. 19-03 § 3, 2019)

#### **17.12.030 Commercial Uses Required along Street Frontages**

To maintain an active pedestrian environment in the TCMU zone, commercial uses shall be the predominant along street frontages. At least **75 50** percent of the ground floor frontage along Katella Avenue and Los Alamitos Boulevard shall be occupied by commercial uses **and/or live/work units**. **At least 75 percent of the ground floor frontage along Pine Street shall be occupied by commercial and/or cultural uses**.

**Table 2-07: General Development Standards for Town Center Mixed-Use Zone**

<b>Development Features</b>	<b>Requirement by Zone TCMU</b>	<b>Additional Requirements</b>
Minimum Lot Area (for new mixed-use development)	10,000 sq. ft.	For new mixed-use development. Single-purpose uses can be constructed on lots smaller than 10,000 sq. ft.
Structure Form and Location Standards		

Residential Density—Maximum	<del>30</del> 60 units/acre	<u>The cumulative residential development in the TCMU district shall not exceed 588 total units.</u>
FAR Maximum—Nonresidential Components	2.00	
Storefront Width—Minimum	50% of street frontage lot width	
<b>Minimum Setback</b>		
<u>Fronting Los Alamitos Boulevard and/or Katella Avenue</u>	<u>12 ft. minimum</u>	<u>The setback shall be developed as passable walkway, contiguous with the public sidewalk. Shade trees (species to be required by the City) shall be planted in the first 4 ft. of the setback; the rear 5 ft. of the setback may be used for outdoor dining or other outdoor commercial uses.</u>
<u>Fronting Pine Street</u>	<u>6 ft. minimum</u>	
Front or Adjacent to a Street	0 ft. minimum; 10 ft. maximum

Abutting Nonresidential Zone	0 ft. minimum	
Abutting Residential Zone	15 ft. minimum	
Height—Maximum	60 ft.	
Open Space for Residential Uses	200 sq. ft. per unit combined common and private	

The Town Center Strategic Plan limits cumulative residential development in the TCMU zone to a total of 588 units, which is more than adequate to accommodate the maximum development scenario of 467 units on Sites 1 through 4 in the Sites Inventory (Table B-2). The TCMU zone does not preclude 100% non-residential uses, though it strongly encourages horizontal or vertical mixed-use development. A conservative analysis for a hypothetical development site in the TCMU zone is included herein to demonstrate the realistic capacity on Sites 1 through 4:

- The site has a lot area of 10,000 square feet (100 feet by 100 feet square shape), equal to the minimum lot area for new mixed-use development.
- Because Sites 1 through 4 have at least one frontage along Pine Street, Katella Avenue and Los Alamitos Boulevard, it is assumed the site will develop 75% of ground floor area as commercial uses, and the rest as housing units.
- The site conforms to minimum setback requirements of up to 12 feet on two adjacent sides, 10 feet and 15 feet on the other two, in a ‘worst case’ scenario. This will result in a building footprint of 5,694 square feet.
- The maximum height of 60 feet will allow 4 stories, assuming minimum ground floor height of 12.5 feet (Municipal Code Section 17.12.040 D.) applies to each floor.

- The second story has an area of 5,694 square feet, but the third story and fourth story will be set back by an additional 5 feet to reduce building bulk (Municipal Code Section 17.08.045 A.1), which will have a floor area of 5,304 square feet each.
- Assume an average of 650 square feet per unit (minimum unit size for 1-bedroom in R-3 zone).
- The total building area for residential use is  $5,694 \times (1 - 75\%) + 5,694 + 5,304 + 5,304 = 17,725.5$  square feet, which will accommodate up to 27 units, equivalent to a density of 117.6 units per acre.
- The setbacks allow ample space (4,306 square feet) to meet the required common area (140 square feet per unit for a total of 3,780 square feet).

Based on the conservative analysis above, the proposed development standards for the TCMU zone can accommodate up to 117.6 units per acre, more than the assumed capacity of 60 units per acre on Sites 1 through 4. The City does not intend to impose a minimum unit size for the TCMU zone, and it will be up to the developer. Therefore, Sites 1 through 4 have adequate realistic capacity to meet the assigned RHNA units in the Sites Inventory.

The City will create a new R-4 zone and apply it to Sites 7 through 10 to allow housing development of 30 to 36 units per acre, not including density bonus provisions. While the R-4 zone does not exist yet and the capacity cannot be determined without specific development standards, Policy Action 4.4 requires the City to demonstrate that assigned units are physically possible under the new development standards prior to adoption of the R-4 zone.

### **iii. Suitability of Large or Nonvacant Sites**

Only one large site has been identified in Table B-2. Site 6 consists of 12.4 acres, and has been sold to a developer who has filed an application for the entire property that includes housing affordable to various income levels. Site 6 employs a mixed-income approach to meet RHNA. Site 6 is expected to accommodate 77 units affordable to lower income households, and 171 above-moderate income units that will be market rate. As set forth in Policy Action 4.4, the City will enforce the units designated on all sites to meet RHNA per Table B-2 as future projects are proposed on these sites. Proposals that include fewer units than designated will not be approved by the City unless alternative sites are identified. In the event that developers would need subdivisions to accommodate designated affordable units, Policy Action 4.10 provides incentives such as expedited review and priority processing to facilitate lot splits for affordable housing.

As the City is essentially built out, it will rely on nonvacant sites to meet its RHNA allocation. The inventory sites were selected based on high redevelopment potential, location in high opportunity areas, and suitability for affordable housing development such as proper lot size or suitable conditions for lot split/merging. None of the inventory sites have existing residential uses.

Existing commercial uses on Sites 1 through 4 in the Town Center are generally operated by property owners, and it will be up to the owner to decide the future redevelopment. Of course, market conditions may drive mixed-use development, as retail market contracts during and after the pandemic. More diverse uses, including residential, live/work units, and experiential retail will be more resilient than traditional retail in the face of market shifts. The City has seen developer interest for residential units on developed commercial properties, as evident in the Town Square case discussed above in subsection ii. Realistic Capacity. As explained above, the Town Center Strategic Plan provides multiple tools and incentives to encourage redevelopment in the Town Center with an emphasis on housing and mixed-use development. The Strategic Plan provides developers a clear vision and expectations of future development in the Town Center, and the City will endeavor to streamline project approval for proposals that align with the Strategic Plan, including the designated housing units to meet RHNA on Sites 1 through 4.

Site 6 has been sold and is being planned for redevelopment as a whole. The City is working with the land owners and buyers of sites 7 through 10, will provide incentives as described in Policy Action 4.4 and will issue an RFP for the redevelopment of the City's own property. The City will enforce units designated to meet RHNA on Sites 5a, 5b, and 6 as set forth in Policy Action 4.4. Therefore, the existing uses will not be an impediment to future housing development.

In addition to the lands identified to meet its RHNA allocation, the City has also previously identified other vacant and underutilized sites in subsections b. and c. below that have the potential to accommodate housing units for moderate and above-moderate income levels as shown by recent redevelopment trends. The sites listed below in subsections b. and c. are not counted toward meeting the City's RHNA.

**b. Additional Vacant Land**

Los Alamitos is essentially a built-out city. There are minimal areas of vacant land available for residential development. Table B-3 summarizes the only vacant parcel in the City currently zoned for residential use and its potential capacity. The parcel is in an already established neighborhood that presents no known environmental or infrastructure constraints. A total of 5 units could be developed on the site at a density of 25 du/ac. This vacant parcel has the capacity to accommodate fewer than 16 units; therefore, it is assumed that it could accommodate units affordable to moderate and above-moderate income households.

**Table B-3  
Vacant Land Permitting Residential Development**

<b>APN</b>	<b>Address</b>	<b>GP/Zoning Designations</b>	<b>Permitted Density</b>	<b>Acres</b>	<b>Projected Units<sup>1</sup></b>
242-202-06	10912 Walnut St.	Multiple Family Residential/R-3	1,750 gross sq. ft./ unit (25 du/ac max.)	0.17	5

Notes:

<sup>1</sup> Projected units are rounded up to the nearest whole number.

Source: City of Los Alamitos, Development Services Department.

**c. Additional Underutilized Land**

In addition to the vacant parcels described above, there are a number of underutilized parcels, most of which are within the “Apartment Row” and “Old Town West” neighborhoods zoned R-3. These parcels are currently developed with single-family dwellings. However, the existing parcels provide opportunities for additional units.

The scarcity of vacant land, current market conditions and development trends continue to provide conditions favoring redevelopment and reuse of underutilized land at higher densities in these neighborhoods, as described above. There are limited areas for growth within the City, increasing the demand for more intensive infill development. Contrary to the trend observed pre-2010, median/average sales prices have gradually increased and the average days-on-market have dropped for single family homes (25.5 days in August 2021<sup>1</sup>)<sup>2</sup>. These conditions are less attractive to investors who purchase

<sup>1</sup> Los Alamitos Housing Market Trends, redfin.com, accessed on September 2021.

homes and redevelop the land with for-sale or rental multifamily buildings. Long-time homeowners also see fewer opportunities to increase the value of their property through developing additional units. However, several projects have been successful in these neighborhoods (see Table B-4) which prove the potential for redevelopment at higher densities depending on market conditions. Therefore, these sites are included herein because they provide development potential, but are not listed in the Sites Inventory.

Table B-4  
Selected Housing Projects in 2014-2021

Location	Address	Units Built	Area (acres)	Built Density
Apartment Row	4321 Howard Avenue	3 apartments & 1 ADU	0.22	13.6 du/ac
Old Town West	10922 Walnut Street	4-unit apartment	0.17	23.5 du/ac
Apartment Row	3751 Farquhar Ave	4 condo townhomes	0.2	20 du/ac
Apartment Row	4061 Farquhar	5 condo townhomes	0.22	22.7 du/ac
Apartment Row	3691 Howard Avenue	5-unit condos	0.21	23.8 du/ac

Source: City of Los Alamitos, Development Services Department.

This analysis looks at the redevelopment capacity of sites with existing single family units to provide a conservative estimate of the realistic capacity for additional units. It is also feasible that existing small multifamily buildings may be redeveloped at higher densities during the planning period.

**i. Apartment Row**

The “Apartment Row” neighborhood is generally bounded by commercial uses fronting on Katella Avenue to the north, commercial uses fronting on Los Alamitos Boulevard to the west, Farquhar Avenue and the Joint Forces Training Center to the south and Lexington Drive to the east. The area contains mostly small multifamily dwellings and duplexes, with some scattered single family homes. The area is currently zoned R-3 and the General Plan designation is Multi-Family Residential.

Since the 1960’s, Apartment Row has experienced an increase in the number of multifamily units. Redevelopment at higher densities continues while the number of single-family homes declines. The remaining single-family homes in this area were constructed in the 1960’s and earlier. These parcels are in already established neighborhoods that present no known environmental or infrastructure constraints.

<sup>2</sup> Historical Real Estate Data for the city of Los Alamitos, CA, newhomedirectory.com, accessed on September 2021.

**Housing Element**  
**Residential Land Resources**

Based on the development trends in this neighborhood, the remaining single family residential parcels have a greater likelihood of transitioning to multifamily residential units. Underutilized parcels (parcels currently developed with single family units) with realistic capacity for additional residential units in the Apartment Row neighborhood are detailed in Table B-5. These parcels have a total projected capacity of 119 units with a minimum permitted density of 20 du/ac. These parcels have the capacity to accommodate less than 16 units per site, except the property on 4141-4171 Green Avenue which is currently occupied by a preschool and can potentially accommodate 21 units upon redevelopment or 24 units upon lot consolidation with 4181 Green Avenue under the same ownership. Therefore, it is assumed that these parcels have the potential to accommodate units affordable to moderate and above-moderate income households. The parcels shown below are all currently built as single-family units, which have fewer dwelling units per acre than what is allowed in this area. These homes are a mix of owner and rental occupied structures, but since this is an apartment area in a multi-family zone the potential is that all of any future units built on these parcels could be rental apartments or condo units.

**ii. Old Town West**

The “Old Town West” neighborhood is generally bounded by Sausalito Avenue to the north, Oak Street to the west, commercial uses fronting on Katella Avenue to the south and commercial uses fronting on Los Alamitos Boulevard to the east. The area is currently zoned R-3 and the General Plan designation is Multi-Family Residential. The area contains a mixture of multiple family and single-family residential homes.

The area has been transitioning from single family residential to multiple family residential. The parcels below are in already established neighborhoods that present no know environmental or infrastructure constraints. The majority of the single-family units in this area were built in the 1950’s or earlier. The area began redeveloping with multifamily homes in the 1970’s and 1980’s. Single-family residential units continue to be replaced with condominiums and apartments, with construction as recent as 2016.

Based on the development trends in this neighborhood, the remaining single family residential parcels are likely to redevelop with multifamily residential units.

Underutilized parcels (parcels currently developed with single family homes) with realistic capacity for additional residential units in the Old Town West neighborhood are detailed in Table B-6. These parcels have a total projected net capacity of 113 units with a minimum permitted density of 20 du/ac. There are opportunities to provide at least 16 units per site in at least one area with contiguous parcels through lot consolidation (noted in bold in Table B-6). Zoning for these parcels provides sufficient capacity to accommodate lower income housing, and they can serve as backup sites to meet the RHNA. The sites with a capacity of less than 16 units per site have potential to accommodate units affordable to moderate and above-moderate income households.

## **B. Preservation of Assisted Units At-Risk of Conversion**

State law requires analysis of assisted housing units eligible to convert from income-restricted to market-rate housing during the 2021-2029 planning period and within ten years of the start of the planning period (2039). Assisted housing units are multifamily rental units that receive (or have received) government assistance under federal, state and/or local programs including tax-credits, density bonuses and federal or state loans.

The City does not have any assisted housing units that are eligible to convert from income-restricted to market-rate during the planning period or within ten years of the start of the period (by 2039). As discussed in detail in Chapter 2 and Appendix D, the City has one affordable housing community for seniors aged 62 and over. Klein Manor offers 71 apartment units including studios and one-bedroom units, as well as a few accessible units for the sensory/mobility impaired. Klein Manor is subsidized by the Housing Choice Voucher Program Section 8 and charges approximately 30% of the resident income for rent. Klein Manor is operated by the Retirement Housing Foundation and does not have an expiration date for its affordability (Section 8 rentals). Therefore, the City has no units at risk of conversion to non-affordable status.

# APPENDIX AC

## REVIEW OF PAST PERFORMANCE

The following Table describes the City’s progress in meeting its policy actions during the 2014-2021 planning period. The impact of these actions on special needs households, including seniors, persons with disabilities and the homeless, is addressed in each assessment.

<b>Table C-1</b>	
<b>Review of 2014-2021 Housing Element Past Performance: Goals and Policies</b>	
<b>Goal/Policy</b>	<b>Progress in Implementation</b>
<b>1. Maintenance and Rehabilitation of Housing Stock:</b>	
<b>Policy Action:</b>	
<p><i>1.1 Continued Proactive Code Enforcement Activities</i></p>	<p><i>The City’s Code Enforcement Division continues to respond to complaints regarding code violations on private property and assists in promoting maintenance of existing housing. While rehabilitation programs have discontinued at the county level, the City should consider providing property owners informational materials on the federal Title I Property Improvement Loan Program and nonprofit housing organizations such as Habitat for Humanity. This policy action will be continued with modifications.</i></p>
<p><i>1.2 Encourage at least three residents to apply for the Single Family Rehabilitation Loan Program.</i></p>	<p><i>In the last five years (2016 to 2021), the City's Code Enforcement Division has issued 246 citations to single family homes and 112 citations to multi-family units related to substandard building/property conditions such as plumbing, roof damage, electrical, building, windows, lack of heating, or property maintenance issues. These property owners were not known to use any financial assistance for the required repairs. While the County of Orange Single-Family Rehabilitation Loan Program discontinued during the 2014-2021 planning period, the City has posted information on its website and refers interested parties to the Section 504 Home Repair program, which provides loans to very-low-income homeowners to repair, improve or modernize their homes or grants to elderly very-low-income homeowners to remove health and safety hazards. This policy action will be continued with modifications.</i></p>

<b>Table C-1</b>	
<b>Review of 2014-2021 Housing Element Past Performance: Goals and Policies</b>	
<b>Goal/Policy</b>	<b>Progress in Implementation</b>
<i>1.3 Encourage use of Mobile Home Exterior Grant Program</i>	<i>The County of Orange Mobile Home Exterior Grant Program discontinued in 2014. This policy action will be removed.</i>
<i>1.4 Resident involvement in neighborhood enhancement</i>	<i>The City's Neighborhood Preservation Division (Code Enforcement) informally monitors housing conditions throughout the City. The City Pride Awards were discontinued before the 2014-2021 planning period. This policy action will be removed. The City will continue to advocate for neighborhood enhancement on its website and outreach materials and engage residents in enforcement of Policy Actions 1.1 and 1.5.</i>
<i>1.5 Encourage and facilitate rehabilitation of multifamily dwellings</i>	<i>The City conducted a fee study in 2017. However, City Council did not adopt any incentives for rehabilitation of multifamily dwellings. The current permit fees are comparative to neighboring cities and do not constitute an abnormal barrier to rehabilitation. City Council will consider incentive/bonus on a case-by-case basis for rehabilitation of affordable housing. This policy action will be continued with modifications.</i>
<b>2. Preserve Housing Costs Affordability</b>	
<i>2.1 Continue to monitor "at risk" units</i>	<i>Although once thought of as "at risk" of losing affordability covenants, Klein Manor's 71 units of affordable housing are currently subsidized by the Housing Choice Voucher Program Section 8 and will continue to be affordable with no expiration date yet. This policy action will be continued.</i>
<i>2.2 14 Section 8 Housing Choice Vouchers</i>	<i>Although much funding for this program has been reduced, the City's Development Services Department continues to refer residents in need of assistance to this program. The City has not received any inquiry on Section 8 during the last planning period. This policy action will be continued into the next planning period.</i>

**Table C-1**  
**Review of 2014-2021 Housing Element Past Performance: Goals and Policies**

Goal/Policy	Progress in Implementation
<p>2.3 Encourage participation in energy conservation incentive programs</p>	<p><i>The City continues to require all residential construction to comply with the energy conservation requirements of Title 24. The City ensures compliance through the building permit plan check and inspection process. Since 2020 the City of Los Alamitos implemented a flat rate fee of four hundred fifty (\$450) for Planning Review and Building Permits for solar panel installation under 15 kW and an additional \$15 per kW above 15 kW. During the 2014-2021 planning period, 198 permits have been issued for single family dwellings and 3 were issued for multi-family dwellings.</i></p> <p><i>The City Council considered reinstating the permit rebate program for 2017 which reimbursed 100% of permits to parties whom purchased from Los Alamitos Businesses. This program was not approved and has been discontinued since 2012.</i></p> <p><i>This policy action will be continued with modifications.</i></p>

<b>Table C-1</b>	
<b>Review of 2014-2021 Housing Element Past Performance: Goals and Policies</b>	
<b>Goal/Policy</b>	<b>Progress in Implementation</b>
<b>3. Equal Housing Opportunity</b>	
<i>3.1 Housing for Persons with Disabilities</i>	<i>The City maintains a Reasonable Accommodation Ordinance in accordance with state law. Los Alamitos Municipal Code Section 17.42 explains reasonable accommodation procedures. The City did not adopt any incentive for special needs housing. Future requests from developers will be considered on a case-by-case basis. This policy action will be continued with modifications.</i>
<i>3.2 Fair Housing Information and Referrals</i>	<i>The City continues to refer fair housing related inquiries to the Fair Housing Council of Orange County. The City did not receive any such inquiries in 2014-2021. This policy action will be continued into the next planning period.</i>
<b>4. Adequate Housing Supply</b>	
<i>4.1 Encourage development of lower and moderate income housing units.</i>	<p><i>The City continues to encourage developers to provide rental housing for families with children, but has not developed a specific encouragement or incentive program.</i></p> <p><i>The City continues to encourage additional housing opportunities for special needs, lower income and moderate income households; however, no specific programs or funding sources have been utilized. During the Planning Period, Precious Life Shelter, a shelter for homeless women demolished an existing 2-bedroom house and constructed two apartment buildings with two units each.</i></p> <p><i>During 2017-2020, the City updated its Zoning Code to allow accessory dwelling units and junior accessory dwelling units in all residential zones by right per state law.</i></p> <p><i>In 2019, the City updated its Zoning Code density bonuses for development of low and moderate income housing pursuant to State law. No density bonus was applied for or granted during 2014-2021. This policy action will be continued with modifications.</i></p>

**Table C-1**  
**Review of 2014-2021 Housing Element Past Performance: Goals and Policies**

Goal/Policy	Progress in Implementation
4.2 Encourage and facilitate lot consolidation	<i>The City has not been in a financial position to incentivize lot consolidation but will consider potential incentives that will encourage lot consolidation in the Old Town West neighborhood. This policy action will be continued with modifications.</i>
4.3 Monitor multi-family development fees and establish strategies as appropriate	<i>The City of Los Alamitos currently does not impose obtrusive development fees upon residential development. The City's only fees are park fees and traffic impact fees where applicable. Fees that occur in most cities such as library fees, pool fees, public facility fees do not exist in the City of Los Alamitos. The City continues to monitor such fees for their reasonableness. This policy action will be continued into the next planning period.</i>
<b>5. Coordinated Housing Efforts</b>	
5.1 Dissemination of Housing Program Information	<i>The City posts housing programs and resources at different government levels and from outside organizations on its website, through Housing Assistance Links under the Planning Division page. This policy action has been successful and will be continued into the next planning period.</i>
5.2 Obtain external funds for housing	<i>The City's Development Services Department continues to seek external funding sources for various housing programs. The City received multiple grants during 2014-2021: CDBG-CV – CARES Act was used for annual shared costs for homeless shelters (North Orange County Service Planning Area); LEAP Grant is used for Housing Element update; SB2 Planning Grant is used for Town Center Mixed Use Zone Strategic Plan; and SCAG Sustainability Grant is used for Active Transportation Plan. This policy action will be continued into the next planning period.</i>
5.3 Housing for workers employed in Los Alamitos	<i>The City continues to position itself within the development community as a place to live, work, and learn. The development of new housing units has been primarily initiated by private developers. The top employers in the City have not changed substantially, and employment housing is not an issue under current conditions. This policy action will be removed.</i>

<b>Table C-1</b>	
<b>Review of 2014-2021 Housing Element Past Performance: Goals and Policies</b>	
<b>Goal/Policy</b>	<b>Progress in Implementation</b>
<i>5.4 Increase Partnerships and coordination with Developers and Outside Agencies</i>	<i>The City continues to work with the development community to develop innovative land use techniques such as mobile homes on a permanent foundation and accessory dwelling units in all residential zones. The City has a mixed-use overlay zoning distraction (-TCMU or Town Center) which allows multi-family dwelling integrated into a project as either horizontal or vertical mixed use, but not as a stand-alone use. The City did not conduct outreach to affordable housing developers during 2014-2021. The City will update outreach materials and seek partnerships during planning processes including the Town Center Mixed Use Strategic Plan. This policy action will be continued into the next planning period.</i>
<i>5.5 Promote Community Participation</i>	<i>The City of Los Alamitos continues to promote participation in policy related decisions through public noticing, advertising in local newspapers, community forums and public hearings. This policy action will be continued into the next planning period.</i>
<i>5.6 Promote Affordable Housing</i>	<i>In 2014, the City passed Ordinance No.14-07 which removed the CUP requirement for affordable housing. As of June 2021, affordable housing is no longer a standalone/specified use in Table 2-02: Allowed Uses and Permit Requirements for Residential Zones (LAMC 17.08.020). Affordable housing is a by-right use subject to the same requirements as other residential uses allowed in each zone. This policy action has been completed.</i>

**Table C-2**  
**Review of 2014-2021 Housing Element Past Performance: Quantified Objectives**

<b>Objective</b>	<b>Progress in Implementation</b>
<b>New Construction:</b> Very Low: 14 Low: 10 Moderate: 11 Above Moderate: 26 <b>Total: 61</b>	Very Low: 0 Low: 0 Moderate and Above Moderate: 66 <b>Total: 66</b>
<b>Rehabilitation:</b> Information not available	The rehabilitation grant and loan programs have discontinued at the County of Orange and are available through federal programs such as the Title I Property Improvement Loan Program and Section 504 Home Repair Program. The City does not have records of the number of households assisted through the programs.

During the 2014-2021 planning period, the City made efforts to meet the housing needs of special needs populations such as the elderly, persons with disabilities, large households, female headed households, and persons experiencing homelessness through continued proactive code enforcement activities (Policy Action 1.1), encouraging residents to apply for the Orange Single-Family Rehabilitation Loan Program and the Mobile Home Exterior Grant Program (Policy Action 1.2 & 1.3), involving residents in neighborhood enhancement (Policy Action 1.4), and facilitating rehabilitation and development of multifamily dwellings through fee study and monitoring (Policy Action 1.5 and 4.3). Specifically, the City monitored “at risk” units at Klein Manor (Policy Action 2.1), which is now subsidized by the Section 8 vouchers without an expiration date, benefiting senior, low-income residents. The City maintained a Reasonable Accommodation Ordinance in accordance with state law (Policy Action 3.1) to meet the needs of persons with disabilities. The City was also ready to refer residents in need to the Section 8 vouchers program (Policy Action 2.2) and the Fair Housing Council of Orange County (Policy Action 3.2). The City continued to encourage developers to provide rental housing for families with children and other special need groups by providing density bonuses and facilitating lot consolidation (Policy Action 4.1 and 4.2). During the last planning period, Precious Life Shelter, a shelter for homeless women demolished an existing 2-bedroom house and constructed two apartment buildings with two units each. The City used funding under the CDBG-CV – CARES Act for annual shared costs for homeless shelters (North Orange County Service Planning Area) (Policy Action 5.2). The City used LEAP Grant for Housing Element update, SB2 Planning Grant is used for Town Center Mixed Use Zone Strategic Plan, and SCAG Sustainability Grant for Active Transportation Plan, all of which will increase housing opportunities for special needs groups and improve infrastructure in the community. The City worked with the development community to develop innovative land use techniques such as mobile homes on a permanent foundation and accessory dwelling units

**AC**

in all residential zones to increase housing choices for special needs populations (Policy Action 5.4). The City also removed the CUP requirement for affordable housing in 2014 (Policy Action 5.6).

# APPENDIX AD

## ASSESSMENT OF FAIR HOUSING

AB 686 requires that all housing elements due on or after January 1, 2021, contain an Assessment of Fair Housing (AFH) consistent with the core elements of the analysis required by the federal Affirmatively Furthering Fair Housing (AFFH) Final Rule of July 16, 2015.

Under state law, AFFH means “taking meaningful actions, in addition to combatting discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics.”

The City has completed the following:

- Include a Program that Affirmatively Furthers Fair Housing and Promotes Housing Opportunities throughout the Community for Protected Classes (applies to housing elements beginning January 1, 2019).
- Conduct an Assessment of Fair Housing, which includes a summary of fair housing issues, an analysis of available federal, state, and local data and local knowledge to identify fair housing issues, and an assessment of the contributing factors for the fair housing issues.
- Prepare the Housing Element Land Inventory and Identification of Sites through the lens of Affirmatively Furthering Fair Housing.

To comply with AB 686, the City has completed the following outreach and analysis.

### A. Outreach

As discussed in Appendix A, Community Outreach of this Housing Element, the City held a community workshop and hearings. The City made concerted efforts to reach all segments of the population for input into the Housing Element update. The community workshop was held on August 25, 2021, at which time participants generally asked questions about the City’s responsibilities and future housing needs, and also discussed the upcoming Town Center Strategic Plan, which will incorporate inclusionary housing requirements for the parcels located within its boundary. Following the workshop, the

Housing Element update was posted on the City’s website for public review and comment. The public review period and upcoming hearings for the Housing Element Update was announced through a City-wide mailing to all residents, posting of notices on the City’s website and in the newspaper, and announcements on social media. Following the public review period, the Planning Commission and City Council held hearings on the Housing Element. Three people attended the Planning Commission hearing on October 27, 2021, and two of them (father and son) voiced concerns over affordable housing. City staff and the consultant explained the details of anticipated affordable housing development in the City and emphasized the prospective benefits to City residents. Comments received through the outreach activities have been considered in the development of the Housing Policy Program.

Moving forward, the City is committed to fair housing targeted outreach by conducting annual reviews of its policies and zoning laws relating to fair housing and reaching out to the community through surveys and workshops as appropriate. The outreach efforts will be advertised via multiple channels, such as City email newsletter, posting at City website, print material at City Hall, local community centers, and social media to reach all segments of the community and encourage their input (Policy Action 3.6).

## **B. Assessment of Fair Housing**

Section 65583 (10)(A)(ii) requires the City of Los Alamitos to analyze areas of segregation, racially or ethnically concentrated areas of poverty, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The 2021 California Department of Housing and Community Development (HCD) and the California Tax Credit Allocation Committee (TCAC) Opportunity Areas are rated by a composite score of resource levels in the following aspects: access to effective educational opportunities for both children and adults, low concentration of poverty, low levels of environmental pollutants, and high levels of employment and close proximity to jobs, among others. High and highest resource areas are those with high index scores for a variety of educational, environmental, and economic indicators. These indicators include access to effective educational opportunities for both children and adults, low levels of environmental pollutants, high levels of employment and close proximity to jobs, and low concentration of poverty, among others.

According to Figure D-1, TCAC Opportunity Areas, the majority of the City is considered “High Resource” and the western strip is considered “Highest Resource.” The block north of Katella Avenue and east of Bloomfield Street is considered “Moderate

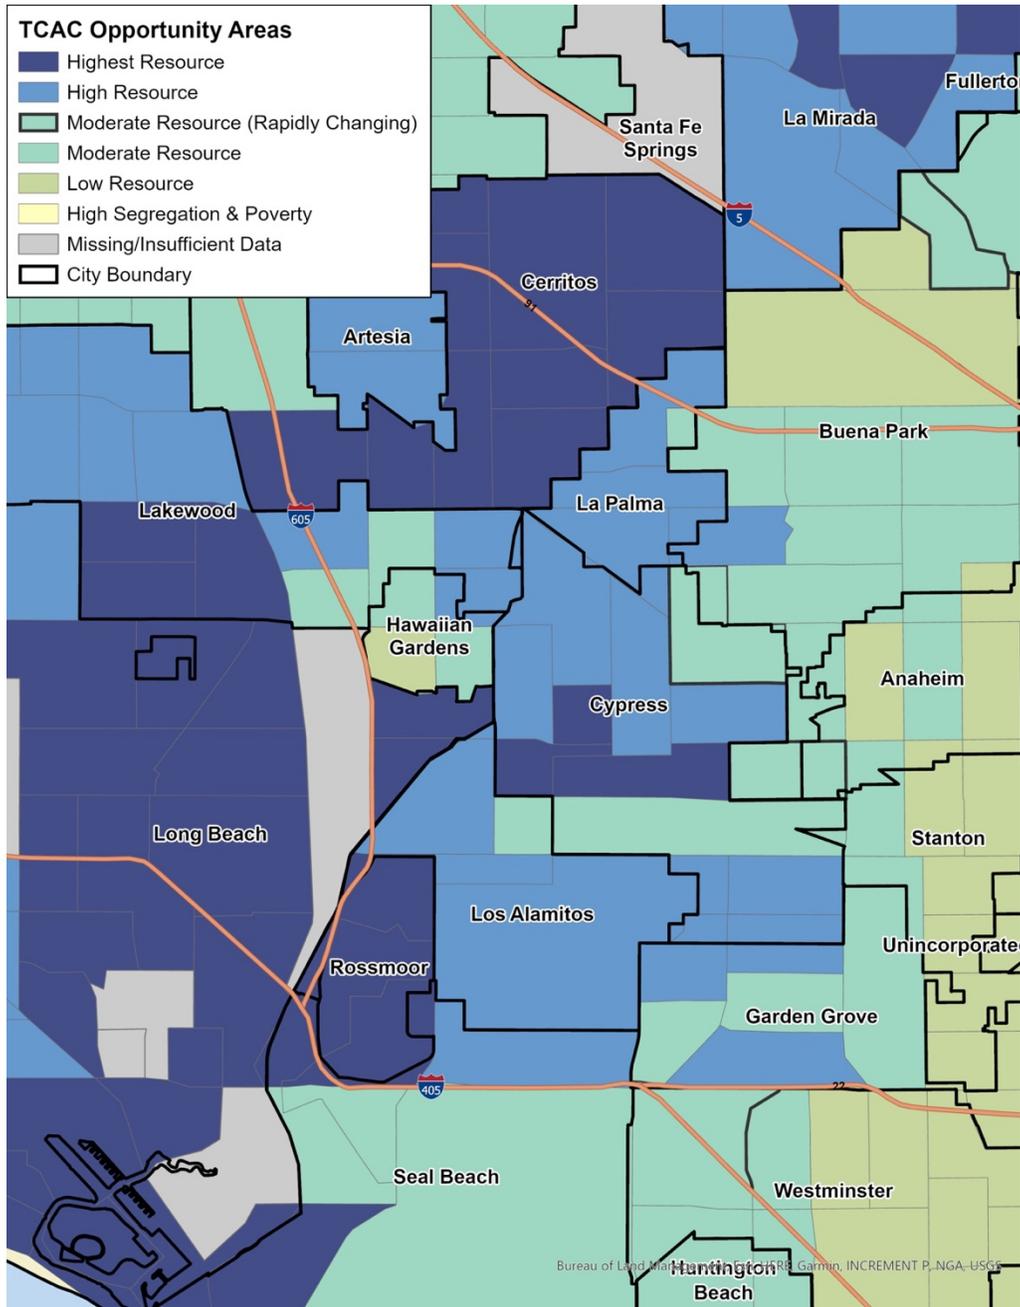

Resource.” TCAC and HCD did not designate any portion of the City of Los Alamitos as a “Low Resource” area which typically has the most limited access to all resources.

Areas of high segregation and poverty are those that have an overrepresentation of people of color compared to the County, and at least 30% of the population in these areas is below the federal poverty line (\$26,500 annually for a family of four in 2021). There is no “High Segregation and Poverty” area in or adjacent to the City of Los Alamitos (Figure D-1). The closest “High Segregation and Poverty” area is found in the City of Garden Grove and located approximately 3.8 miles to the east of Los Alamitos.

Figure D-1. TCAC Opportunity Areas

## 1. Integration and Segregation Patterns

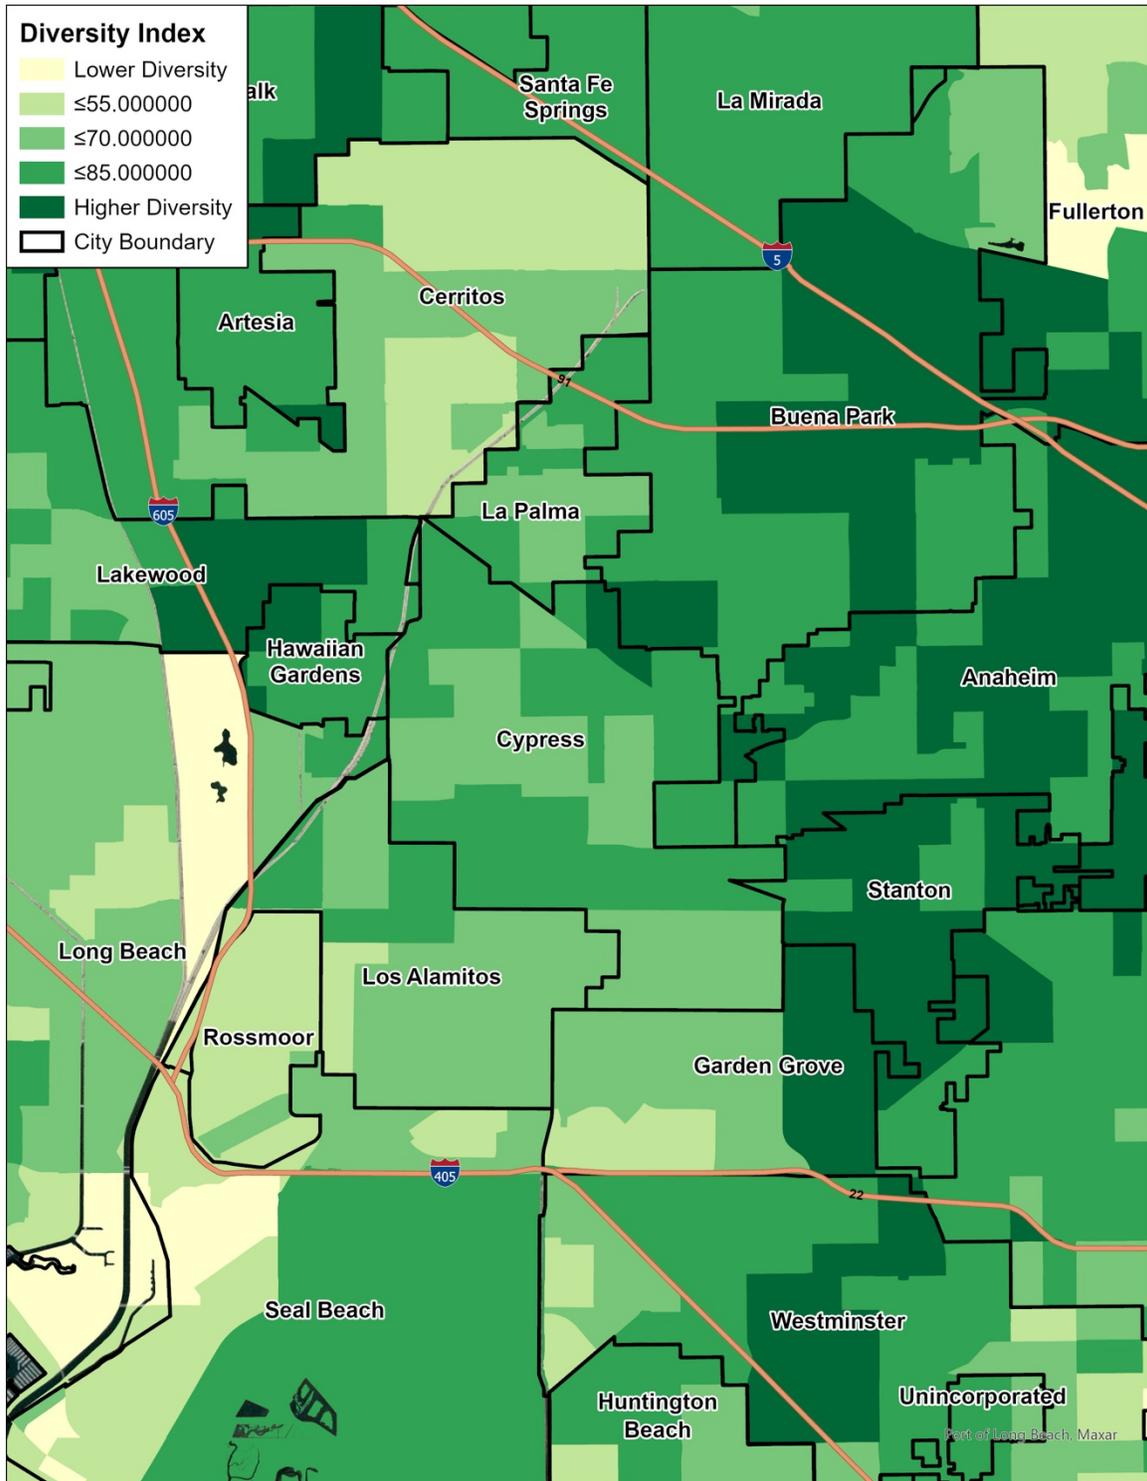

To assess patterns of segregation and integration, the City analyzed four characteristics: race and ethnicity, disability, income, and familial status.

### a. Race and Ethnicity

The diversity index was used to compare the racial and ethnic diversity within the City and surrounding communities. Diversity Index ratings range from 0 to 100, where higher numbers indicate higher diversity among the measured groups. As shown in Figure D-2, Diversity Index, the majority of the City has a mid-range diversity rating (55-70). Portions of the northern City have a relatively higher diversity rating of 70-85 on TCAC's diversity index. Along the western City boundary is an area with a slightly lower diversity rating of 52.1. Areas immediately adjacent to the City have similar diversity ratings to within City limits. Higher Diversity ratings (>85) are seen in the City of Hawaiian Gardens in Los Angeles County to the north, the cities of Cypress, Garden Grove, and Westminster to the northeast, east and southeast in Orange County, respectively. According to the 2015–2019 American Community Survey, less than half (47.6%) of Los Alamitos residents identify as White, non-Hispanic. In comparison, only less than 20% of the residents to the east in City of Garden Grove (58.6%) and about a third (36.3%) to the north in City of Cypress identify as White, non-Hispanic because they have bigger Asian/Hispanic groups. There are no racially or ethnically concentrated areas of poverty ("R/ECAP's", HUD, 2009-2013) in or adjacent to Los Alamitos, the nearest R/ECAP being in the City of Long Beach in Los Angeles County to the southwest. There are several Asian/Hispanic Majority tracts in the cities of Hawaiian Gardens, Cypress, Garden Grove and Westminster that overlap with higher diversity ratings (>85). The City is actively pursuing affordable housing development opportunities throughout the City, as identified in Policy Actions 4.1 and 4.2. The City will also expand housing options and availability in high resource areas through a pilot program for ADUs and JADUs (Policy Action 4.7) and zoning changes to allow higher densities (Policy Actions 4.4 and 4.5). These programs can help promote a racially and ethnically integrated community.

Figure D-2. Diversity Index

HCD has not published the adjusted Racially Concentrated Areas of Affluence (RCAA) methodology for California as of August 2021. While no data has been released on RCAA, the national metric may be referenced for general considerations here: RCAA is defined as census tracts where 1) 80% or more of the population is white, and 2) the median household income is \$125,000 or greater (slightly more than double the national the median household income in 2016). As shown in Figure D-3, Median Income, much of the City area (Census Tract 1100.15 and part of Census Tract 1101.08) has median income greater than \$125,000. Census data reveals that these areas have no more than 70% white population that is not Hispanic. Therefore, these areas do not have the potential to be a RCAA. Within both tracts, the City is looking to develop affordable housing in the Town Center Mixed Use Strategic Plan and along the southern City boundary on Lampson Avenue (Policy Actions 4.4 and 4.5).

### **b. Disability**

In 2014, only two blocks along Katella Avenue in the central City had a population with disability percentage higher than 10% (but lower than 20%). According to the 2015–2019 ACS, most of the City had a population with disability percentage between 10% and 20%. This may be associated with a slowly aging population. From 2010 to 2019, Los Alamitos experienced growth in the Retirement (55-64 years) and Senior Citizen (65 years and over) populations, while the populations of other age groups somewhat declined. The median age increase from 38.7 years in 2010 to 39.7 years in 2018 may also suggest a slow aging trend, though the change is limited. The City complies with all requirements of the Americans with Disabilities Act and California Building Code to provide accessible and “barrier free” units for disabled residents through reasonable accommodation procedures as explained in Los Alamitos Municipal Code Section 17.42. Therefore, despite an overall slight increase in the population with a disability, and a potentially continuing aging trend in the City’s residents, they appear to be well integrated in the community and have equal access to all housing and economic opportunities.

### **c. Income**

The City also assessed the concentrations of households below the poverty line across the City to analyze access to adequate housing and jobs. As shown in Figures D-3 and D-4, the majority of the City has a low percentage of residents (<10%) who fall below the poverty line (\$26,500 for a family of four in 2021), and one area south of Katella Avenue (Census Tract 1100.14) has a slightly higher percentage (12.6%) of residents who fall below the poverty line.

Figure D-3. Median Income (2019)

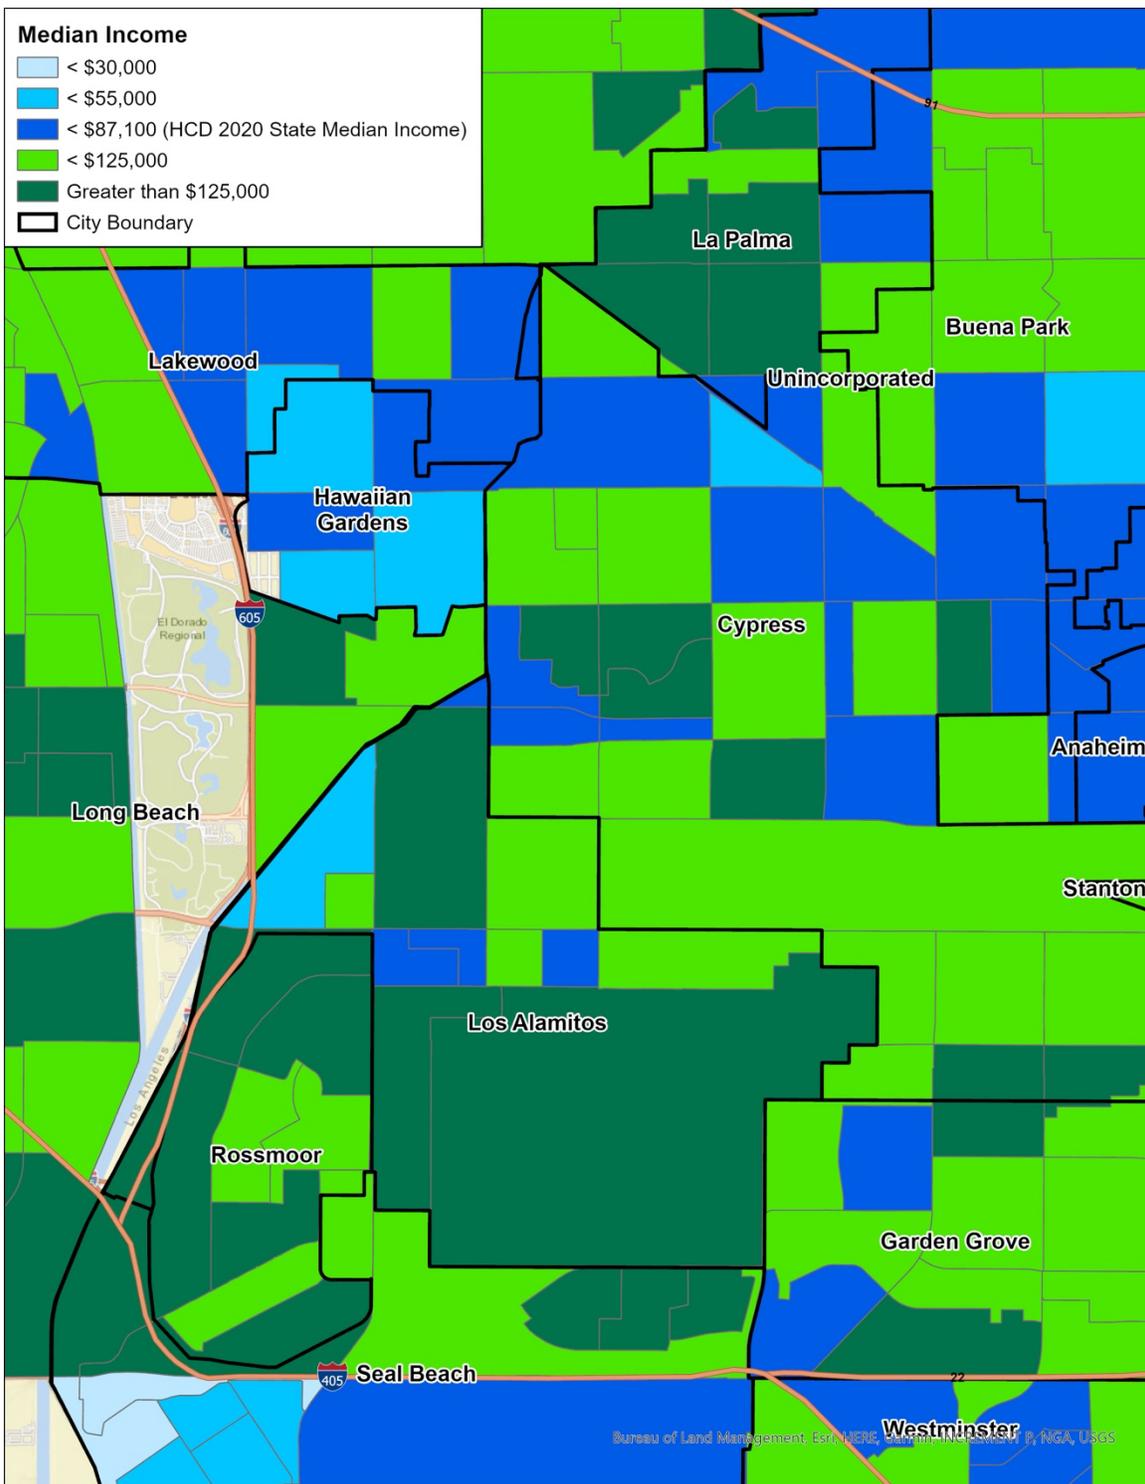

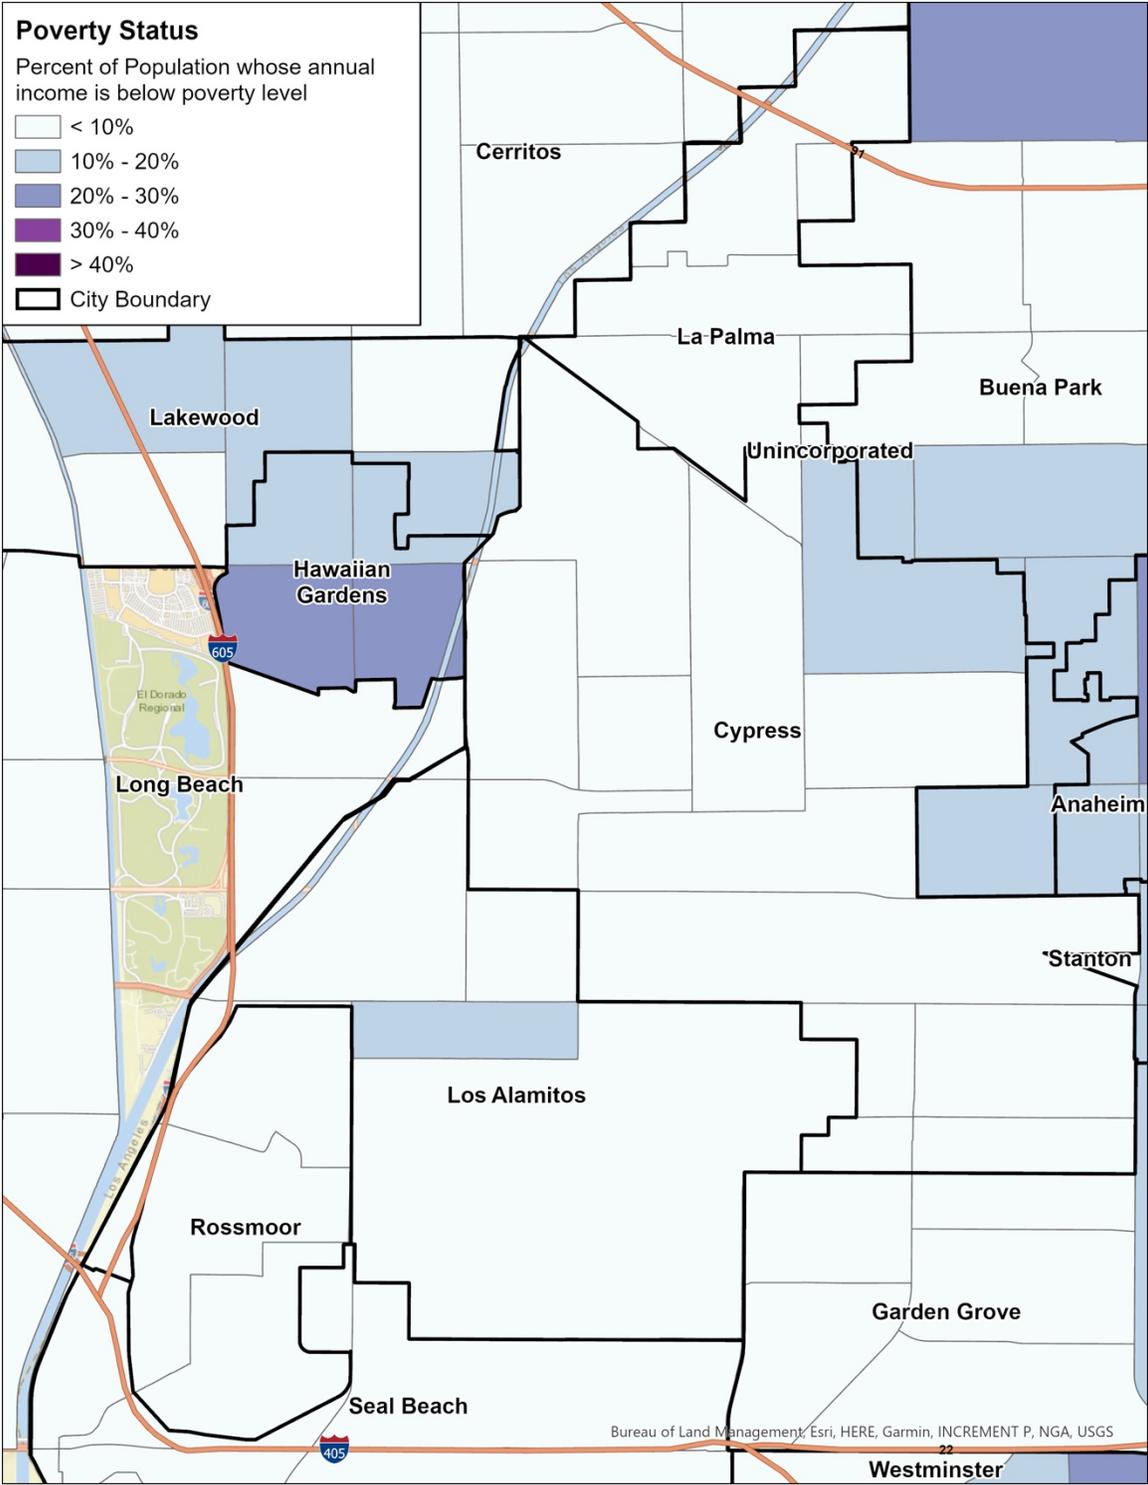

Figure D-4. Poverty Status

In 2014, in addition to Tract 1100.14, the majority of the northern City (north of Katella Avenue) also had slightly higher than 10% of residents who fall below the poverty line. As shown in Table 2-21 of this Housing Element, the City of Los Alamitos has a vacancy rate of less than 3.3% for all housing units, and the American Community Survey (2019) estimated vacancy rates at 1.4% for rental units and 1.6% for ownership units. These vacancy rates are very low and could suggest limited room for mobility and high demand for affordable units.

Although Los Alamitos does not appear to have any Racially Concentrated Areas of Affluence, compared to the neighboring cities of Cypress, Garden Grove, Seal Beach, and Westminster in Orange County and Long Beach and Hawaiian Gardens in Los Angeles County, Los Alamitos has predominantly higher income (median household income greater than \$125,000 or at least \$87,100) and is a predominantly High Resource area (TCAC Opportunity Areas 2021). This is evidenced by the predominantly low ratio of population below poverty compared to the neighboring cities. To promote an inclusive community with enhanced housing mobility and a variety of housing opportunities, the City is actively facilitating affordable housing development in the highest income and High Resource areas through rezoning and other incentives/bonuses as well as encouraging ADUs/JADUs to further expand housing choice beyond its RHNA allocation.

#### **d. Familial Status**

The City of Los Alamitos has less than 20% of population 18 years and over living alone, and between 40% and 60% of population 18 years and over living with spouse. In the southern City (Census Tract 1100.15), over 80% of children live in married-couple households; in the northern City, between 60% and 80% of children live in married-couple households. In two northern tracts (1101.08 and 1100.14), there are 20% to 40% of children that live in female-headed single-parent households. These data indicate a popular demand for units with at least two bedrooms; while such units are abundant in the City (over 89% of either owner- or renter-occupied units, or combined), affordability may be an issue as suggested by overpayment described below. There is likely a need for more affordable housing units to meet population needs.

#### **e. City History and Policy Background**

The Southern California basin, including Los Alamitos, was home to the Puvu Indians for at least centuries before the arrival of Spanish colonists. Los Alamitos was among the land held in trust for the Indians by missionaries, but soon became private property passed down in the hands of militant/political and business persons. The township of

Los Alamitos was forming at the turn of the 20<sup>th</sup> century, which mainly hosted the first sugar refinery in Southern California. With the prospering sugar mill, worker housing and recreation buildings, schools, farms, and other businesses came to town, which had thrown back to the typical wild west style. Reagan Street, Katella Avenue and Los Alamitos Boulevard were the earliest thoroughfares. The sugar mill eventually died down after the 1929 depression, and in 1941, the US Navy moved its training field for aircraft from Terminal Island to Los Alamitos and commissioned a 1,300-acre tract. The air base was used as a reserve training field except in war times, now known as the Joint Forces Training Base for all branches of the military. The base kept bringing new settlers and businesses into Los Alamitos and revived the country town. Los Alamitos became a chartered city in 1960.

Modern residential development started with the Carrier Row neighborhood since the 1940s where former military personnel settled. Home construction gradually picked up throughout the 1950s in and around neighborhoods such as the Old Town West. More residential subdivisions followed in the City after the success of Rossmoor in the 1960s, a community closely linked to Los Alamitos. The Joint Forces Training Base takes up 48 percent of the City's mere 4.3 square miles, and the rest of the City is fitted with a snug mix of houses, apartments, businesses, public/institutional uses and open space. As nearly all the City land is developed, zoning laws have kept out any new heavy manufacturing or industrial uses. The City takes pride in its small town ambience with quality recreational and park facilities, outstanding schools, and excellent service from its police department and Chamber of Commerce.

On the Neighborhood Segregation Map by UC Berkeley (2019), the City north of and including Tract 1100.14 is identified as a 3-group mixed neighborhood (Asian-Latinx-White), and the southern City is a Latinx-White neighborhood. The City does not have a large African American population (e.g. 6.2% of total City population in 2019) or cultural presence/heritage. In contrast to larger municipalities in Southern California such as Long Beach and Los Angeles, the City of Los Alamitos does not have a history of redlining or other discriminating policies that contribute to segregation. Being a very small and young city, the neighborhoods were built in a relatively short periods with a strong WWII veteran legacy. The City's housing stock and demographics are a result of market conditions, with such advantages as its strategic location at the crossroads of two major freeways (Interstate 405/605), rather than any strong local/regional policy influences. With the constraint of minimal vacant land, the City prioritizes on redevelopment potential and encourages mixed use and mixed-income residential development to revive the Town Center neighborhood, as envisioned in the Town Center Strategic Plan. The provision of affordable housing in the Town Center and southern City will help improve housing mobility and promote a more inclusive community.

## f. Assessment and Actions

Given the factors discussed above, there is no evidence of segregation based on disability, and barely any based on income in the City, although there exists opportunity to improve economic and racial integration within Los Alamitos. As shown in Figures D-3 and D-4, concentrations of lower income households are more prevalent in surrounding jurisdictions than Los Alamitos. The cities of Hawaiian Gardens and Garden Grove to the north and east have more areas with over 10% of population living below the poverty line compared to Los Alamitos. In Orange County, the cities of Anaheim, Fullerton, Garden Grove, Costa Mesa, Irvine, Placentia, and Santa Ana all have areas with over 30% of the population living below the poverty line. With a median income higher than the state level in 2019 (\$88,729 in Los Alamitos; \$75,235 in California, 2015-2019 ACS), the City is not considered disadvantaged economically (median income is 80% or less than the statewide average), although one area along the northwestern City boundary (Block Group 3, Census Tract 1101.08) is below the threshold. In Census Tracts 1101.08 and 1100.14, over half of the population have low to moderate incomes. Concentrations of households with similar incomes may suggest a uniform local development pattern and need for more varied housing stock. Improving availability and distribution of affordable housing will encourage a more economically diverse community. To that end, the Sites Summary (Appendix B) includes lands in the northwest and central portions of the City (Tracts 1101.08 and 1100.14), to encourage diversity throughout the City's residential neighborhoods.

As shown in Figure D-5, Job Proximity Index, the western City is in medium proximity to employment opportunities (Jobs Proximity Index between 40 and 60), and the eastern City boundary has a higher Jobs Proximity Index of 60-80. In contrast to the TCAC Opportunity Areas (Figure D-1), this suggests that access to jobs may not be the single driving factor behind the concentration of lower income households, but more likely the type of jobs and housing available and other socioeconomic factors.

The City has been actively planning for future development and redevelopment to increase local employment opportunities and housing stock. With the help of an SB 2 Planning Grant, the City is developing a Los Alamitos Town Center Strategic Plan for the area generally around Katella Avenue & Los Alamitos Boulevard. The Strategic Plan aims to increase economic potential, create a destination with amenities for all population sectors, and promote a sense of community through incorporation of mixed use development, improvements on bike and pedestrian infrastructure, and designing high quality gathering places. Using funding provided by the Southern California Association of Governments' (SCAG) Compass Blueprint Program, the City prepared a Katella + Los Alamitos Commercial Corridors Plan, which provided commercial design guidelines and

economic development strategies to enhance the City's two main corridors in image, amenities and economic potential. Future developments and redevelopments under these plans will diversify and increase local job opportunities for the Town Center area, and improve job proximity for lower income populations along Katella Avenue.

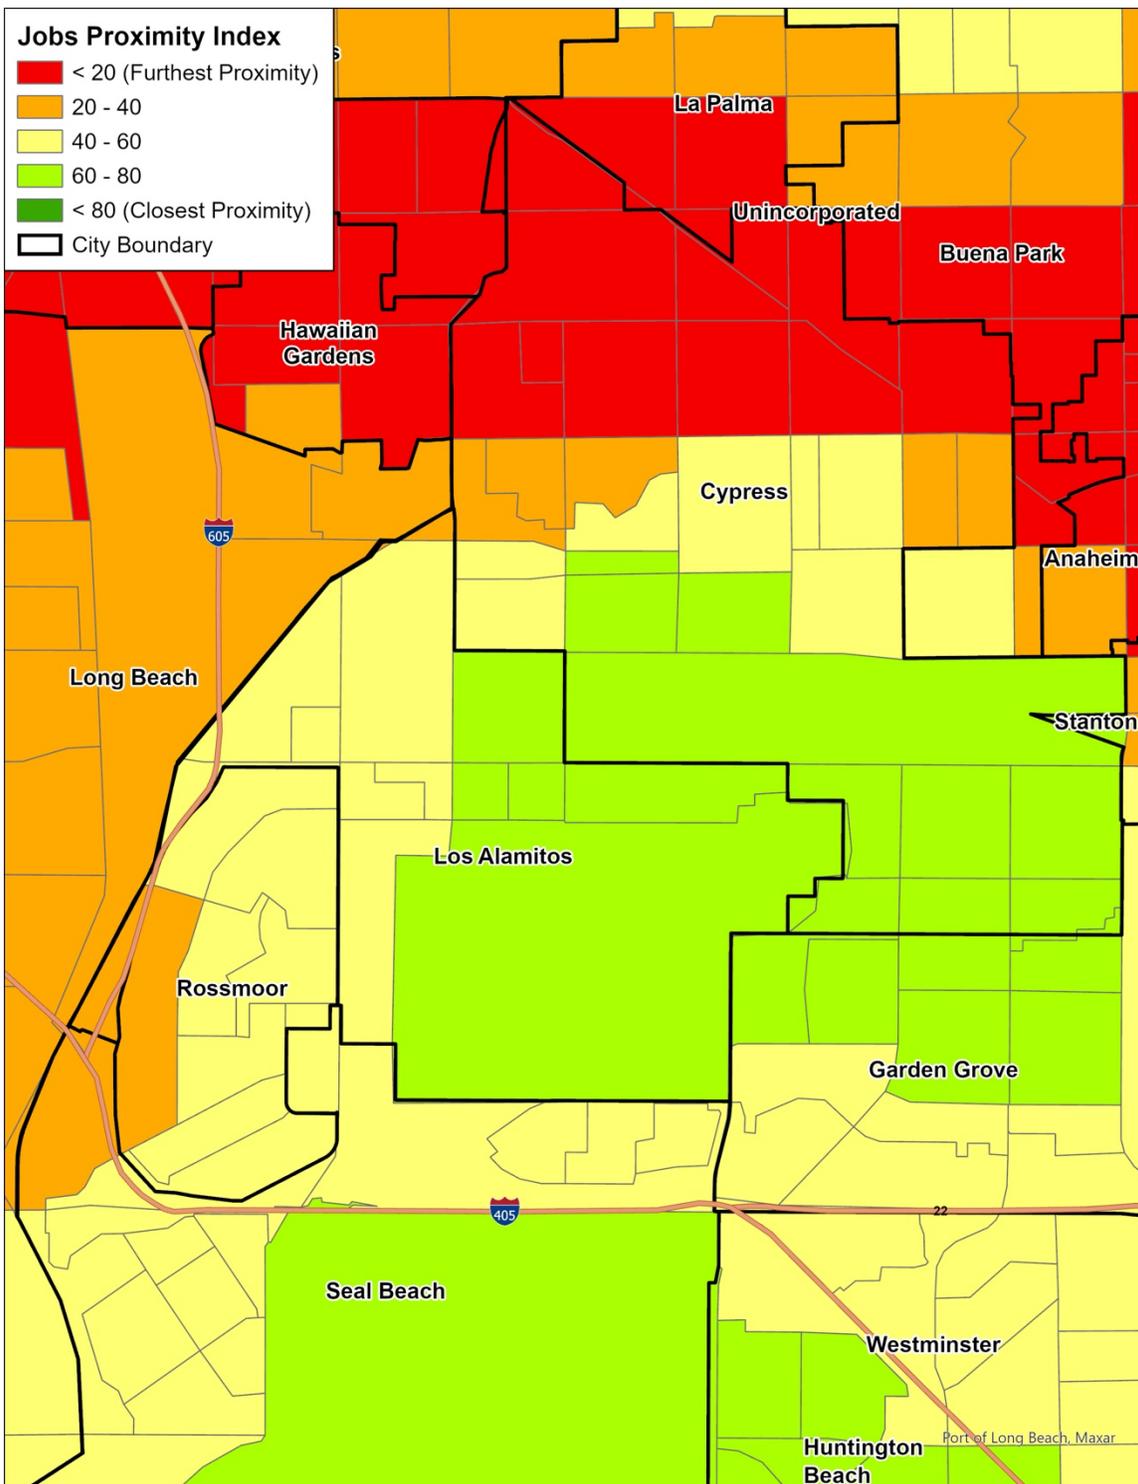

The City offers assistance to two local non-profit organizations, the Youth Center and the Los Alamitos Museum Association, by providing City buildings for their use, cleaning and maintenance support, and including them in the quarterly Recreation brochure mailed to City residents to enrich cultural and educational opportunities for families and beyond. The City leads the Serve Los Al Committee which serves as a monthly networking avenue for many local non-profit organizations, runs an annual volunteer event (Serve Los Al) and quarterly donation drives (toy drive, back to school supplies, etc.).

The City also assisted in the establishment of the Los Alamitos Senior Club, a non-profit entity that provides networking and programs to the 50+ population. The Club hosts various activities (e.g. exercise classes, Senior Lunch, Bingo, Senior Grocery Program) using facilities at the Community Center. The City offers staff support to assist with their monthly newsletter and meeting agenda/minutes.

The City's Recreation & Community Services Department partners with the Special Olympics Southern California to offer programming for individuals with intellectual disabilities. Currently, the City offers a tennis program and basketball program.

Figure D-5. Jobs Proximity Index

Recently, the City realized that the COVID-19 pandemic can disproportionately affect potentially disadvantaged persons and households. The City implemented several programs to help senior residents and coordinated with outside organizations to distribute grants to assist small businesses. Since April 2020, the City's Recreation & Community Services Department provides free groceries to adults 60 years and older at the Los Alamitos Community Center every Tuesday. Up to 120 participants are served at each distribution. The City also coordinated with agencies and organizations such as the county government and Small Business Association to offer various loan and grant programs including the California Relief Grant, The Restaurant Revitalization Fund, OC Emergency Rental Assistance Program, COVID-19 Layoff Aversion Support Fund Program and SafeDineOC Restaurant Program. In 2020, the City accepted applications for the Emergency Relief Small Business Grant Program in two phases, which ultimately awarded \$5,000 grants to 52 businesses. City staff coordinated with managers of the program, the Small Business Development Center (SBDC), to contact businesses to encourage application and assist with submittal and application review to confirm eligibility. In addition, the City regularly pushed out information for grant/loan opportunities offered by other entities via social media and email to those individuals subscribed to the City's weekly email blast. These programs help preserve jobs and reduce potential impacts to households that may suffer from unemployment during the pandemic.

The City actively promotes multi-modal transportation through planning. The City just completed its Active Transportation Plan (ATP, 2021), which based on local and regional planning documents, recommended pedestrian and bicycle treatments along 18 routes including the main corridors, Katella Avenue and Los Alamitos Boulevard, with detailed design guidelines. Implementation of the ATP will achieve myriad environmental, health, and economic benefits and also enhance the equity and mobility in the City.

## 2. Access to Opportunity

The TCAC Opportunity Areas identified in Figure D-1 were reviewed by the City, and one potentially inaccurate designation was identified. The western strip of the City is categorized as "Highest Resource" by TCAC/HCD, which contains the Los Alamitos Channel and Interstate 605 and has no development potential. Also, the area identified as "Moderate Resource" is in Census Tract 1101.13 which primarily falls within the City of Cypress' boundaries, and thus data for this tract may not accurately describe the portion in the City of Los Alamitos. The Los Alamitos portion of Tract 1101.13 consists of institutional/public, commercial and industrial developments. The Cypress portion consists of residential, commercial and institutional developments. Tract 1101.13 is primarily built out; in the Los Alamitos portion, the property in the northwestern corner of Lexington Drive & Katella Avenue is underutilized and part of the property is identified for future housing development (see Sites 5a and 5b, Figure B-1).

In addition to the Composite Score of TCAC Opportunity Areas shown in Figure D-1, the City also analyzed individual scores for economic, education and environmental domains. The northern City (north of Katella Avenue) scores the highest in the economic domain ( $>0.75$ ), which indicates more positive economic outcome. A small area in the northwestern corner scores lower (0.25-0.50, relatively less positive economic outcome) than the adjacent areas, likely due to its location in a tract (1101.17) that falls primarily in the City of Cypress. Tract 1100.14 south of Katella Avenue has a lower score of 0.43, while the southern City has a relatively high score of 0.73. Overall, the City has comparable or better economic outcomes in comparison to the neighboring jurisdictions.

The majority of the City scores the highest ( $>0.75$ ) in the education domain, which indicates more positive education outcomes. The exception is the small area in the northwest corner of Ball Road & Bloomfield Street (located in Tract 1101.17) and the block north of Katella Avenue and east of Bloomfield Street (located in Tract 1101.13). The area in Tract 1101.17 scores 0.73 in the education domain, which is close to the bulk of the City. It is unclear why the block in Tract 1101.13 scores lower (0.44), because it contains an elementary school and middle school and no residential uses. Similar to other indices discussed above, the lower education score applies to the entire Tract 1101.13, which contains several residential areas in the City of Cypress and may not represent the Los Alamitos portion well. Overall, the City has comparable or better education outcomes in comparison to the neighboring jurisdictions.

The majority of the City scores the lowest in the environmental domain ( $<0.25$ ), with the exception of the northwestern area in Tract 1101.17 (scores 0.58), the block in Tract 1101.13 (scores 0.32), and Tract 1100.14 (scores 0.32). These lower scores indicate less positive environmental outcomes, which are comparable to the City of Seal Beach to the south, but lower than other neighboring cities including Hawaiian Gardens, Cypress, Stanton, Westminster, and Garden Grove. Without more data and evidence, one speculative cause for the lower environmental scores in Los Alamitos and Seal Beach may be the Joint Forces Training Center and Naval Weapons Station.

The City's mid to higher range Jobs Proximity Index scores may be a benefit of the Joint Forces Training Center, as similar scores are observed in Seal Beach with the Naval Weapons Station. In contrast, the neighboring cities of Cypress, Garden Grove, Westminster, and Hawaiian Gardens all have areas with the lowest scores ( $<20$ , furthest proximity). Currently, the western City has relatively lower Jobs Proximity Index scores (40-60); the segregation and integration assessment also finds that certain areas in the western City have more lower income households. As noted, these areas will benefit from new development and redevelopment facilitated by the Los Alamitos Town Center

Strategic Plan and the Katella + Los Alamitos Commercial Corridors Plan. These plans will facilitate better infrastructure and amenities in the Town Center and along Katella Avenue and Los Alamitos Boulevard, and provide higher residential densities than currently allowed in these areas, thereby providing a variety of housing products affordable to lower income households.

According to HUD data on version 3.0 of the Location Affordability Index (LAI), the City generally exhibits a homogenous pattern for transit cost and trips. For both owners and renters, the transit cost and trips are generally in the low range compared to the surrounding areas, except Tract 1100.14, which has slightly higher values for both transit cost and trips. This pattern is consistent with the relatively high Jobs Proximity Index scores in the City. The Orange County AI analyzed the low transportation cost index, for which higher scores indicate greater access to low cost transportation. There are no significant disparities between racial/ethnic groups in the low transportation cost index in most jurisdictions in Orange County, which is similar for the transit index score. As discussed above, new jobs and development opportunities facilitated by the Los Alamitos Town Center Strategic Plan and the Katella + Los Alamitos Commercial Corridors Plan could help lower the transit cost and trips for residents in Tract 1100.14 which is southwest of Katella Avenue and Los Alamitos Boulevard.

In summary, these findings may suggest that in the western City, including the Town Center area, jobs that are near housing may not meet the needs of the residents located there, creating a jobs/housing imbalance and lower job proximity. In addition, someone may be able to both work and live in an area with a good number of jobs; however, they may still only be able to access positions with low wages and find it hard to afford housing costs.

Currently, there is one affordable housing development in Los Alamitos for seniors aged 62 and over. Klein Manor, located in the northeast corner of Bloomfield Street & Katella Avenue, offers 71 apartment units including studios and one-bedroom units, as well as a few accessible units for the sensory/mobility impaired. Klein Manor is subsidized by the Housing Choice Voucher Program (Section 8) and charges approximately 30% of the resident income for rent. Klein Manor is located within walking distance of Laurel Park, hospitals and dental clinics, restaurants, retail and personal services along Katella Avenue. A bus stop served by OC Bus Route 50 is located just south of the community on Katella Avenue. Klein Manor is operated by the Retirement Housing Foundation and does not have an expiration date for its affordability (Section 8 rentals).

The lack of more affordable housing projects in the City is partly due to lack of City funding to develop or subsidize affordable housing. The City is taking a new approach on future affordable housing projects. Similar to many projects/cities in Southern

California, the City will leverage City-owned lands and seek partnership with affordable housing developers. The developers will have access to Tax Credit and other programs through state and federal agencies and compete for these funds.

As described in the Land Resources section (Appendix B) of the Housing Element, the City is seeking development opportunities for the Arrowhead and Lampson Avenue properties to provide affordable housing. The City is also developing the Town Center Strategic Plan to encourage affordable housing in the Town Center, a high resource area. The Strategic Plan will allow up to 60 units per acre on certain sites and envisions mixed use developments to revive the town center, increase job opportunities and improve the jobs/housing balance.

The City has included Policy Action 4.7 to encourage diversity in housing choices in high opportunity areas such as Accessory Dwelling Units (ADUs) and Junior ADUs (JADUs). The City is also removing barriers to a variety of housing choices through zoning modification and creating a new zone to apply to certain high opportunity areas to allow higher densities (Policy Actions 4.4 and 4.5).

### 3. Disproportionate Housing Need and Displacement Risk

#### a. Overcrowding

As discussed earlier in the Housing Needs Analysis section (Table 2-30, Chapter 2) of this Housing Element, overcrowding is not a significant issue in the City of Los Alamitos. As of the 2015-2019 ACS, only 4.0% of all occupied units in the City are considered overcrowded, and renter units have a higher percentage (5.7%, 134 units) of overcrowding than owner units (1.9%, 33 units).

#### b. Homelessness

In 2019, there was one unsheltered homeless person in Los Alamitos according to the PIT Count for Orange County. Two emergency/transitional shelters serve specialized populations including homeless pregnant women and youth in the City. The City diverts the CDBG-CV funding toward annual shared costs for homeless shelters (North Orange County Service Planning Area). The City allows homeless shelters in the P-L-I (Planned Light Industrial) zone (with a CUP for more than 20 beds) and treats transitional and supportive housing as a residential use subject only to those requirements of other residential uses in the same zone.

### c. Overpayment

The median rent for a two-bedroom unit in Los Alamitos can be out of reach for very low-income renters, and a three-bedroom unit may be unaffordable to a low-income renter. As shown in Figure D-6, overpayment by renters in 2019 was not unique to the City of Los Alamitos and is a chronic issue to be addressed both locally and regionally. As is shown in Table 2-29 (Overpayment by Income Level, 2013-2017), as of the 2013-2017 CHAS, between both renters and owners, 70.4% of lower income households in Los Alamitos pay at least 30% of their income toward housing costs. Regionally, overpayment among renters is especially prevalent (>80%) in an unincorporated area north of the City of Garden Grove, City of Anaheim and City of Santa Fe Springs in Los Angeles County.

The rate of homeowners overpaying for housing is lower at 38.7% of all owner households in Los Alamitos, although the overpaying rate is higher for lower-income owners (47.9 percent). Overpayment increases the risk of displacement for residents who are no longer able to afford their housing costs. Regionally, overpayment among homeowners is generally lower than renters and below 60% for most of western Orange County. As shown in Figure D-7, while the majority of Los Alamitos has a homeowner overpayment rate below 40%, Census Tract 1100.14 in the central City has a higher overpayment rate (61.9%) compared to the neighboring cities of Cypress, Hawaiian Gardens, and Seal Beach. The City has included policy actions under Housing Strategy Area 4 to incentivize development of affordable housing and has included an action in Policy Action 3.3: Active Outreach to connect minority populations to lending programs for homeownership.

Figure D-6. Overpayment by Renters

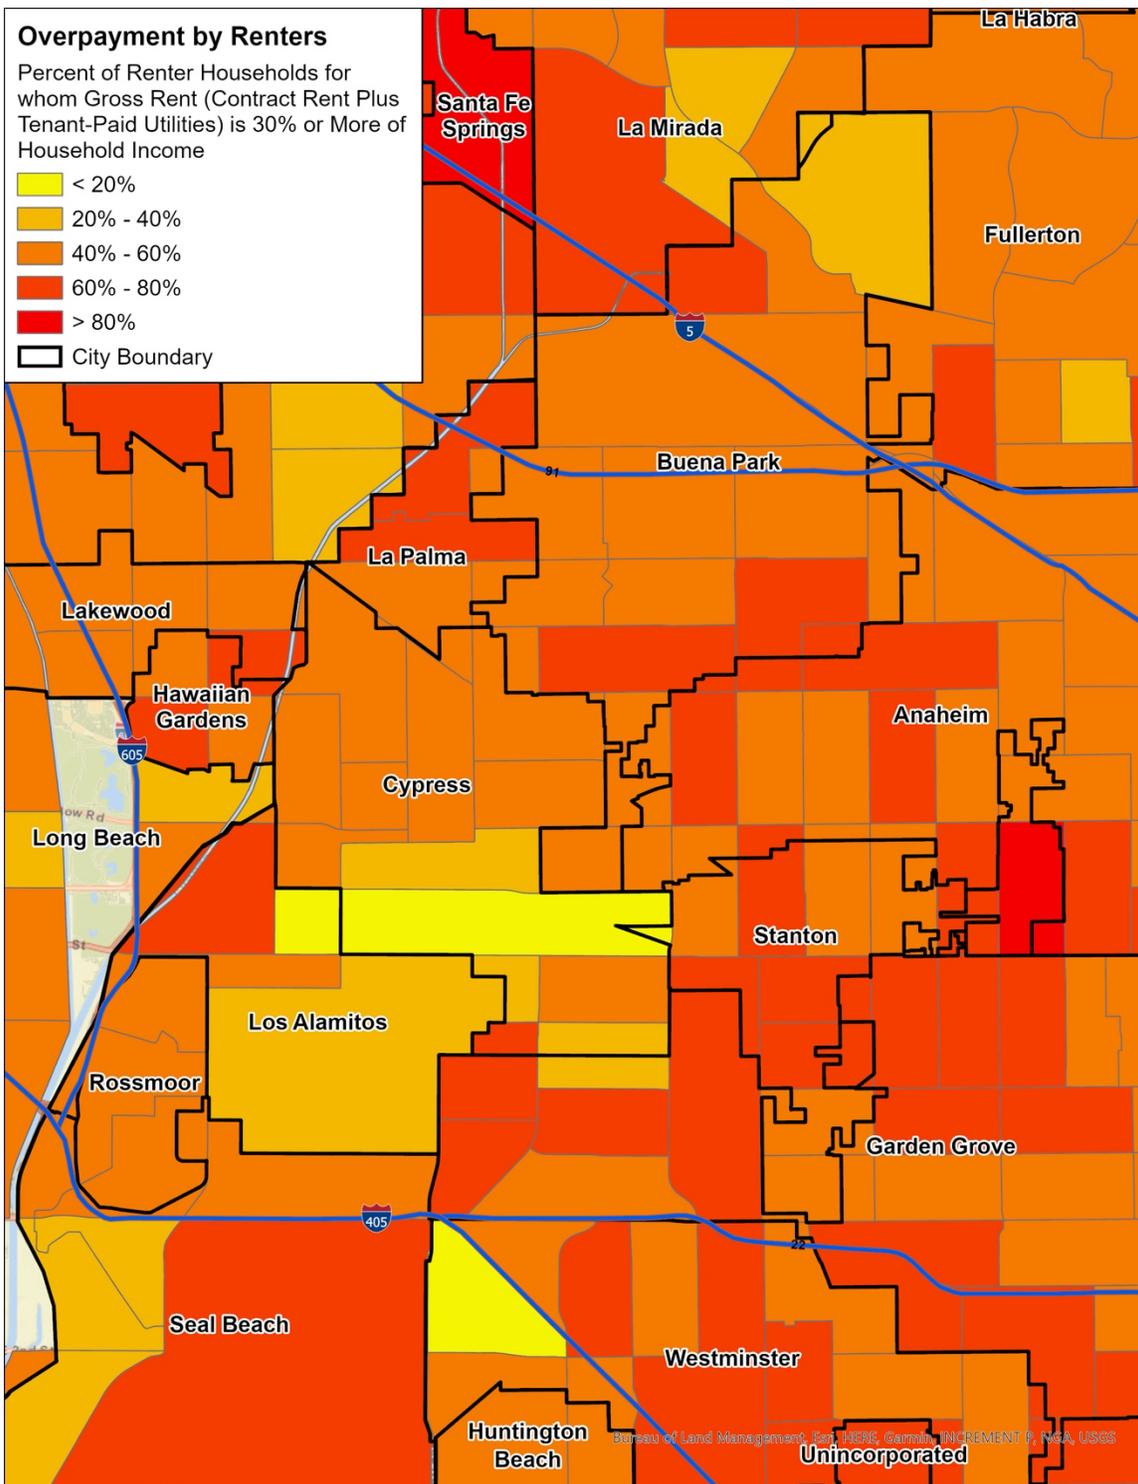

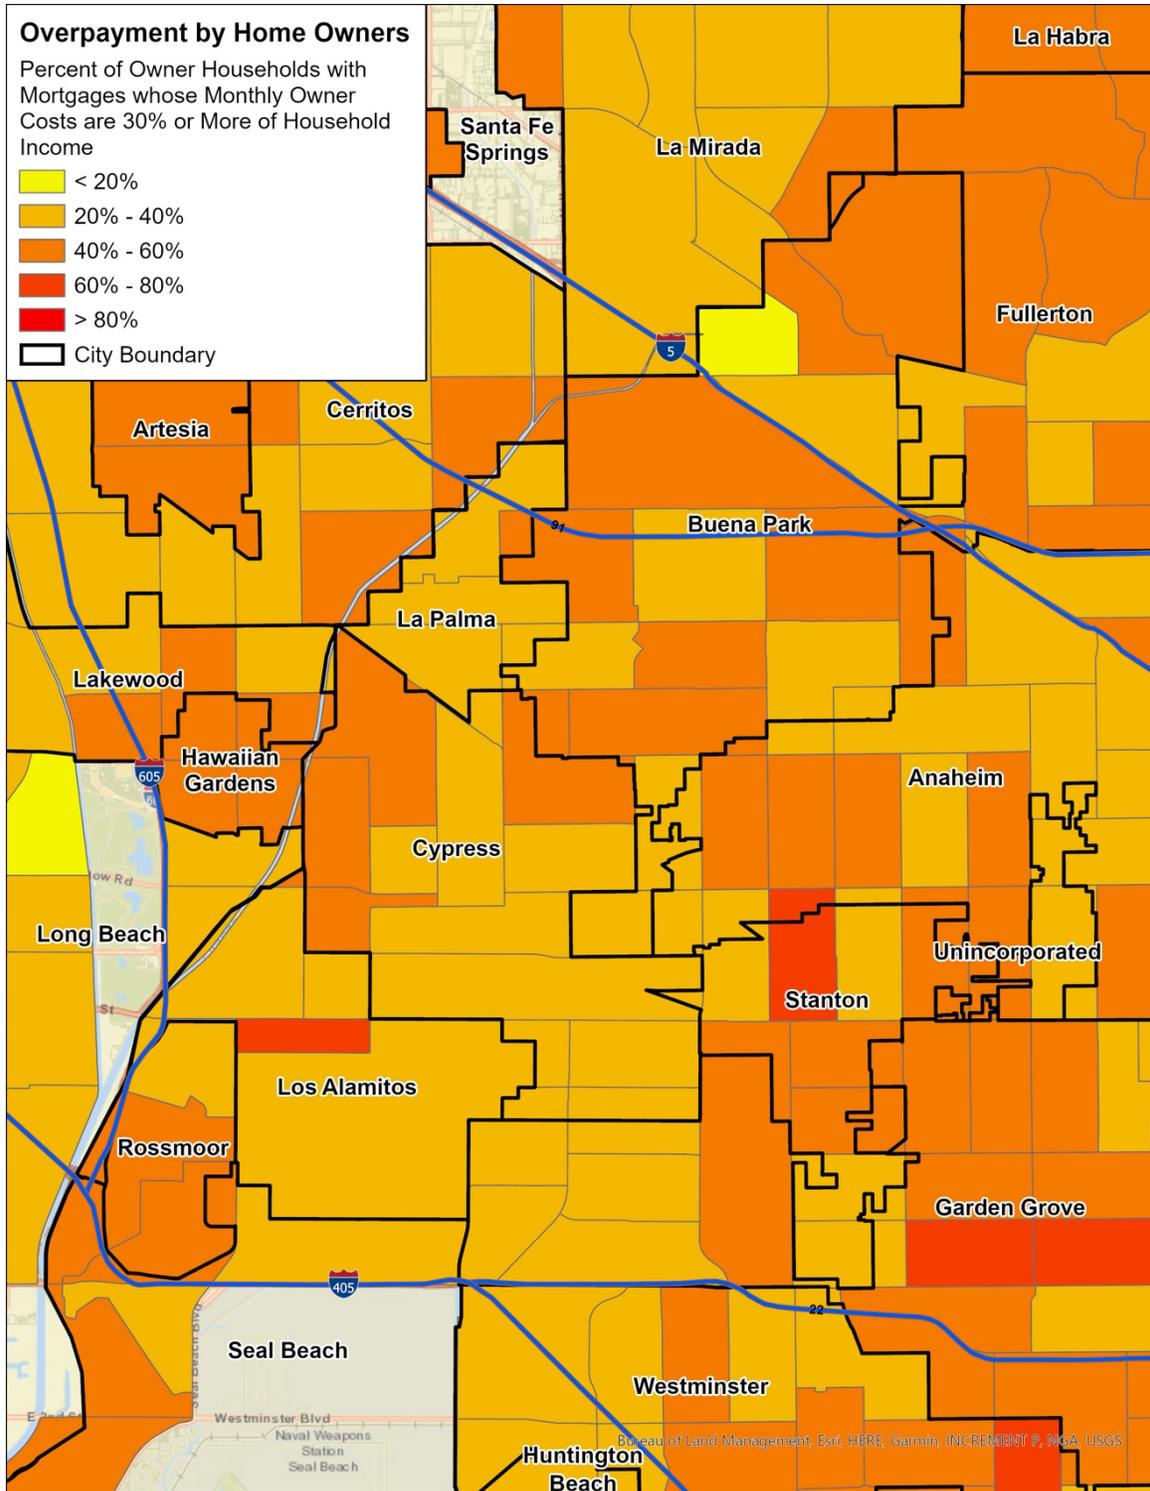

Figure D-7. Overpayment by Home Owners

#### **d. Age and Condition of Housing Stock**

In addition to extensive overpayment, nearly 88% of the housing stock in Los Alamitos is older than 30 years, with over half (56%) over 50 years old. The age of housing often indicates the need for some type of repair or rehabilitation. The City has not conducted a housing conditions survey within the last five years. The Code Enforcement Division monitors the condition of housing stock through proactive and complaint-based code enforcement. On average, the City sees approximately six residential units that require action from Code Enforcement on housing conditions annually. In the last five years (2017 to 2021), the City's Code Enforcement Division has issued 21 citations to single family homes, 10 citations to multi-family units, and one citation to mobile home parks related to substandard building/property conditions such as plumbing, roof damage, electrical, building, windows, HVAC, or property maintenance issues. Most of these property owners made the required repairs without financial assistance. There are around 12 citations pending investigation, inspection, or repair as of January 2022. On average, it is expected that 6 units may need rehabilitation each year, with a cumulative total of 18 units in need at any time. However, based on the recent Code Enforcement records, the City's housing stock are generally in good conditions; although some need repair and maintenance, it is unlikely to have units that need to be replaced.

According to Code Enforcement Division's records in 2017 to 2021, nearly half (15) of the 32 citations regarding housing conditions occurred in the Apartment Row neighborhood (Tract 1100.14), with more multi-family units cited than single-family units. Near a quarter (seven) of the citations occurred in Tract 1101.08, which include single-family units and a mobile home park. The remaining several citations were scattered around these tracts in the northern City. This pattern coincides with the findings in this fair housing assessment that Tract 1100.14 is considered vulnerable to urban displacement, has slightly higher percentage (12.6%) of population below poverty compared to the rest of the City (Figure D-4) and higher percentage (51.96%) of population with low to moderate income. The tract also has moderately high overpayment by renters (Figure D-6) and the highest overpayment by owners (Figure D-7). These conditions may indicate higher financial burdens for renters and owners to make necessary home repairs and improvements in the Apartment Row neighborhood. In the upcoming planning cycle, the City will encourage residents to apply for government programs such as Section 504 Home Repair program the federal Title I Property Improvement Loan Program and other rehabilitation programs that may be available from nonprofit housing organizations such as Habitat for Humanity (Policy Action 1.1 and 1.2).

While much of the housing stock has been deemed to be in decent, suitable condition in the City, the repair costs can be prohibitive such that the owner or renter live in unhealthy, substandard housing conditions or the renter is displaced if the house is designated as uninhabitable and the owner does not complete repairs. To prevent these situations, the City will continue the active code enforcement program and refer property owners to government programs that help fund home improvement and rehabilitation. The City will also consider offering incentives for acquisition and rehabilitation of multifamily properties on a case-by-case basis (Policy Action 1.3). The City will continue to collaborate with the County and local nonprofit organizations to target efforts in the rehabilitation, adaptive reuse, acquisition and COVID related assistance programs throughout the City and ensure equal access to the programs across all socioeconomic groups through information dissemination through multiple locations. (See Policy Actions 3.1 through 3.3 and 5.1).

#### **e. Mortgage Loan Indicators**

Data related to home loan applications is made available annually by the Consumer Financial Protection Bureau, through the Home Mortgage Disclosure Act (HMDA). The data is organized by census tracts rather than local jurisdictions, and thus the following analysis is based on census tracts located entirely within the City of Los Alamitos (1101.08, 1100.14, 1100.15<sup>1</sup>). Among first mortgage loan applications originated in Los Alamitos in 2020, 51.5% were made to white applicants and 18.6% to Asian applicants. For 22.9% of loans issued, race data was not available. Among first mortgage loan applications originated in Los Alamitos in 2020, a small number were made to Black or African American (7, 1.3%), American Indian or Alaska Native (1, 0.2%), and Native Hawaiian or Other Pacific Islander (1, 0.2%) homebuyers. The percentages for white, Asian and Black or African American applicants are lower than the corresponding race distribution of Los Alamitos. Considering the 22.9% of loans with unavailable data on race and geographical area covered in the analysis, the pattern is consistent with the City-wide race distribution. HMDA data combines data on Hispanic or Latino identity within other race categories; approximately 5% (27) of 538 loan applications that were originated went to borrowers identifying as Hispanic or Latino. The majority (35, 55.6%) of the 63 loan applications that were denied were denied to white applicants (including 7 borrowers that also identified as Hispanic or Latino). Ten (15.9%) applications were denied to Asian borrowers, and one (1.6%) was denied to borrowers identified as American Indian or Alaska Native.

<sup>1</sup> Part of Tract 1100.15 is in City of Cypress but contains non-residential developments only and thus will not affect home loan data.

In 2019, the origination rate to white applicants was slightly higher than in 2020, with 59.1% of the 242 loans originated for home purchases going to white residents. Black or African American (0.8%, or 2 loans) and Asian (16.9%, or 41 loans) residents had slightly lower percentages of loans originated. The American Indian or Alaska Native group had the same number of loans as in 2020, though the percentage was marginally higher than 2020 (0.4%, or 1 loan). Race data was not available for 19.4% of first mortgage loans originated. Of the 35 first mortgage loans that were denied in 2019, 65.7% were denied to white applicants (23 loans, including 3 borrowers that also identified as Hispanic or Latino). Five (14.3%) applications were denied to Asian borrowers. Approximately 7.4% of loans originated and 1.7% of loans denied were for applicants who identify as Hispanic or Latino, though these loans are also counted within other race categories. Through Policy Actions 3.1 through 3.3 and 5.1, the City will support agencies and nonprofit groups to ensure equal access to lending programs for people in protected classes including race, color, national origin, religion, sex, age, or disability.

#### **f. Displacement Risk**

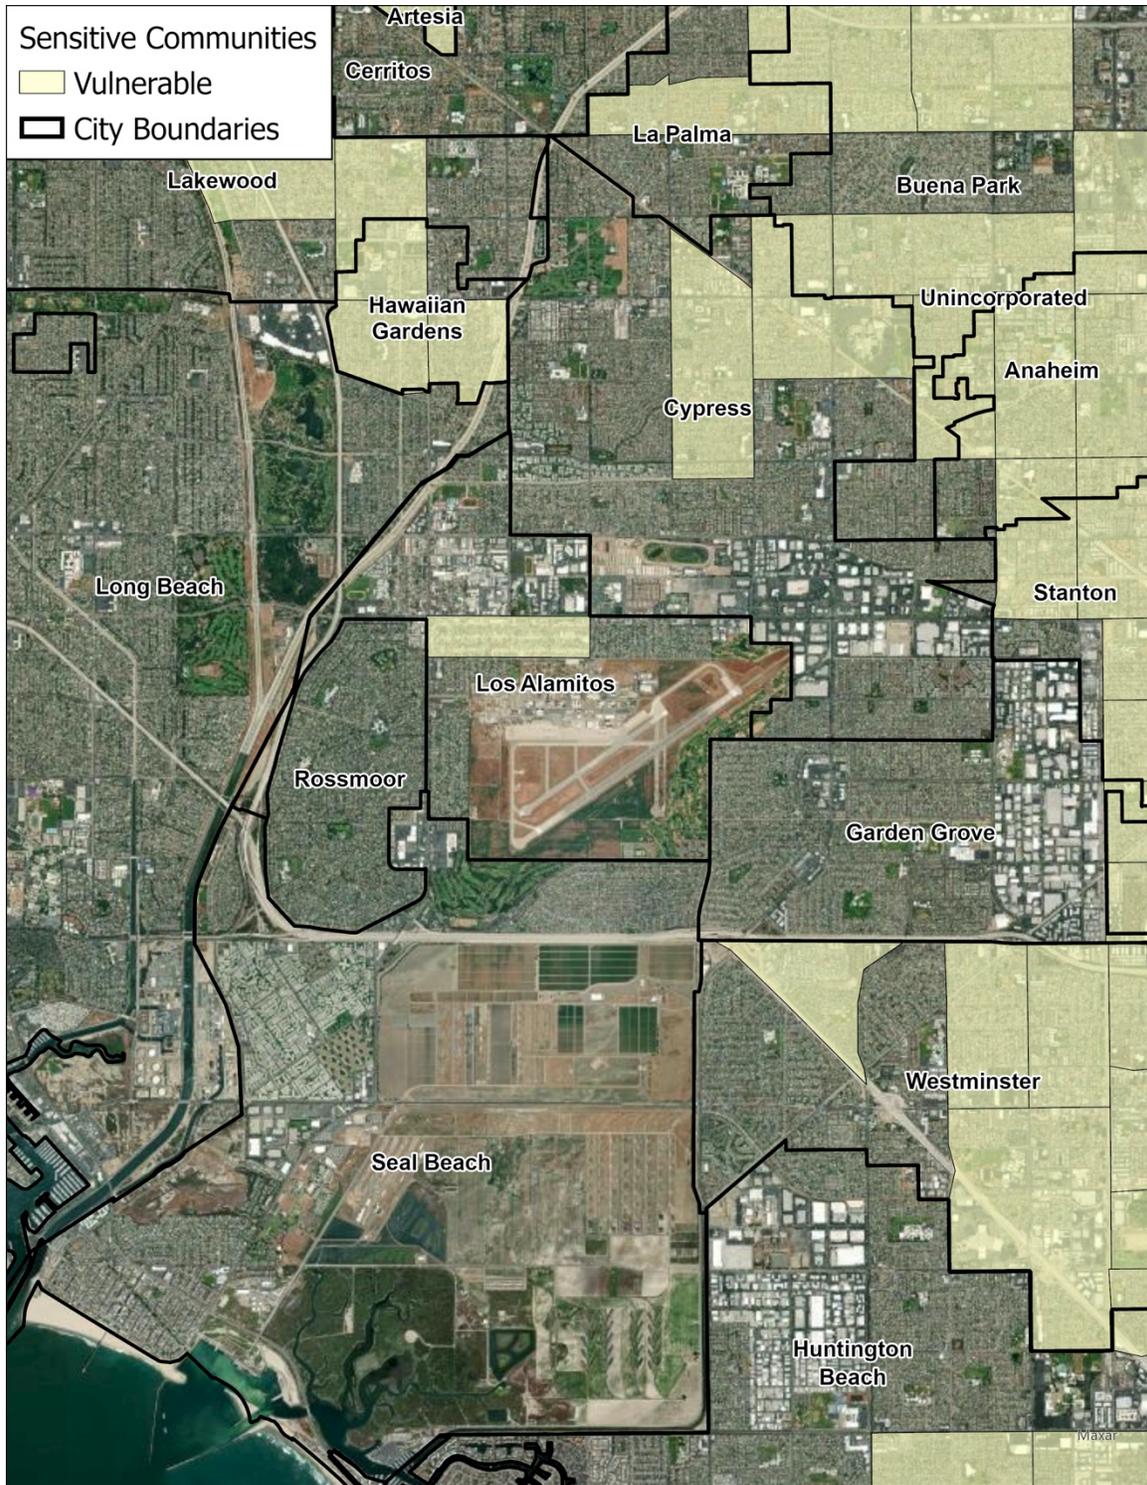

The Urban Displacement Project (UDP) is a research and action initiative of the University of California Berkeley and the University of Toronto. UDP conducts community-centered, data-driven, applied research toward more equitable and inclusive futures for cities, and contributed the Sensitive Communities map to HCD's AFFH Data Viewer. Communities are designated sensitive if "they currently have populations vulnerable to displacement in the event of increased redevelopment and drastic shifts in housing cost." The following characteristics define vulnerability:

- Share of very low-income residents is above 20%; and
- The tract meets two of the following criteria:
  - Share of renters is above 40%,
  - Share of people of color is above 50%,
  - Share of very low-income households (50% AMI or below) that are severely rent burdened households is above the county median,
  - They or areas in close proximity have been experiencing displacement pressures (percent change in rent above County median for rent increases), or
  - Difference between tract median rent and median rent for surrounding tracts above median for all tracts in county (rent gap).

Figure D-8. Sensitive Communities – Urban Displacement Project

**Housing Element**  
**Assessment of Fair Housing** **AD**

The Sensitive Communities – Urban Displacement Project map (Figure D-8) identified only one census tract (Tract 1100.14) that is considered vulnerable to urban displacement in and adjacent to the City. Tract 1100.14 has a slightly higher percentage (12.6%) of population with annual income below poverty level compared to the rest of the City (below 10%) (Figure D-4) and over half the population with low to moderate income (51.96%). In the City, part of Tract 1100.14 scores lower on the Jobs Proximity Index, and the tract has moderately high overpayment by renters (Figure D-6) and the highest overpayment by owners (Figure D-7). Tract 1100.14 is fully built out, but has some potential for redevelopment, including for mixed-use residential and affordable housing units. Sites 3, 4a and 4b in the Sites Inventory are located in this tract, with a potential for 20 lower and moderate income units in a mixed-income development scenario with 115 units in total consistent with the Town Center Strategic Plan. These future developments facilitated by the Town Center Strategic Plan will help alleviate displacement risks for lower income residents in the vulnerable Tract 1100.14.

In 2016 to 2018, the University of California Los Angeles team on the Urban Displacement Project developed a neighborhood change database to illuminate where neighborhood transformations are occurring and to identify areas that are vulnerable to gentrification and displacement in Los Angeles, Orange, and San Diego Counties. Based on 2015 data from the American Community Survey on these counties, Orange County exhibited the greatest share of neighborhoods that were considered “disadvantaged” and potentially susceptible to gentrification (~43%). Using 2018 ACS data, an updated neighborhood change map was produced which also identify COVID-19-related risk. The 2018 map reveals that Orange County had the highest rates of exclusion, with 55% of tracts exhibiting either exclusion risk or ongoing exclusion. 29% of tracts in Orange County were classified as Stable/Advanced Exclusive, the highest level of exclusion.

The 2018 neighborhood change map showed that the City of Los Alamitos north of and including Tract 1100.14 is identified as at risk of becoming inclusive, whereas the southern City is identified as stable/advanced exclusive. Criteria for “at risk of becoming inclusive” include moderate, mixed moderate, mixed high, or high-income tract in 2018; housing affordable to middle, high, mixed moderate, and mixed high-income households in 2018; and marginal change or increase in housing costs. Criteria for “stable/advanced exclusive” include high-income tract in 2000 and 2018; affordable to high or mixed high-income households in 2018; and marginal change, increase, or rapid increase in housing costs. As shown in Table B-2 and Figure B-1 in Appendix AB, Site 6 in the Sites Inventory is in the “stable/advanced exclusive” area, which is expected to have a total of 246 units affordable to every income level, and Sites 1 through 5b are in areas “at risk of becoming inclusive”, which are expected to be mixed-income developments with a total of 558 units affordable to every income level. The Sites Inventory in synergy

with the Town Center Strategic Plan and the Katella + Los Alamitos Commercial Corridors Plan will be able to increase job opportunities in areas at risk of becoming inclusive and facilitate affordable housing development, especially in mixed-income style, which will in turn promote a more inclusive community for residents with various income levels and housing needs.

#### **4. Enforcement and Outreach Capacity**

The City conducts periodical reviews of its policies and Municipal Code to comply with state law on fair housing, and provides support for fair housing complaints as they arise to enforce fair housing.

While the City of Los Alamitos regularly updates its policies and codes to reflect changes in state law, it has not completed a City-wide Fair Housing Assessment or comprehensive review of zoning laws and policies to ensure compliance with fair housing law. Examples of fair housing law that were recently updated include Density Bonus Law (Gov. Code, § 65915.), No-Net-Loss Law (Gov. Code, § 65863), and Housing Element Law (Gov. Code, § 65583, esp. subs. (c)(5), (c)(10).) The City is set to meet housing element deadlines and will prioritize programs with action items on update of the zoning ordinance to facilitate housing and comply with state fair housing laws. The City has included actions under Housing Strategy Area 4 to create a new residential zone (R4) and apply it to two sites in the Vacant Land Inventory and modify the Town Center Mixed Use zone to allow higher densities (up to 60 units/acre). To address zoning code provisions that may be out of date, several policy actions were amended to encourage accessory dwelling units and ensure zoning standards consistent with state law (4.7) and update homeless shelter provisions to comply with AB 101 (Low-Barrier Navigation Centers, 4.6). Policy Action 4.8 calls for an assessment of needed changes in the Zoning Code and completion within a year of adoption of the Housing Element. During this review, the City will ensure that the Zoning Code and land use policies comply with state laws and policies, with a particular focus on fair housing related regulations to encourage patterns of integration, allow a variety of housing types to meet all needs, and provide accommodations for protected classes.

Apart from zoning and development standards, fair housing issues may occur during rental, lending and purchase of housing, including discriminatory behaviors by landlords, lenders, and real estate agents. Typical cases range from refusal to allow service animals or grant reasonable accommodation requests to selective showing of property listings based on familial status, sex, religion, or other protected class. The City complies with fair housing law on investigating such complaints by referring discrimination cases to the Fair Housing Council of Orange County (FHCO). The FHCO is a non-profit organization approved by HUD that works to eliminate housing discrimination and guarantee the

rights of all people to freely choose the housing for which they qualify in the area they desire. FHCOC's services include comprehensive community education, individual counseling, mediation, and low-cost advocacy. In Los Alamitos during the 2014-2021 planning period, a total of three complaints were filed, two based on disability and the other one based on familial status. The race/ethnicity distribution data shows that two of the records were filed by persons identified as "White" and the other was filed by persons identified as "Asian". Additional details including case status/outcome were not provided on these records, and given the limited number they are inconclusive to identify any patterns.

HUD's Region IX Office of Fair Housing and Equal Opportunity (FHEO) provided case records for Los Alamitos in July 2021. Four fair housing cases were filed with their office during the previous planning period, two based on disability, one based on familiar status, and the other based on sex and retaliation. Two of these cases were closed due to no cause determination, and another was closed because complainant withdrew without resolution. The other case was closed with conciliation/successful settlement, and issues were discrimination in terms/conditions/privileges relating to rental and failure to make reasonable accommodation. All four cases were handled through the Fair Housing Assistance Program (FHAP), in which HUD funds state and local agencies that administer fair housing laws that HUD has determined to be substantially equivalent to the Fair Housing Act. California Department of Fair Employment and Housing (DFEH) is the only certified agency for FHAP in California. Because state law has additional protected classes than federal law, DFEH may have additional case records. A request was made in July to DFEH, and records on closed cases were provided on September 10, 2021. Of the eight closed cases in Los Alamitos during 2014-2021, half were filed on a basis of familial status (children). Three of these familial cases were settled by enforcement, and one was closed due to no cause determination. The other four cases were filed on a variety of bases, including source of income, engagement in protected activity, marital status, national origin, race and sex-gender. Three of the four cases were closed after investigation and dismissed for insufficient evidence and/or no jurisdiction; the one case filed on source of income was settled by Dispute Resolution Division (DFEH staff) through voluntary mediation.

According to the AFFH Data Viewer, there was only one FHEO inquiry in Los Alamitos during 2013-2021, which had no valid basis. This low number is similar to the neighboring cities in Orange County, and also consistent with the overall low number of cases per one thousand population. Orange County had fewer total FHEO cases in 2020 compared to 2010, and a lower percentage with race bias, but a slightly higher percentage with disability bias. The number of case records and their outcome indicate sufficient enforcement capacity by multiple agencies and a low potential for any

patterns or concentrations of fair housing issues in the City of Los Alamitos. However, the regional trend suggests a higher potential for discrimination against disabled persons. According to the Orange County Analysis of Impediments to Fair Housing Choice (County AI, April 2020), during 2015-2019, FHCO received 52 inquiries regarding reasonable accommodations and modifications that resulted in casework beyond basic counseling. The County AI identified contributing factors to fair housing issues including lack of assistance for housing accessibility modifications. To meet the fair housing goal of increasing community integration for persons with disabilities, jurisdictions should provide tenant application assistance and support to persons with disabilities. According to the County AI and records from local and regional service providers, there are no past or current findings, lawsuits, enforcement actions, settlements or judgments related to fair housing and civil rights in Los Alamitos. The City continues to work with agencies and local organizations to affirmatively further fair housing through outreach, referrals and support services (Policy Actions 3.2 and 3.3), with a focus on disabled residents.

## **C. Site Inventory**

Los Alamitos is a small city (4.3 square miles) in northern Orange County. The Joint Forces Training Base takes up near half (48%) of the City area in the south. The City is essentially built out as a tightly knitted community with houses, apartments, businesses, public/institutional uses and open space. There is virtually no vacant land except for redevelopment.

As shown in the inventory map (Figure B-1, Appendix B), the sites identified for the inventory are distributed across the City to the extent possible and within different zoning districts, encouraging a mix of housing types across the City. The sites' zoning designations include Town Center Mixed Use, Planned Light Industrial, and Community Facilities, and sites in the latter two zones are proposed to be rezoned to a new residential zone (R-4, allowing 30-36 units/acre). Most of the sites identified for this Housing Element will result in small scaled planned development for both market price and affordable housing for lower and moderate income levels. The larger sites (Sites 5 & 6) will contain a variety of products for all income categories including above moderate income, which combats patterns of segregation and concentrations of poverty by encouraging mixed income neighborhoods with a variety of housing types to meet the needs of all residents.

### **1. Integration and Segregation: Race and Income**

As noted, there is no area of identified segregation in or near Los Alamitos, and sites in the inventory are in areas with various diversity ratings (Figure D-2). Sites 3, 4a and 4b are in Census Tract 1100.14, which has slightly lower income (<\$87,100), over half of the

population with low to moderate income (LMI), and a slightly higher percentage of population below poverty (12.6%). Tract 1100.14 also has the highest homeowner overpayment rate (61.9%) in the City. Sites 3, 4a and 4b are expected to result in mixed-income development, with a total of 20 units affordable to lower and moderate income households out of a maximum of 115 units. Such development scenarios will expand affordable housing supply for households in need and alleviate overpayment in the high resource area.

Other sites in the inventory are in the higher and highest income areas (>\$87,100 or >\$125,000). Almost all these sites will be developed in a mixed income pattern with both affordable and market price housing. The expected total yield of affordable units for lower and moderate income households is 464, which accounts for near half of the total maximum units (1,050) on these sites. Using the mixed-income approach to meet the RHNA and provide affordable housing, the Land Inventory is not expected to exacerbate any existing patterns of segregation based on race and income, but will rather promote a more economically diverse and integrated community.

## 2. Access to Opportunity

The City reviewed the opportunity area map prepared by HCD and TCAC (Figure D-1) when selecting sites for affordable housing. The opportunity area map delineates areas across the state where research has shown there is support for positive economic, educational, and health outcomes for low-income families—particularly long-term outcomes for children. As discussed above, the City also incorporated local knowledge to reconsider the designations and descriptions of areas in the City. Using the statewide opportunity area map with local knowledge input, indicators of segregation, displacement risk, and access to opportunity as overlays to the City’s redevelopment/vacant land inventory, the City was able to identify sufficient sites for Los Alamitos’ sixth cycle inventory in areas identified by TCAC/HUD as either “High Resource” or “Moderate Resource” areas, with the same proximity to jobs as other areas in the City (see Appendix B Land Resources and Table B-2). While some sites currently have medium scores (40-60) on the Job Proximity Index, as noted above, they will benefit from future development in those areas under the Town Center Strategic Plan and Katella + Los Alamitos Commercial Corridors Plan. Of the sites identified as appropriate for the lower-income category, only one is in a “Moderate Resource” area. There are no identified segregation areas in the City.

All but two sites are located in the Town Center, which shows concentration of low to moderate income populations in certain areas and a relatively high percentage of overpayment for housing by renters. However, the Town Center is well served by the OC

Transit Bus Routes (42, 50 and 701 along Katella Avenue and Los Alamitos Boulevard) and residents will enjoy close proximity and easy access to schools, public services, healthcare facilities and shopping and other amenities. The Town Center sites are located in the Town Center Strategic Plan planning area, and the Strategic Plan provides design guidelines on multi-modal transportation to enhance local connectivity for all segments of the population. These sites are also near multiple parks, such as Laurel Park, Little Cottonwood Park and Rossmoor Park. Therefore, the location of housing sites in the Town Center affirmatively furthers fair housing through close proximity to job opportunities, transit access and other neighborhood serving amenities, which can reduce the overall cost of living for lower-income households. The Los Alamitos Elementary School, McAuliffe Middle School, Oak Middle School, and Los Alamitos High School are also located nearby within a half-mile radius, which provide excellent educational opportunities in the area.

The site currently occupied by Arrowhead Products is located approximately one mile east of the Town Center on Katella Avenue (Sites 5a and 5b, Figure B-1). This site is also within a half-mile radius to multiple schools and parks, and served by OC Bus Route 50 along Katella Avenue. On the southern side of the City, the site on Lampson Avenue is designated for future housing development in the sites inventory (Site 6, Figure B-1). While Site 6 is located farther from schools than the other sites in the inventory, it is close to several parks and approximately one mile east of neighborhood serving retail and restaurants in Rossmoor.

The City also assessed environmental constraints for the sites identified for housing. None of the sites fall within or near fire hazard zones. All housing sites in the City are located outside the 100-year special flood hazard areas. None of the sites are within or near any identified geological hazard zones that cannot be mitigated with standard construction techniques. With the implementation of standard requirements such as site-specific geotechnical studies, the sites identified in the land inventory will not subject future residents to any environmental hazards. There are no utility service gaps on the sites identified for future housing. Evidence provided by the HUD tables and maps reveal there are no disparities in access to environmentally healthy neighborhoods, as the City generally has less positive environmental outcomes. Compared to the neighboring cities, like Seal Beach with the Naval Weapons Station, Los Alamitos scores lower in the environmental domain likely due to the presence of the air base. Overall, the Land Inventory is expected to improve access to opportunities for households in need by increasing affordable housing stock in mostly high and also moderate resource areas which score mid- to high range on the Jobs Proximity Index.

### 3. Disproportionate Housing Needs

The fair housing assessment has identified a need for units with at least two bedrooms that are affordable to lower income households, especially in Tract 1100.14 and the area further north. Areas northwest and southeast of Katella Avenue and Los Alamitos Boulevard (part of Tract 1101.08 and Tract 1100.14) generally have lower median income, higher percentage of low to moderate income (LMI) population and renters that experience overpayment. Tract 1100.14 is also identified as a sensitive community to displacement. The City has utilized the Katella + Los Alamitos Commercial Corridors Plan and is in the process of developing the Town Center Strategic Plan to revitalize the Town Center area and the corridors along Katella Avenue and Los Alamitos Boulevard. Redevelopment and infrastructure improvements facilitated by these plans will introduce various job and housing opportunities in the central and northern City. The City encourages affordable housing development through incentives such as density bonus provisions and zoning changes to allow higher density in the Town Center and other sites designated for housing (Policy Action 4.1, 4.4 & 4.5). The Land Inventory and accompanying programs are expected to increase affordable housing supply and meet the diverse needs of all segments of the community.

## D. Contributing Factors

Based on discussions with affordable housing developers, community organizations, and the assessment of fair housing issues, the City identified several factors that contribute to fair housing issues in Los Alamitos, including:

- Low vacancy rates in rental and owner housing units and lack of affordable housing options for non-senior residents;
- Displacement due to various conditions, for example, COVID-19 resulted in an economic depression and income reduction/loss for many households. Other causes of displacement include increases in rental costs and lack of varied housing stock;
- Age of housing and the cost of repairs where needed; and
- Potential housing discrimination during the rental/leasing process, particularly against families with children and persons with disabilities.

This assessment identified the primary barrier to fair housing and equal access to opportunity is the supply of a variety of housing types at affordable prices. These contributing factors generally stem from limited housing supply and options due to cost. In response, the City has prioritized facilitating development of affordable housing and preventing discriminatory practices through outreach to further fair housing. To address

potential housing discrimination, the Housing Strategy Area 3 and associated policy actions are dedicated to affirmatively furthering fair housing and taking meaningful actions that address various housing needs and access to opportunity for all groups protected by state and federal law. Additionally, the City has incorporated policy actions to address factors that contribute to fair housing issues, as stated in this assessment. (See Policy Actions 1.1, 1.2, 2.2, 4.1 through 4.7, 5.1 through 5.3)

## APPENDIX AE

# GLOSSARY OF TERMS

**Above-Moderate-Income Household.** A household with an annual income usually greater than 120% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available legibility limits established by the U.S. Department of housing and Urban Development (HUD) for the Section 8 housing program.

**Apartment.** An apartment is one (1) or more rooms in an apartment house or dwelling occupied or intended or designated for occupancy by one (1) family for sleeping or living purposes and containing one (1) kitchen.

**Assisted Housing.** Generally multi-family rental housing, but sometimes single-family ownership units, whose construction, financing, sales prices, or rents have been subsidized by federal, state, or local housing programs including, but not limited to Federal state, or local housing programs including, but not limited to Federal §8 (new construction, substantial rehabilitation, and loan management set-asides), Federal §s 213, 236, and 202, Federal §221 (d) (3) (below-market interest rate program), Federal §101 (rent supplement assistance), CDBG, FmHA §515, multi-family mortgage revenue bond programs, local redevelopment and in lieu fee programs, and units developed pursuant to local inclusionary housing and density bonus programs.

**Assessment of Fair Housing.** AB 686 requires that all housing elements due on or after January 1, 2021, contain an Assessment of Fair Housing (AFH) consistent with the core elements of the analysis required by the federal Affirmatively Furthering Fair Housing (AFFH) Final Rule of July 16, 2015. Under state law, AFFH means “taking meaningful actions, in addition to combatting discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics.”

**Below-market-rate (BMR).** Any housing unit specifically priced to be sold or rented to low- or moderate-income households for an amount less than the fair-market value of the unit. Both the State of California and the U.S. Department of Housing and Urban Development set standards for determining which households qualify as “low income” or “moderate income.” (2) The financing of housing at less than prevailing interest rates.

**Build-out.** That level of urban development characterized by full occupancy of all developable sites in accordance with the General Plan; the maximum level of development envisioned by the General Plan. Build-out does not assume that each parcel is developed to include all floor area or housing units possible under zoning regulations.

**Community Development Block Grant (CDBG).** A grant program administered by the U.S. Department of Housing and Urban Development (HUD) on a formula basis for entitlement communities and by the State Department of Housing and Community Development (HCD) for non-entitled jurisdictions. This grant allots money to cities and counties for housing rehabilitation and community development, including public facilities and economic development

**Condominium.** A structure of two or more units, the interior spaces of which are individually owned; the balance of the property (both land and building) is owned in common by the owners of the individual units. (See "Townhouse.")

**Covenants, Conditions, and Restrictions (CC&Rs).** A term used to describe restrictive limitations that may be placed on property and its use, and which usually are made a condition of holding title or lease.

**Deed.** A legal document which affects the transfer of ownership of real estate from the seller to the buyer.

**Density Bonus.** The allocation of development rights that allow a parcel to accommodate additional square footage or additional residential units beyond the maximum for which the parcel is zoned, usually in exchange for the provision or preservation of an amenity at the same site or at another location.

**Density, Residential.** The number of permanent residential dwelling units per acre of land. Densities specified in the General Plan may be expressed in unites per gross acre or per net developable acre.

**Developable Land.** Land that is suitable as a location for structures and that can be developed free of hazards to, and without disruption of, or significant impact on, natural resource areas.

**Down Payment.** Money paid by a buyer from his own funds, as opposed to that portion of the purchase price which is financed.

**Duplex.** A detached building under single ownership that is designed for occupation as the residence of two families living independently of each other.

**Dwelling Unit (du).** A building or portion of a building containing one or more rooms, designed for or used by one family for living or sleeping purposes, and having a separate bathroom and only one kitchen or kitchenette. See Housing Unit.

**Elderly Housing.** Typically one- and two-bedroom apartments or condominiums designed to meet the needs of persons 62 years of age and older or, if more than 150 units, persons 55 years of age and older, and restricted to occupancy by them.

**Emergency Shelter.** A facility that provides immediate and short-term housing and supplemental services for the homeless. Shelters come in many sizes, but an optimum size is considered to be 20 to 40 beds. Supplemental services may include food, counseling, and access to other social programs. (See “Transitional Housing.”)

**Extremely Low-Income Household.** A household with an annual income equal to or less than 30% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program.

**Fair Market Rent.** The rent, including utility allowances, determined by the United States Department of Housing and Urban Development for purposes of administering the Section 8 Existing Housing Program.

**Family.** (1) Two or more persons related by birth, marriage, or adoption [U.S. Bureau of the Census]. (2) An individual or a group of persons living together who constitute a bona fide single-family housekeeping unit in a dwelling unit, not including a fraternity, sorority, club, or other group of persons occupying a hotel, lodging house or institution of any kind [California].

**General Plan.** A comprehensive, long-term plan mandated by State Planning Law for the physical development of a city or county and any land outside its boundaries which, in its judgment, bears relation to its planning. The plan shall consist of seven required elements: land use, circulation, open space, conservation, housing, safety, and noise. The plan must include a statement of development policies and a diagram or diagrams illustrating the policies.

**Goal.** A general, overall, and ultimate purpose, aim, or end toward which the City will direct effort.

**Green Building.** Green or sustainable building is the practice of creating healthier and more resource-efficient models of construction, renovation, operation, maintenance, and demolition. (US Environmental Protection Agency)

**Historic Preservation.** The preservation of historically significant structures and neighborhoods until such time as, and in order to facilitate, restoration and rehabilitation of the building(s) to a former condition.

**Historic Property.** A historic property is a structure or site that has significant historic, architectural, or cultural value.

**Household.** All those persons—related or unrelated—who occupy a single housing unit. (See “Family.”)

**Housing and Community Development Department (HCD).** The State agency that has principal responsibility for assessing, planning for, and assisting communities to meet the needs of low-and moderate-income house holds.

**Housing Element.** One of the seven State-mandated elements of a local general plan, it assesses the existing and projected housing needs of all economic segments of the community, identifies potential sites adequate to provide the amount and kind of housing needed, and contains adopted goals, policies, and implementation programs for the preservation, improvement, and development of housing. Under State law, Housing Elements must be updated every eight years.

**Housing Payment.** For ownership housing, this is defined as the mortgage payment, property taxes, insurance and utilities. For rental housing this is defined as rent and utilities.

**Housing Ratio.** The ratio of the monthly housing payment to total gross monthly income. Also Called Payment-to-Income Ratio or Front-End Ratio.

**Housing Unit.** The place of permanent or customary abode of a person or family. A housing unit may be a single-family dwelling, a multi-family dwelling, a condominium, a modular home, a mobile home, a cooperative, or any other residential unit considered real property under State law.

**Housing and Urban Development, U.S. Department of (HUD).** A cabinet-level department of the federal government that administers housing and community development programs.

**Implementing Policies.** The City's statements of its commitments to consistent actions.

**Implementation.** Actions, procedures, programs, or techniques that carry out policies.

**Infill Development.** The development of new housing or other buildings on scattered vacant lots in a built-up area or on new building parcels created by permitted lot splits.

**Jobs-Housing Balance.** A ration used to describe the adequacy of the housing supply within a defined area to meet the needs of persons working within the same area. The General Plan uses SCAG's definition which is a job total equal to 1.2 times the number of housing units within the area under consideration.

**Land Use Classification.** A system for classifying and designating the appropriate use of properties.

**Live-Work Units.** Buildings or spaces within buildings that are used jointly for commercial and residential purposes where the residential use of the space is secondary or accessory to the primary use as a place of work.

**Low-Income Household.** A household with an annual income usually no greater than 51%-80% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the §8 housing program.

**Low-income Housing Tax Credits.** Tax reductions provided by the federal and State governments for investors in housing for low-income households.

**Manufactured Housing.** Residential structures that are constructed entirely in the factory, and which since June 15, 1976, have been regulated by the federal Manufactured Home Construction and Safety Standards Act of 1974 under the administration of the U. S. Department of Housing and Urban Development (HUD).

**Mixed-use.** Properties on which various uses, such as office, commercial, institutional, and residential, are combined in a single building or on a single site in an integrated development project with significant functional interrelationships and a coherent physical design. A "single site" may include contiguous properties.

**Moderate-income Household.** A household with an annual income usually no greater than 81%-120% of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program.

**Monthly Housing Expense.** Total principal, interest, taxes, and insurance paid by the borrower on a monthly basis. Used with gross income to determine affordability.

**Multiple Family Building.** A detached building designed and used exclusively as a dwelling by three or more families occupying separate suites.

**Ordinance.** A law or regulation set forth and adopted by a governmental authority, usually a city or county.

**Overcrowding Housing Unit.** A housing unit in which the members of the household, or group are prevented from the enjoyment of privacy because of small room size and housing size. The U.S. Bureau of Census defines an overcrowded housing unit as one which is occupied by more than one person per room.

**Parcel.** A lot or tract of land.

**Planning Area.** The area directly addressed by the general plan. A city's planning area typically encompasses the city limits and potentially annexable land within its sphere of influence.

**Policy.** A specific statement of principle or of guiding actions that implies clear commitment but is not mandatory. A general direction that a governmental agency sets to follow, in order to meet its objectives before undertaking an action program. (See "Program.")

**Poverty Level.** As used by the U.S. Census, families and unrelated individuals are classified as being above or below the poverty level based on a poverty index that provides a range of income cutoffs or "poverty thresholds" varying by size of family, number of children, and age of householder. The income cutoffs are updated each year to reflect the change in the Consumer Price Index.

**Program.** An action, activity, or strategy carried out in response to adopted policy to achieve a specific goal or objective. Policies and programs establish the “who,” “how” and “when” for carrying out the “what” and “where” of goals and objectives.

**Redevelop.** To demolish existing buildings; or to increase the overall floor area existing on a property; or both; irrespective of whether a change occurs in land use.

**Regional.** Pertaining to activities or economies at a scale greater than that of a single jurisdiction, and affecting a broad geographic area.

**Regional Housing Needs Assessment.** A quantification by SCAG of existing and projected housing need, by household income group, for all localities within a region.

**Rehabilitation.** The repair, preservation, and/or improvement of substandard housing.

**Residential.** Land designated in the General Plan and zoning ordinance for building consisting of dwelling units. May be improved, vacant, or unimproved. (See “Dwelling Unit.”)

**Residential Care Facility.** A facility that provides 24-hour care and supervision to its residents.

**Residential, Multiple Family.** Usually three or more dwelling units on a single site, which may be in the same or separate buildings.

**Residential, Single-Family.** A single dwelling unit on a building site.

**Retrofit.** To add materials and/or devices to an existing building or system to improve its operation, safety, or efficiency. Buildings have been retrofitted to use solar energy and to strengthen their ability to withstand earthquakes, for example.

**Rezoning.** An amendment to the map to effect a change in the nature, density, or intensity of uses allowed in a zoning district and/or on a designated parcel or land area.

**Second Unit.** A self-contained living unit, either attached to or detached form, and in addition to, the primary residential unit on a single lot. “Granny Flat” is one type of second unit.

**Section 8 Rental Assistance Program.** A federal (HUD) rent-subsidy program that is one of the main sources of federal housing assistance for low-income households. The

program operates by providing “housing assistance payments” to owners, developers, and public housing agencies to make up the difference between the “Fair Market Rent” of a unit (set by HUD) and the household’s contribution toward the rent, which is calculated at 30% of the household’s adjusted gross monthly income (GMI). “Section 8” includes programs for new construction, existing housing, and substantial or moderate housing rehabilitation.

**Shared Living.** The occupancy of a dwelling unit by persons of more than one family in order to reduce housing expenses and provide social contact, mutual support, and assistance. Shared living facilities serving six or fewer persons are permitted in all residential districts by §1566.3 of the California Health and Safety Code.

**Single-family Dwelling, Attached.** A dwelling unit occupied or intended for occupancy by only one household that is structurally connected with at least one other such dwelling unit. (See “Townhouse.”)

**Single-family Dwelling, Detached.** A dwelling unit occupied or intended for occupancy by only one household that is structurally independent from any other such dwelling unit or structure intended for residential or other use. (See “Family.”)

**Single Room Occupancy (SRO).** A single room, typically 80-250 square feet, with a sink and closet, but which requires the occupant to share a communal bathroom, shower, and kitchen.

**Subsidize.** To assist by payment of a sum of money or by the granting to terms or favors that reduces the need for monetary expenditures. Housing subsidies may take the forms or mortgage interest deductions or tax credits from federal and/or state income taxes, sale or lease at less than market value of land to be used for the construction of housing, payments to supplement a minimum affordable rent, and the like.

**Substandard Housing.** Residential dwellings that, because of their physical condition, do not provide safe and sanitary housing.

**Supportive Housing.** Housing with no limit on length of stay, that is occupied by the target population as defined in California Health and Safety Code Section 53260(d), and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community. “Target population” means adults with low incomes having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for

services provided under the Lanterman Developmental Disabilities Services Act and may, among other populations, include families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, or homeless people. [California Health and Safety Code Sections 50675.14(b) and 53260(d)]

**Target Areas.** Specifically designated sections of the community where loans and grants are made to bring about a specific outcome, such as the rehabilitation of housing affordable by Very-Low and Low-income households.

**Tax Increment.** Additional tax revenues that result from increases in property values within a redevelopment area. State law permits the tax increment to be earmarked for redevelopment purposes but requires at least 20% to be used to increase and improve the community's supply of very low and low income housing.

**Tenure.** A housing unit is "owned" if the owner or co-owner lives in the unit, even if it is "owned" only if it is mortgaged or not fully paid for. A cooperative or condominium unit is "owned" only if the owner or co-owner lives in it. All other occupied units are classified as "rented," including units rented for cash rent and those occupied without payment of cash rent.

**Townhouse.** A townhouse is a dwelling unit located in a group of three (3) or more attached dwelling units with no dwelling unit located above or below another and with each dwelling unit having its own exterior entrance.

**Transitional Housing.** Shelter provide to the homeless for an extend period, often as long as 18 months, and generally integrated with other social services and counseling programs to assist in the transition to self-sufficiency through the acquisition of a stable income and permanent housing. (See "homeless" and "Emergency Shelter.")

**Undevelopable.** Specific areas where topographic, geologic, and/or superficial soil conditions indicate a significant danger to future occupants and a liability to the City are designated as "undevelopable" by the City.

# COMMUNITY WORKSHOP NOTICE

**Join us on  
Wednesday,  
August 25,  
2021, at  
6:00 p.m. in  
the City of  
Los  
Alamitos  
Council  
Chamber at  
3191  
Katella  
Avenue.**

The City is updating its Housing Element of the General Plan for the 2021-2029 planning period. The Housing Element Update addresses new State Housing Element law, the Regional Housing Needs Assessment (RHNA) allocation for the City, and a site inventory to meet the RHNA. The Update also lays out goals, policies, and actions for the preservation, improvement, and development of housing throughout the City.

All members of the public are encouraged to attend. The City will take public comments on the Update from those attending.

Specific questions regarding the workshop or Housing Element may be directed to Tom Oliver, Associate Planner, at (562) 431-3538 x303 or [TOLiver@cityoflosalamitos.org](mailto:TOLiver@cityoflosalamitos.org).

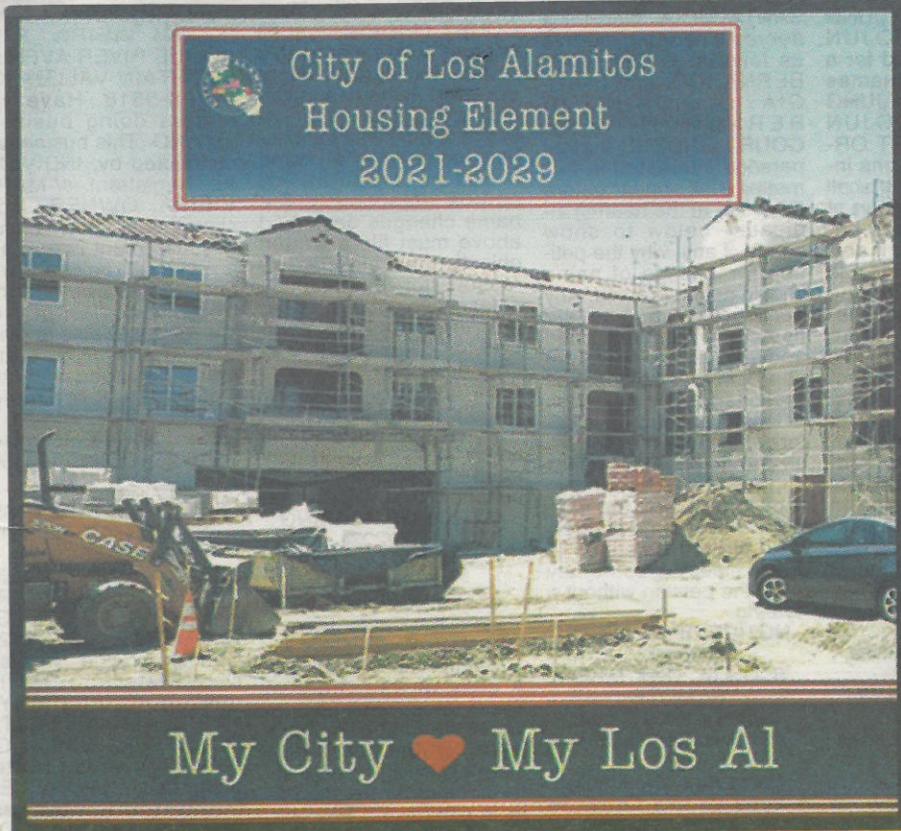

The City of Los Alamitos promotes fair housing and makes all programs available to low-income families and individuals, regardless of race, religion, color, national origin, ancestry physical disability, mental disability, medical condition, marital status, political affiliation, sex, age, sexual orientation or other arbitrary factor.

## COMMUNITY WORKSHOP NOTICE

## COMMUNITY WORKSHOP NOTICE

The City is updating its Housing Element of the General Plan for the 2021-2029 planning period. Join us on Wednesday, August 25, 2021, at 6:00 p.m. in the City of Los Alamitos Council Chamber at 3191 Katella Avenue.

The Housing Element Update addresses new State Housing Element law, the Regional Housing Needs Assessment (RHNA) allocation for the City, and a site inventory to meet the RHNA. The Update also lays out goals, policies, and actions for the preservation, improvement, and development of housing throughout the City. All members of the public are encouraged to attend. The City will take public comments on the Update from those attending. Specific questions regarding the workshop or Housing Element may be directed to Tom Oliver, Associate Planner, at (562) 431-3538 x303 or [TOLiver@cityoflosalamitos.org](mailto:TOLiver@cityoflosalamitos.org).

Community  
Workshop  
August 25,  
2021

 **City of Los Alamitos Housing Element  
2021-2029**

**My City ❤️ My Los Al**

# Background and Requirements

- The Housing Element is one of the Elements required in our General Plan
- It is the only Element that must be updated on a regular schedule.
- The Housing Element must be reviewed and “certified” by the State.
- The purpose of the Housing Element is to assure that the City facilitates the development of housing for all economic and social segments within the community.

# Demographics

## ■ Population

- 2021 population is 11,538, or 89 more than in 2010.
- SCAG projects 2045 population will be 12,300, or 762 more residents.

## ■ Age

- 40.8% of residents are 25-54
- 30.3% are 55 or older (fastest growing segment)

## ■ Employment

- 5,532 residents work (48%)
- 6.3% unemployment (April 2021)
- Labor force has shrunk from 6,500± in 2010 to 5,300± in 2021

## ■ Income

- County Median: \$98,086
- City Median: \$88,729

# Demographics

- **Housing Units**

- 4,437 units
  - 4,291 occupied (3.3% vacancy – consistently low)

- **Households**

- 4,092 households in 2019 (0.8% higher than 2010)
- 2.63 people per household

- **Owners/Renters**

- 1,739 owner-occupied (42.5% vs. County at 57%)
- 2,353 renter-occupied (57.5% vs. County at 43%)

- **Housing Value (2019)**

- Los Alamitos: \$761,200
- Orange County: \$679,300

- **Median Rents (2019)**

- \$1,289 (1 bedroom) to \$2,938 (4 bedroom)

# Housing Needs

- **Overpayment**
  - 48% of renters spend more than 30% of their income on housing
  - 26% of owners spend more than 30% of their income on housing
- **Overcrowding**
  - 134 renter-occupied units are overcrowded (6% of rental units)
  - 33 owner-occupied units are overcrowded (19.3% of owner units)
- **Seniors**
  - 1,165 senior households: 67% of seniors own, 33% rent
  - Median income: \$60,250
    - 21% make less than \$25,000
    - 39% make \$25,000-\$74,999
- **Special Needs**
  - 18% of female-headed households live below poverty level.
  - 1,039 disabled residents, 486 of whom are seniors.
  - 575 extremely low income households

# Regional Housing Needs Allocation

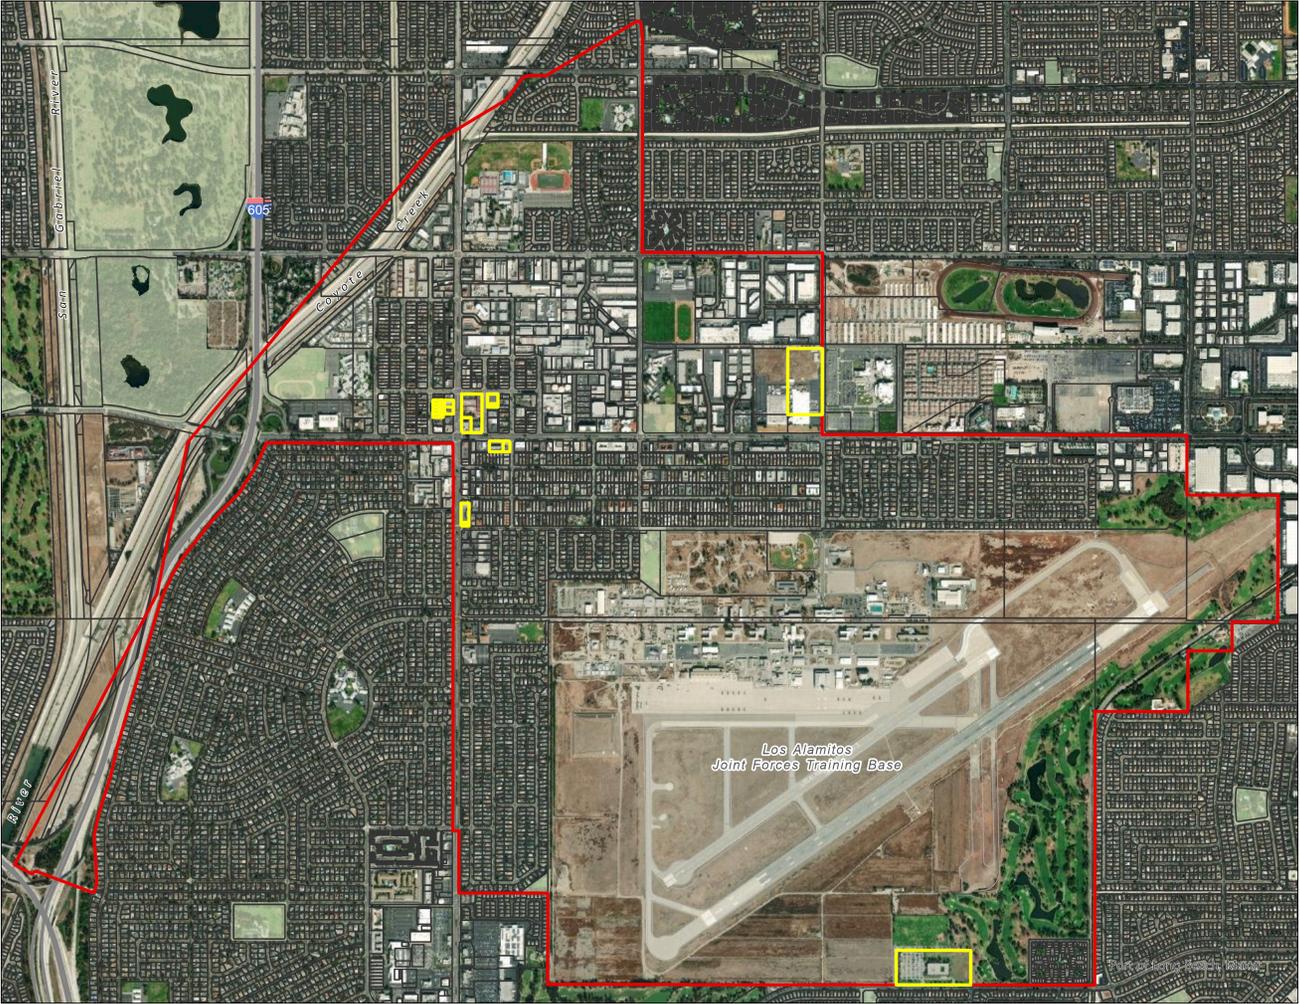

- Statewide need established by the California Department of Housing & Community Development
- Regional need distributed by the Southern California Association of Governments
- Based on population growth, employment, proximity to transit.

		Los Alamitos Regional Housing Needs Allocation 2021–2029				
	Extremely Low Income	Very-low Income <sup>1</sup>	Low Income	Moderate Income	Above-Moderate Income	Total Allocation
<b>Housing Units</b>	97	97	119	145	311	769
Notes: <sup>1</sup> Although not provided in the RHNA state law requires cities to plan for units to accommodate extremely low income, which can be estimated at 50% of very-low income, or 97 units.						
Source: Based on SCAG's 6th cycle Final RHNA Allocation, adopted March 2021.						

# Housing Inventory

City of Los Alamitos Housing Element Update Inventory of Available Sites									
Address	Site ID	Acres	Very Low	Low	Moderate	Above Moderate	Total Units	Zoning	Density (du/ac)

10909 Los Alamitos Blvd	Town Center	0.29	1	1	1		3	TCMU	60
<b>Total</b>		31.18	196	129	152	333	810		

# Housing Inventory Sites

## Policy Direction

- No substantial change in City's Policy framework.
- Updates to Zoning Ordinance to comply with State law changes.
- Create an R-4 Zone that allows 30-36 units per acre (applies to sites 4 and 7)
- Town Center: Allow 60 units per acre, and assign limited number of affordable units to many parcels (inclusionary requirement)
- Promote Accessory Dwelling Units and Junior Accessory Dwelling Units

## Next Steps

- Provide the Draft Element for 2-week public comment period
- Submittal to HCD for 60 day review
- Prepare and circulate CEQA documentation
- Amendments and resubmittal to HCD
- Planning Commission hearing
- City Council hearing

Brandi resides in Orange County with her husband and their two

## COMING SOON: CURB PAINTING SERVICES

### CITY COUNCIL APPROVAL:

ON JUNE 21, 2021, THE LOS ALAMITOS CITY COUNCIL AUTHORIZED STREET CURB ADDRESS PAINTING SERVICES FOR THE 2021 CALENDAR YEAR, ON A STRICTLY DONATION BASIS WITH CANNING HUNGER.

### APPROVED CURB DESIGN:

### EACH WORKER WILL:

• HAVE A COPY OF THE PUBLIC WORKS PERMIT

• HAVE A PERSONAL ID BADGE

• BE WEARING AN ORANGE/WHITE CANNING HUNGER SHIRT

### ONCE THE WORK IS COMPLETED, WHAT HAPPENS NEXT?

ONCE EACH ADDRESS HAS BEEN CHECKED FOR QUALITY AND ACCURACY, A REPRESENTATIVE WILL STOP BY TO OFFER A TAX-DEDUCTIBLE RECEIPT TO EVERY RESIDENT WHO CHOOSES TO MAKE A **DONATION** FOR THE SERVICE.

### HAVE QUESTIONS?

- **CONTACT GREG WITH CANNING HUNGER AT 1-888-354-FOOD(3663)**
- **TO CONTACT THE PUBLIC WORKS DIVISION, PLEASE CALL (562) 431-3538 EXTENSION 301**

My City ♥ My Los Al

Upcoming Curb Address Painting Services: On June 21, 2021, the Los Alamitos City Council authorized street curb address painting services for the 2021 calendar year with Canning Hunger. For the duration of 7 weeks, commencing at the end of September, the Canning Hunger team will be out completing street curb painting.

Workers will have a copy of the City's Public Works permit, a personal ID badge, and will wear an orange/white shirt. Donations are optional, not required. Have questions? Please feel free to contact the Public Works Division at (562) 431-3538 extension 301.

The 2021-2029 **General Plan Housing Element** sets strategies for the City's housing decisions. A draft will be circulated for a **16-day public review & comment, October 11-27, 2021**. Please mail comments to the City of Los Alamitos Development Services Department, Attn: Tom Oliver, 3191 Katella Ave., Los Alamitos, CA 90720, or email to: [toliver@cityoflosalamitos.org](mailto:toliver@cityoflosalamitos.org)

The Planning Commission will provide a **public hearing** for the Housing Element at 7:00pm, Wednesday, October 27th in the City Council Chamber at 3191 Katella Ave.

**A review draft** will be available at:

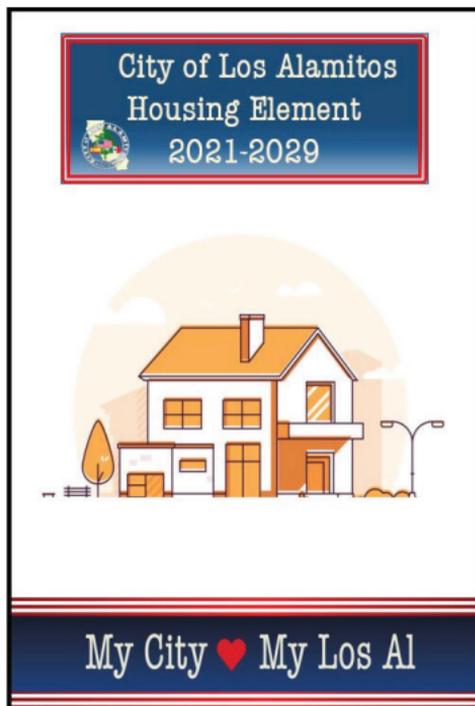

[www.cityoflosalamitos.org/2035-general-plan](http://www.cityoflosalamitos.org/2035-general-plan)

And the following locations:

Los Alamitos-Rossmoor Library - 12700 Montecito Rd., Seal Beach - Tues-Thur, 11:00am - 7:00pm, & Friday-Sat, 9:00am-5:00pm

City Hall - 3191 Katella Ave. - Mon-Thur: 7:30am - 5:30pm

Community Center - 10911 Oak St. Mon-Thur 7:30am - 5:30pm

# GOOD MORNING,

## Los Alamitos!

My City ♥ My Los Al

### Wednesday, March 9, 2022

10911 Oak Street 8:15 am - 9:15 am

Good Morning, Los Alamitos! is an event to create community connectivity by bringing residents, the business community, and the City together. The City of Los Alamitos is building a culture of meaningful engagement that is inclusive, consistent and transparent for our community. Please join City Manager, Chet Simmons and City Staff on Wednesday, March 9 from 8:15 am to 9:15 am at the Los Alamitos Community Center. This is an informal opportunity to meet and converse with City leaders and Staff to ask questions, chat with your fellow residents, the business community, and to learn more about what's happening in Los Al.

- ★ Good Morning, Los Alamitos! will be held biannually and is open to the public. All are encouraged to attend.
- ★ Registration will be \$10 per person and will include a light breakfast. All proceeds will benefit the Los Alamitos Recreation & Community Services Scholarship Fund.

To register please visit, <https://www.eventbrite.com/e/good-morning-los-alamitos-tickets-262233275787>. For more information, please call the Development Services Department at (562) 431-3538.
